Dear [Mr./Ms./Mx.] [Hiring Manager's Last Name],

The first paragraph should contain a self-introduction. Write who you are, where your expertise lies, where you found the job posting (or who referred you), and why you want to apply.

The second paragraph should respond directly to the job description. Describe how your relevant experiences, skills, and abilities help you meet the company's needs. To make that easier, you can (and should) literally include words and phrases from the job description here.

- You can also include a bulleted list of your accomplishments
- Make sure you quantify (add numbers to) these bullet points
- A cover letter with numbers is 100% better than one without

To go the extra mile, research the company and try to find out what they are doing — and why— given the current state of their industry. Explain how you can fit into that framework, and help push the company forward and achieve any goals you suspect they have.

The final paragraph is the "call to action" portion of your cover letter. Inform the hiring manager that you'd love to get interviewed. Give them your contact information. Tell them you'll reach out again next week if you don't hear back. Thank them for their time.

Sincerely,

Thomas Beasley

Stories Can Save Us Matt Tullis, 2024-06 Great journalism relies on a narrative arc to engage and inform the reader. *Stories Can Save Us* looks at how the best reporters and writers craft narrative literary journalism. Journalist Matt Tullis uses the material he gathered in the more than seventy-five interviews he conducted with the best narrative and literary journalists in the country through his podcast *Gangrey The Podcast* to show how these professionals conceive and write such compelling stories. Through his podcast, Tullis interviewed Pulitzer Prize winners, National Magazine Award winners, and many authors of books of narrative journalism, including New York Times best-selling authors. He also spoke with reporters of different races and backgrounds, styles, and strengths, journalists who have been published in the most prestigious newspapers and magazines, to ask: How do they find story ideas? How do they reach out to potential story subjects? What are their interview strategies? How do they conduct other information gathering? How do they come up with their amazing and enticing leads? How do they develop story structure? How does the story change in the revision process? How do they make their stories great and make them into the types of stories that people read and talk about for years? Through Tullis's conversations with these top-tier journalists, we are offered a window into their methods and practices, as well as the motivations behind great journalism and how it speaks to the cultural climate of its time. Tullis's goal was to expand the power and potential of what amazing reporting and narrative writing can do, believing that it can literally change a reader's mood and possibly a reader's life.

Epistolarity in a Post-Letter World Sindija Franzetti, 2024-11-18 The study intervenes in a field hitherto dominated by formal and historical analyses of the literary letter. Across the five case studies, the method of reading epistolarity as a motif is applied to a selection of American novels published after 1990. Nick Bantock's *Griffin*, Lish and Dunn test the limitations of letters for conveying individual experience to a distant other. Robinson and Erdrich envision epistolarity as an address to a future. Exploring the employment of epistolarity as a motif, the study offers an interpretation of the messages these fictions extend for readers in a post-letter world. Communication technologies and practices may change, but epistolarity as a motif, a reprise of a scene of encounter that depends on keeping a distance between addresser and addressee, remains a deeply compelling site of inquiry in twenty-first-century literature.

Get Your

Book Seen and Sold Claudine Wolk, Julie Murkette, 2023-09-25 Book marketing is intimidating for most authors. It's like learning a new language. Most authors believe that writing the book is the hard part of publishing and that they are done after writing the words. The End. Those in the publishing industry know better. The hard part of publishing starts after the book is completed. By the time most authors realize that they need to market their book, they are too late. Wolk and Murkette set out to change that outcome by providing an easy, fun system for book marketing that is straightforward and understandable. Authors want one thing to give their books the BEST chance to be seen and sold. Today, authors have so many easy ways to publish literally at their fingertips, but after hitting the publish button, they find book sales elusive. In the brand new guide *Get Your Book Seen and Sold*, authors Claudine Wolk and Julie Murkette provide an easy book marketing strategy with a definitive starting point and a clear map. Through fun graphs, examples, and exercises in the guide, authors will stay focused and find the empowerment to successfully promote their books. **Being Flawesome** Nicholas

Matthews, 2021-01-21 A remarkable fact to reflect on: You are perfect. What we do in action and what we consider in thought remain vulnerable to imperfection. It is for this reason that we often find ourselves living in a confused state of contradiction whereby we strangely possess the capacity to surrender to the dangerous and ungrounded assumption that would say we are simply a representation of our flawed character. Or that we are not good enough, similarly that we need more. The alternative and more appealing by far is to consider our lives as being securely rooted in the grounded wisdom of having a perfected identity. The key to confidence is living from perfected identity. Jesus perfects our identity while our character remains vulnerable to imperfection. *Being Flawesome* explores the tension between flawed character and perfected identity and advocates a life of living imperfectly perfect. **Turning the Page** Angus Phillips, 2014-02-05 This is an exciting period for the book, a time of innovation, experimentation, and change. It is also a time of considerable fear within the book industry as it adjusts to changes in how books are created and consumed. The movement to digital has been taking place for some time, but with consumer books experiencing the transition, the effects of digitization can be clearly seen to everybody. In *Turning the Page*, Angus Phillips analyses the fundamental drivers of the book publishing industry: authorship, readership, and copyright, and examines the effects of digital and other developments on the book itself. Drawing on theory and research across a range of subjects from business and sociology to neuroscience and psychology, and from interviews with industry professionals, Phillips investigates how the fundamentals of the book industry are changing in a world of ebooks, self-publishing, and emerging business models. Useful comparisons are also made with other media industries which have undergone rapid change, such as music and newspapers. This book is an ideal companion for anyone wishing to understand the transition of the book, writing and publishing in recent years, and will be particularly relevant to students studying publishing, media, and communications. **Manage Your Mindset** Janet Hanson, 2017-09-08 As the foremost researcher in the area of correlating mindset with a variety of organizational learning factors, having performed a survey validation study of the Mindset Works

