Reddit Near Me:

You Should Quit Reddit Jacob Desforges, 2023-02-21 In recent years countless books articles and documentaries have addressed the negative effects that social media platforms have wrought on their users and society However these former works are incomplete nearly no attention has been paid to Reddit one of the most popular websites in the world Reddit is certainly unique among social platforms but its potential for addiction and darker side of nefarious activity should absolutely not be understated Additionally nearly no actionable advice has been provided to users of these platforms The audience is told that these websites and apps are harming their mental health wasting their time and that they are addictive which would logically make the task of quitting rather difficult but then provided zero guidance on how to disconnect from them Over 200 000 users gather on Reddit s r NoSurf community to discuss reducing their internet use the forum is filled with reports of people who want to quit Reddit but find themselves psychologically compelled to return to the site over and over For moderate to heavy users of these platforms quitting is clearly not so simple *You Should Quit Reddit* is a paradigm shift in the genre Jacob Desforges was a Reddit user of over a decade and a self admitted Reddit addict who spent on average around three hours daily on the site Not only is this the first book investigating Reddit s flaws as a platform but it is also written from the perspective of someone who experienced firsthand the struggle that comes with quitting these addictive platforms This book therefore also provides readers with the practical advice tools and techniques needed to shatter the cycle of digital addiction enabling them to quit visiting Reddit and other time wasting websites for good so they can effectively reclaim their time to use in a more intentional manner

Understanding Reddit Elliot T. Panek, 2021-12-24 This book offers a comprehensive scholarly overview of Reddit one of the most popular and least studied social platforms of the early 21st century The book inspires new ways of thinking about Reddit considering it from multiple perspectives through a historical lens as a site where identity is forged as a democracy as a community and as a news aggregator and distributor By bringing theories from computer mediated communication communication studies and sociology to bear on original large scale observational analyses of Reddit s communities this book provides a uniquely comprehensive overview of the platform s first 15 years *Understanding Reddit* will help us make sense of how rapidly growing communities function in an era of mass online anonymity Serving both as a primer on how social behavior on Reddit plays out and as a way of locating it within multiple theoretical traditions the book will offer important insights to scholars and students in the disciplines of communication media studies information science internet and emerging media studies and sociology

Growth Hacking Reddit Jonathan Rintala, 2025-08-28 The startup founder s playbook to hacking growth on Reddit And how to build a million dollar SaaS using Reddit With examples and screenshots to copy Focused on B2B SaaS You will learn proven tactics to Find high intent buyers for your SaaS Get large exposure to relevant prospects Show up in AI search and Google without SEO Get deal flow from Reddit Why Reddit to grow SaaS Now that AI content is popping up everywhere communities and Reddit is one of the best

