Crushed Ken Buck, 2023-01-17 AMERICAN DEMOCRACY IS AT RISK No one conservative or liberal should be comfortable with a few Silicon Valley oligarchs having a monopoly over the marketplace of ideas and with it democracy itself Senator Ted Cruz When the Founding Fathers drafted our Constitution they had no idea there would be a Big Tech nor any concept of the immense power these companies would wield over our people But the Fathers did provide mechanisms a system of check and balances for the people to stop dangerous monopolies like Google Facebook Apple and Amazon from suffocating our business and political life Few know more about these mechanisms than Rep Ken Buck who has been a leader in Congress fighting against the unchecked power of Big Tech In CRUSHED Big Tech s War on Free Speech Buck exposes the bullying and predatory behavior from the Big Tech giants who have used their technologies and their unbelievable market shares to stifle commerce and censor free speech He spells out the inside details of how these companies restrict free markets stop competition increase prices and ultimately hurt consumers Even worse Big Tech companies like Google Twitter and Facebook are actively censoring conservative news and views as they openly manipulate information provided to voters Ken Buck shows how these tech giants are true monopolies and their concentrated power pose a serious danger for our democracy In contrast to the robber barons of the Gilded Age who simply posed a threat to commerce Big Tech threatens the very core of our political system They control the flow of information shared with the public for their own financial and political gain In CRUSHED Ken Buck argues that while Americans are under siege by Big Tech we are not destroyed We can still take on Big tech fight back and even win The future of our nation depends on it he says IT IS TIME TO FIGHT BACK

Tap Anindya Ghose, 2018-09-11
 How the smartphone can become a personal concierge, not a stalker, in the mobile marketing revolution. Of smarter companies, value-seeking consumers, and curated offers: Consumers create a data trail by tapping their phones; businesses can tap into this trail to harness the power of the more than three trillion-dollar mobile economy. According to Anindya Ghose, a global authority on the mobile economy, this two-way exchange can benefit both customers and businesses. In *Tap*, Ghose welcomes us to the mobile economy of smartphones, smarter companies, and value-seeking consumers. Drawing on his extensive research in the United States, Europe, and Asia, and on a variety of real-world examples from companies including Alibaba, China Mobile, Coke, Facebook, SK Telecom, Telefonica, and Travelocity, Ghose describes some intriguingly contradictory consumer behavior: people seek spontaneity, but they are predictable; they find advertising annoying, but they fear missing out; they value their privacy

but they increasingly use personal data as currency When mobile advertising is done well Ghose argues the smartphone plays the role of a personal concierge a butler not a stalker Ghose identifies nine forces that shape consumer behavior including time crowdedness trajectory and weather and he examines these how these forces operate separately and in combination With Tap he highlights the true influence mobile wields over shoppers the behavioral and economic motivations behind that influence and the lucrative opportunities it represents In a world of artificial intelligence augmented and virtual reality wearable technologies smart homes and the Internet of Things the future of the mobile economy seems limitless
