The Digital Future of English Simone Murray, 2025-07-18

More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book's imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology's impact on the

underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future Romantic Friction Lori Gold,2025-05-06 Relatable characters sharp writing and emotional turbulence will make you laugh and cry Sally Hepworth New York Times bestselling author of Darling Girls Sofie Wilde s bestselling fantasy romance series has been breaking bestseller records and readers hearts for years She s primed to become a worldwide phenomenon as the tenth and final book is set to debut after the annual romance readers convention takes place in Chicago next week As buzz continues to build toward the book s release Sofie is asked to headline the event for the first time a career milestone One she won t let anyone take from her especially the next Sofie Wilde That s what they re calling her Hartley West the self published debut author who writes in the style of Sofie Wilde Except she doesn t actually write anything After Hartley admits to using AI to create her novel Sofie s ready to watch Hartley be skewered on social media Except in this unpredictable world Hartley is instead lauded for being innovative for being such a skilled editor to take what the AI churned out and massage it into a story that s just as compelling as Sofie s maybe even more so After her unhinged rant unintentionally goes viral Sofie loses her keynote and she s starting to lose all her support That loss is Hartley s gain as her book sales start soaring she s given the headliner spot Sofie is livid And she s not the only one As the convention begins Sofie is surrounded by fellow authors who also fear for their futures their livelihoods their art being stripped away one AI prompt at a time Something must be done This has to be stopped Now With the clock ticking down to the keynote Sofie enlists her fellow authors in a plan to stop Hartley vowing The next Sofie Wilde over my dead body Or hers Lori Gold has crafted a raucous romp through the world of publishing asking what it really means to be a writer in the time of AI perfect for fans of Finlay Donovan is Killing It and Emily Henry **The Sins of Silas** Kylie Snow,2025-09-18 A SECRET MAGE A VENEGETFUL PRINCE WILL FORBIDDEN LOVE UNITE THE REALM OR BURN IT DOWN please check trigger warnings before diving in Five years ago Silas La Rune lost everything his mother his home and his love Lena Daelyra Grief turned into rage and rage to purpose Now known as the Slayer of Witches Silas wages a brutal campaign against Magekind But during a raid on a Mage village he finds Lena alive hiding a secret darker than betrayal she is a Mage herself Torn between fury and forbidden desire Silas can t help but show mercy when faced with the eyes of his lost love Amid a Kingdom on the brink of war with no one else to turn to the pair form a fragile alliance to to topple the tyrant King of Otacia Silas own father Ulric La Rune Yet another shadow looms a rising necromancer is beginning to terrorise the land they once called home Forced to hide their past every stolen glance reignites a fire they cannot tame As rebellion ignites and old loyalties fray Silas can t decide what will destroy him first her lies or his sins READERS LOVE THE OTACIAN CHRONICLES Like a movie intense cinematic and an emotional rollercoaster Kylie is going to wreck me in book two and honestly I m ready Couldn t eat sleep or function