ways to spend your time if you want to grow a SaaS Growth marketers at some of the fastest growing SaaS in the world seem to agree For example Head of Growth at Deel shares how they used Reddit as part of their strategy scaling from 0 to 300M in ARR in 3 years If you re a SaaS founder growth marketer or someone looking to drive leads and revenue Reddit is a goldmine waiting to be tapped into Three reasons why Reddit 1 Google loves Reddit Search engines have undergone massive changes in the last years making the old SEO marketing playbooks obsolete Google now promotes Reddit posts and comments on the top of the Search Engine Page SERP 2 AI loves Reddit Generative search and Large Language Models LLMs like ChatGPT Gemini and Claude need quality content to train on favouring human generated content coming from communities like Reddit 3 Buyers trust Reddit People go to Reddit to get honest and transparent advice on software to buy Buyers are tired of sponsored blog post pay to play sites affiliates earning commission from articles like top 10 best HR software And tired of AI generated content What if instead of interrupting people with ads or filling their inbox with unwanted emails you could join conversations they re already having And do it for free Too good to be true Well by applying this Reddit playbook it is possible Most books on growth hacking are either outdated or written from a theoretical standpoint by professionals in a suit The problem is growth hacking is not a theory you learn in a classroom Or by putting on a suit It s just as much art as science Finding outsized ways to grow your startup Building something from zero That s the reality for most founders early stage growth marketers and GTM experts This is a practical handbook on how to really drive growth and get customers for your startup using Reddit Nothing more nothing less This stuff is powerful because it works And it can very much move the needle for your startup But you need to put in the work and follow along the steps for the formula [The Dark Social](#) Toija Cinque,Alexia Maddox,Robert W. Gehl,2023-11-07 This book explores how people interact online through anonymous communication in encrypted hidden or otherwise obscured online spaces Beyond the Dark Web itself this book examines how the concept of dark social broadens the possibilities for examining notions of darkness and sociality in the age of digitality and datafied life The authors take into account technical moral ethical and pragmatic responses to ourselves and communities seeking to belong in of the dark Scholarship on the Darknet and Dark Social Spaces tends to focus on the uses of encryption and other privacy enhancing technologies to engender resistance acts Such understandings of the dark social are naturally in tension with social and political theories which argue that for politics and acts to matter they must appear in the public light They are also in tension with popular narratives of the dark recesses of the web which are disparaged by structural powers who seek to keep their subjects knowable and locatable on the clear web The binary of dark versus light is challenged in this book The authors provocation is that practices of dark resistance motility and power are enacted by emerging data cultures This book draws together scholarship activism and creativity to push past conceptual binary positions and create new approaches to darknet and dark social studies The Dark Social Online Practices of Resistance Motility and Power will be a key resource for academics researchers and advanced students of media studies

cultural studies communication studies research methods and sociology This book was originally published as a special issue of Continuum Journal of Media Cultural Studies **Volume Control** David Owen, 2019-10-29 The surprising science of hearing and the remarkable technologies that can help us hear better Our sense of hearing makes it easy to connect with the world and the people around us The human system for processing sound is a biological marvel an intricate assembly of delicate membranes bones receptor cells and neurons Yet many people take their ears for granted abusing them with loud restaurants rock concerts and Q tips And then eventually most of us start to go deaf Millions of Americans suffer from hearing loss Faced with the cost and stigma of hearing aids the natural human tendency is to do nothing and hope for the best usually while pretending that nothing is wrong In Volume Control David Owen argues this inaction comes with a huge social cost He demystifies the science of hearing while encouraging readers to get the treatment they need for hearing loss and protect the hearing they still have Hearing aids are rapidly improving and becoming more versatile Inexpensive high tech substitutes are increasingly available making it possible for more of us to boost our weakening ears without bankrupting ourselves Relatively soon physicians may be able to reverse losses that have always been considered irreversible Even the insistent buzz of tinnitus may soon yield to relatively simple treatments and techniques With wit and clarity Owen explores the incredible possibilities of technologically assisted hearing And he proves that ears whether they re working or not are endlessly interesting Studying Youth, Media and Gender in Post-Liberalisation India Nadja-Christina Schneider, Fritz-Maria Titzmann, 2014-11-21 This volume aims to look both at as well as beyond the Delhi Gang Rape through the lens of Indian Media Studies The editors consider it a critical event or rather critical media event that needs to be contextualized within a rapidly changing diversifying and globalizing Indian society which is as much confronted with new ruptures asymmetries and inequalities as it may still be shaped by the old established structures of a patriarchal social order But the volume also looks beyond the Delhi Gang Rape and introduces other related thematic areas of an emerging research field which links Youth Media and Gender Studies *Social Informatics* Frank Hopfgartner, Kokil Jaidka, Philipp Mayr, Joemon Jose, Jan Breitsohl, 2022-10-11 This book constitutes the refereed proceedings of the 13th International Conference on Social Informatics SocInfo 2022 which took place in Glasgow UK during October 19 21 2022 The 22 full papers 8 short papers and 4 late breaking papers included in this book were carefully reviewed and selected from 102 submissions The deal with topics ranging from information system design on social concepts to analyzing complex social systems using computational methods or explore socio technical techniques using social sciences methods *Providing Compassionate Healthcare* Sue Shea, Robin Wynyard, Christos Lionis, 2014-07-17 Despite the scope and sophistication of contemporary health care there is increasing international concern about the perceived lack of compassion in its delivery Citing evidence that when the basic needs of patients are attended to with kindness and understanding recovery often takes place at a faster level patients cope more effectively with the self management of chronic disorders and can more easily