Gestures of Concern Chris Ingraham, 2020-07-27 In Gestures of Concern Chris Ingraham shows that while gestures such as sending a Get Well card may not be instrumentally effective they do exert an intrinsically affective force on a field of social relations From liking sharing posting or swiping to watching a TED Talk or wearing an I Voted sticker such gestures operate as much through affective registers as they do through overt symbolic action Ingraham demonstrates that gestures of concern are central to establishing the necessary

conditions for larger social or political change because they give the everyday aesthetic and rhetorical practices of public life the capacity to attain some socially legible momentum Rather than supporting the notion that vociferous public communication is the best means for political and social change Ingraham advances the idea that concerned gestures can help to build the affective communities that orient us to one another with an imaginable future in mind Ultimately he shows how acts that many may consider trivial or banal are integral to establishing those background conditions capable of fostering more inclusive social or political change

That Book Is Dangerous! Adam Szetela, 2025-08-12 An alarming exposé of the new challenges to literary freedom in the age of social media when anyone with an identity and an internet connection can be a censor In *That Book Is Dangerous* Adam Szetela investigates how well intentioned and often successful efforts to diversify American literature have also produced serious problems for literary freedom Although progressives are correct to be focused on right wing attempts at legislative censorship Szetela argues for attention to the ways that left wing censorship controls speech within the publishing industry itself The author draws on interviews with presidents and vice presidents at the Big Five publishers literary agents at the most prestigious agencies award winning authors editors marketers sensitivity readers and other industry professionals to examine the new publishing landscape What he finds is unsettling mandatory sensitivity reads morality clauses in author contracts even censorship of dangerous books in the name of antiracism feminism and other forms of social justice These changes to acquisition practices editing policies and other aspects of literary culture are a direct outgrowth of the culture of public outcries on X Goodreads Change.org and other online platforms where users accuse authors justifiably or not of racism sexism homophobia and other transgressions But rather than genuinely address the economic inequities of literary production this current moral crusade over literature serves only to entrench the status quo While the right is remaking the world in its image he writes the left is standing in a circular firing squad Compellingly argued and incisively written the book is a much needed wake up call for anyone who cares about reading writing and the publication of books as well as the generations of young readers we are raising

2000 Years of Lies Jairo Borda Jara, 2024-06-20 The Christian Bible or so called New Testament depends to a great extent on the writings of the Jewish Bible The problem here is that the New Testament writers misused the Hebrew Bible and made a dishonest use of Biblical Jewish texts to support its false teachings This work exposes the manipulation distortion and falsifications of Jewish Biblical texts Wherever Jewish Biblical Texts are used in the New Testament they are intentionally manipulated to show something different than its original message was meant to be This can be seen all the way along the Gospels and even more so in the writings of Paul There are two Jesus figures One that speaks like a Jew and one Jesus that speaks like a non Jew The New Testament is built on false salvation teachings with no Jewish Biblical support The teachings are supported by Gnosticism Mystery religions cults and some distorted Judaism

Rights of the Child, Mothers and Sentencing Alice Macharia, 2021-02-22 This book draws international attention to the autonomy of the child accompanying incarcerated mothers and those they leave behind in the community despite being dependent on the convicted caregiver Adopting a child rights perspective the study explores how courts could go about sentencing mothers of young children for the commission of criminal offences whilst protecting the rights of the child as envisaged under the United Nations Convention on the Rights of the Child UNCRC Drawing on the author's experience as a sentencer in the Kenyan court and with reference to domestic regional and international law the book argues that children's rights are presently left in abeyance when their mothers are sentenced to imprisonment and that greater efforts should be made to recognize and give effect to the child's existence as an autonomous equal holder of human rights despite being dependent on the convicted caregiver It explores the application of precedence as well as the court's discretion in view of the dependent child and concludes that policy reform in this respect calls for change in attitude and approach on women and children's issues Observing that internationally most women imprisoned with their children fall beneath the custodial threshold set by law the research examines how current sentencing practices could be reformed and suggests harnessing the Power of Mercy Committee the Sentencing Guidelines and progressive practices from developed countries in protecting the child's rights by imposing non custodial sentences for the offending mothers It is concluded that in all jurisdictions strict accountability for the dependent child should be situated with the judiciary and that the same should be pronounced as a mandatory legal requirement The book will be a valuable resource for academic researchers and policy makers working in the area of international children's rights law and criminal law
