Smart Trends in Computing and Communications Tomonobu Senjyu, Chakchai So-In, Amit Joshi, 2025-09-30 This book gathers high quality papers presented at the Ninth International Conference on Smart Trends in Computing and Communications SmartCom 2025 organised by Global Knowledge Research Foundation GR Foundation from 29 to 31 January 2025 in Pune India It covers state of the art and emerging topics in information computer communications and effective strategies for their use in engineering and managerial applications It also explores and discusses the latest technological advances in and future directions for information and knowledge computing and its applications [Evolving Networking Technologies](#) Kanta Prasad Sharma, Shaurya Gupta, Ashish Sharma, Dac-Nhuong Le, 2023-05-31 EVOLVING NETWORKING TECHNOLOGIES This book discusses in a practical manner some of the critical security challenges facing the ever evolving networking technologies of today In an age of explosive worldwide growth of electronic data storage and communications effective protection of information has become a critical requirement especially when used in coordination with other tools for information security and cryptography in all of its applications including data confidentiality data integrity and user authentication While the importance of cryptographic technique i.e. encryption in protecting sensitive and critical information and resources cannot be overemphasized an examination of the technical evolution within several industries reveals an approaching precipice of scientific change The glacially paced but inevitable convergence of quantum mechanics nanotechnology computer science and applied mathematics will revolutionize modern technology The implications of such changes will be far reaching with one of its greatest impacts affecting information security and more specifically modern cryptography The book takes the reader through these issues As the security systems design becomes more and more complex to meet these challenges a mistake that is committed most often by security specialists is not making a comprehensive analysis of the system to be secured before choosing which security mechanism to deploy Often the security mechanism chosen turns out to be either incompatible with or inadequate for handling the complexities of the system In addition the book also discusses three main points Configuration management is a critical issue and as networks are increasing in size their configuration needs to be managed Devices may conflict with each other in terms of configuration Therefore it becomes challenging for firewalls to be up to date according to network policies Scalability of the network is another big challenge it would be easier to address if the network stays the same but the network is ever expanding with a constant increase in the number of devices devoted to the network Vendor lock in Business decisions that are taken today are revolving around the assumptions and capabilities of the current vendor and environment scenario Buying the best solutions

from today's vendors involves how to interoperate, integrate and support multiple solutions. It may involve tearing out all of the longstanding kits without tearing down the entire network at the same time. Audience: This book specifically appeals to industry practitioners, IT researchers and students regarding network technological management.

[Managing the Smart Revolution in Tourism Firms](#) Francisco J. Navarro-Meneses, 2023-03-31

Smart technologies are revolutionizing tourism as they are having a profound impact on the way tourists behave and on how firms interact with them and create value. The increasing availability of real-time Big Data and the advances made in data analytics techniques, artificial intelligence and IoT has begun to transform tourism organizations in ways not previously considered and in a lasting manner. This book delivers the latest and most relevant advances in the field of smart transformation and the management practices that can be put into practice to continue creating value in the years to come. Divided into four main parts and 23 chapters, it highlights the challenges that the Smart Revolution brings to tourism firms by providing updated knowledge on the literature, research and experiences of the author. The book will also provide a guide for action to business leaders and those approaching the fundamentals of the Smart Revolution for the first time. It will also serve as a valuable text for undergraduate and graduate students on specialized courses in tourism technology and business transformation.