overcome anxiety associated with various disorders this book looks at how good care can be put back into the process of caring Beginning with an introduction to the historical values associated with the concept of compassion the text goes on to provide a bio psycho social theoretical framework within which the concept might be further explained The third part presents thought provoking case studies and explores the implementation and impact of compassion in a range of healthcare settings The fourth part investigates the role that organizations and their structures can play in promoting or hindering the provision of compassion The book concludes by discussing how compassion may be taught and evaluated and suggesting ways for increasing the attention paid to compassion in health care Developing a multi disciplinary theory of compassionate care and underpinned by empirical examples of good practice this volume is a valuable resource for all those interesting in understanding and supporting compassion in health care including advanced students academics and practitioners within medicine nursing psychology allied health sociology and philosophy

Freelancer's Framework, Guidebook 1: Building Brand Erin McDermott, 2021-02-22 Physical product engineering encompasses some of the more difficult career types to jump into freelancing with This group includes disciplines such as mechanical engineering electrical engineering optical engineering industrial design and similar Unlike with freelance software engineering or other professions altogether there aren't a lot of support structures in place for these pros There also isn't a lot of guidance available on the subject That's why Erin McDermott distilled her many years of experience in sales marketing and freelance hardware engineering into this book It's not just marketing speak applied to hardware McDermott herself runs an optical engineering firm Spire Starter and writes from personal experience of building a company and starting from zero When starting out freelancers can be overwhelmed wondering how they'll survive They probably didn't take a college course in how to provide hardware engineering services as a business owner They probably never even saw a book on the subject before this one Every part of making a living as a freelancer can be perplexing at first What are the steps involved How do you make sure you don't go hungry Where do you find prospective clients How do you get these strangers to want to pay you A variety of skills are needed to survive as a freelance engineer but the most important one is the ability to connect with paying clients In turn building brand is one of the most impactful activities in attracting those paying clients It's also something an engineer can begin at any stage of his or her career even before graduation That's why this book focuses on that first vital step a freelancer needs to succeed building their brand in order to attract paying clients to them As a warning this book is not about the typical MBA definition of building brand There is no help within on picking your company colors nor your mascot It's not even about designing physical products to look snazzy No this book is all about building a solid understanding in the minds of others about what value your engineering skills can bring them That is the key that leads those that need your services to you

Gaming Democracy Adrienne L. Massanari,2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In *Gaming Democracy* Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming *Gaming Democracy* is a novel contribution to our understanding of online platforms and far right political activism

Designing for Democracy Jennifer Forestal,2022 How should we fix digital technologies to support democracy instead of undermining it In *Designing for Democracy* Jennifer Forestal argues that accurately evaluating the democratic potential of digital spaces means studying how the built environment a primary component of our modern public square structures our activity shapes our attitudes and supports the kinds of relationships and behaviors democracy requires While many scholars and practitioners are attentive to the role of design in shaping behavior they have yet to fully engage with the question of what structures are required to support democratic communities and how to build them Forestal closes this gap by providing a new theory of democratic space Drawing from a wide range of disciplines including architecture psychology and the history of political thought she argues that democratic spaces must be designed with three environmental characteristics boundaries

durability and flexibility that taken together afford users the ability to engage in fundamental civic practices Through extended analyses of Facebook Twitter and Reddit Forestal shows precisely how well these digital platforms meet the criteria for democratic spaces or whether they do so at all The result is a more nuanced analysis of the democratic communities that form or fail to emerge in these spaces as well as more concrete suggestions for how to improve them In connecting the built environment digital technologies and democratic theory Designing for Democracy provides blueprints for democracy in a digital age
