The College Cost Disease Robert E. Martin, 2011-01-01 College cost per student has been on the rise at a pace that matches or exceeds healthcare costs. Unlike healthcare though, teaching quality has declined and rapidly rising costs and declining quality are not trends easily forgiven by society. The College Cost Disease addresses these problems providing a behavioral framework for the chronic cost quality consequences with which higher education is fraught. Providing many compelling insights into the issues plaguing higher education, Robert Martin expounds upon H. R. Bowen's revenue theory of cost by detailing experience good theory, the principal agent problem, and non-profit status. Reputation competition dominates higher education. Students and their parents and public opinion in general associate higher tuition with higher quality and greater accolades. Price is used as a proxy for quality only when consumers are uncertain about quality prior to purchase. Higher education services are the most complex types of experience goods, a service whose quality can only be determined after a purchase has been made. Applying formal economic theory to higher education, Robert Martin examines how and why attempts to control costs are controversial and the damaging effects these controversies have on institutions' reputations. Arguing that the college access problem cannot be solved until colleges and universities find a way to control their costs, this book brings to the fore the leading ideas that will bring about much needed budgetary reform in higher education.

Erlich,2017-03-17 These are essays indeed but generally not the sort taught in schools or that I taught for forty years not in the elegant Intro Thesis Proof Conclusion tradition but more in the older tradition of Michel de Montaigne and les essais and of satire That is they are attempts explorations and well also traps where I wander around a bit in apparent innocence and then spring on readers a possibly outrageous idea one they wouldn t have considered for a moment if I hadn t lulled them you into trusting me a bit Some of

the essays are also in the satiric tradition where one tries for some startling combinations of learned language and vulgarity short shocker sentences in the midst of some knotty convolutions Anyway the essays usually do come to some fairly clear fairly serious non random conclusion and Views can't be entirely without form So my initial editor and I have arranged them into categories The overarching meta category for most is POLITICS or POLITICS AND CULTURE I was brought up political in Chicago and have remained true to my breeding as a thoroughly political animal and of course I am a student of and participant in at least a couple of cultures
