In *British Quakers and Religious Language* Rhiannon Grant explores the ways in which this community discusses the Divine. She identifies characteristic patterns of language use and through a detailed analysis of examples from published sources uncovers the philosophical and theological claims which support these patterns. These claims are not always explicit within the Quaker community which does not have written creeds. Instead implicit claims are often being made with community functions in mind. These can include a desire to balance potentially conflicting needs such as the wish to have a single unified community that simultaneously welcomes diversity of belief. Having examined these factors Grant connects the claims made to wider developments in the disciplines of theology, philosophy of religion and religious studies especially to the increase in multiple religious belonging, the work of nonrealist theologians such as Don Cupitt and pluralist philosophers of religion such as John Hick. *Student Ministry by the Book* Dr. R. Scott Pace, Ed Newton, 2019-02-01

The field of youth ministry is often driven by fads and trends as leaders attempt to reach students by chasing the ever changing tides of teenage culture. This short sighted though often sincere approach not only produces superficial and misguided disciples it leaves youth leaders and parents drained and disappointed by the lack of authentic spiritual transformation despite their heartfelt and painstaking efforts.
