Chezan, Katie Wolfe, Erik Drasgow, 2022-08-10 This book provides resources for the identification selection implementation and evaluation of evidence based practices to promote positive outcomes for learners with autism spectrum disorder ASD across the lifespan and to enhance their quality of life The decision making process for identifying and selecting evidence based practices to address the academic behavioral and social needs of this population of learners is discussed followed by a systematic description of the implementation and

evaluation of evidence based practices within the context of ongoing assessment and data based decision making The authors present evidence based training models for solving the common dilemmas of selecting implementing and evaluating evidence based practices Finally the book underlines the importance of developing collaborative partnerships with families and other professionals to better address the needs of learners with autism spectrum disorder **The Goldilocks Map: A classroom teacher's quest to evaluate 'brain-based' teaching advice** Andrew C. Watson, 2021-05-03

In the last 20 years the cognitive sciences have revealed fresh surprising and useful insights into how and why our students learn Teachers can now draw on psychology and neuroscience research to supplement reconsider even overturn our traditions and training To use this research most wisely teachers must find our way to an elusive Goldilocks Zone Instead of resisting all research based guidance we should be ready to take it to heart even when it challenges both our training and conventional wisdom Instead of accepting all research based guidance we should be ready to reject it emphatically especially the hyped up edu fads that exaggerate and misinterpret psychology findings How can we get this Goldilocks balance just right This book offers a specific practical quest map to discover just such a balance By critically examining the source the research and ourselves teachers can develop the skills necessary to be effective research skeptics Written by a teacher with 18 years in the classroom and 13 years studying neuroscience and psychology The Goldilocks Map transforms brain research from a daunting monologue into an approachable exciting and lively conversation **Reading Like a Historian** Avishag Reisman, 2011

Enthusiasm about the instructional potential of primary sources dates to the late 19th century and has been echoed recently in the work of literacy experts historians and educational psychologists Yet no extended intervention study has been undertaken to test the effectiveness of primary source instruction in real history classrooms This study with 236 eleventh grade students in five San Francisco high schools represented the first large scale extended curriculum intervention in disciplinary reading in an urban district The Reading Like a Historian RLH curriculum constituted a radical departure from traditional textbook driven instruction by using a new activity structure the Document Based Lesson in which students used background knowledge and disciplinary reading strategies to interrogate and then reconcile historical accounts from multiple texts A quasi experiment control design measured the effects of a six month intervention on four dimensions 1 students historical thinking 2 their ability to transfer historical thinking strategies to contemporary issues 3 their mastery of factual knowledge and 4 their growth in general reading comprehension MANCOVA analysis yielded significant main effects for the treatment condition on all four outcome measures Qualitative analyses of videotaped classroom lessons were conducted to determine the frequency and nature of whole class text based discussion Only nine whole class text based discussions were identified in over 100 videotaped classroom lessons despite the presence of instructional materials explicitly designed to support student discussion of debatable historical questions Analysis of teacher and student participation suggests a relationship between active teacher facilitation that reviews background knowledge and poses direct questions about texts and higher levels of

student argumentation This dissertation is structured as three free standing papers each of which addresses one aspect of the larger study In the first paper I discuss the design of the quasi experimental study and report quantitative findings In the second paper I locate teacher facilitation of whole class historical discussion in the literature on classroom discourse and I propose a developmental framework for analyzing student historical argumentation in classroom discussion In the third and final paper I discuss the theoretical underpinnings of the intervention curriculum and offer two examples to illustrate the structure of the Document Based Lesson

Reading Instruction in America Barbara Ruth Peltzman,2015-10-02 The diversity of student populations in the United States presents educators with many challenges To provide effective reading instruction for the individual student teachers must understand the enormous variety of reading methods and materials that exist and make independent decisions based on their students particular needs Research indicates that educators are often influenced by reading instruction fads that quickly fade making it more challenging to develop a repertoire of teaching strategies in which a teacher may have confidence This book examines a variety of reading methods used in American schools from the 19th to the 21st century and the literature promoting or critiquing them to help teachers become informed decision makers and better meet the needs of students
