Relevant Query Answering over Streaming and Distributed Data Shima Zahmatkesh, Emanuele Della Valle, 2020-01-21

This book examines the problem of relevant query answering over the Web and provides a comprehensive overview of relevant query answering over streaming and distributed data In recent years Web applications that combine highly dynamic data streams with data distributed over the Web to provide relevant answers have attracted increasing attention Answering in a timely fashion i.e. reactively is one of the most important performance indicators especially when the distributed data is evolving The book proposes a solution that retains a local replica of the distributed data and offers various maintenance policies to refresh the replica over time A limited refresh budget guarantees the reactivity of the system Focusing on stream processing and Semantic Web it appeals to scientists and graduate students in the field **Social TV** Mike

Proulx, Stacey Shepatin, 2012-01-26 The Internet didn't kill TV It has become its best friend Americans are watching more television than ever before and we're engaging online at the same time we're tuning in Social media has created a new and powerful backchannel fueling the renaissance of live broadcasts Mobile and tablet devices allow us to watch and experience television whenever and wherever we want And connected TVs blend web and television content into a unified big screen experience bringing us back into our living rooms Social TV examines the changing and complex television landscape and helps brands navigate its many emerging and exciting marketing and advertising opportunities Social TV topics include Leveraging the second screen to drive synched and deeper brand engagement Using social ratings analytics tools to find and target lean forward audiences Aligning brand messaging to content as it travels time shifted across devices Determining the best strategy to approach marketing via connected TVs Employing addressable TV advertising to maximize content relevancy Testing and learning from the most cutting edge emerging TV innovations The rise of one technology doesn't always mean the end of another Discover how this convergence has created new marketing opportunities for your brand **Forest and Stream**, 1894 **Watching TV** Harry Castleman, Walter J. Podrazik, 2024-12-16 Castleman and Podrazik present a season by season narrative that encompasses the eras of American television from the beginning in broadcast through cable and

now streaming They deftly navigate the dizzying array of contemporary choices so that no matter where you start on the media timeline Watching TV provides the context and background to this multi billion dollar enterprise Drawing on decades of research the authors weave together personalities popular shows corporate strategies historical events and changing technologies enhancing the main commentary with additional elements that include fall prime time schedule grids for every season date box timelines highlighted key text and selected photos Full of facts firsts insights and exploits from now back to the earliest days Watching TV is the standard chronology of American television and reading it is akin to channel surfing through history The fourth edition updates the story into the 2020s and looks ahead to the next waves of change This new edition is the first to also be available in a digital format *The New Advertising* Valerie K. Jones, Ruth E. Brown Ph.D., Ming Wang, 2016-09-19 The era of big data has revolutionized many industries including advertising This is a valuable resource that supplies current authoritative and inspiring information about and examples of current and forward looking theories and practices in advertising The New Advertising Branding Content and Consumer Relationships in the Data Driven Social Media Era supplies a breadth of information on the theories and practices of new advertising from its origins nearly a quarter of a century ago through its evolution to current uses with an eye to the future Unlike most other books that focus on one niche topic this two volume set investigates the overall discipline of advertising in the modern context It sheds light on significant areas of change against the backdrop of digital data collection and use The key topics of branding content interaction engagement big data and measurement are addressed from multiple perspectives With contributions from experts in academia as well as the advertising and marketing industries this unique set is an indispensable resource that is focused specifically on new approaches to and forms of advertising Readers will gain an understanding of the distinct shifts that have taken place in advertising They will be able to build their knowledge on frameworks for navigating and capitalizing on today's fragmented consumer focused digital media landscape and they will be prepared for what the future of advertising will likely bring **Cord Cutting For Dummies** Paul McFedries, 2021-06-02 Cut the cable television cord and cut your monthly bills Are you one of those people who have 500 television channels to choose from and you can never find anything to watch Maybe it's time to cut the cable cord and take full control of what's on your television All you need to get started with this popular money saving strategy is an Internet connection a device to stream to and the advice in this book With Cord Cutting For Dummies you go from evaluating if cord cutting is the right choice for your budget to acquiring the technology to get the programming you actually want You'll discover the technology you need for streaming select the service or services that fit your needs and make the components of your setup work together all within your budget Cord Cutting For Dummies offers the steps to going from wired to wireless including Deciding if you need to upgrade your Wi-Fi equipment and service Evaluating your current devices Adding a smart TV to the mix Choosing the best streaming services for you including some free options When you're ready to untether yourself from the cable or satellite Cord Cutting For Dummies shows you step by

step how to break free Pick up a copy and you ll be watching your favorite movie or TV show in no time Restoring Neighborhood Streams Ann L. Riley,2016-07-12 This book presents the author s thirty years of practical experience managing long term stream and river restoration projects in heavily degraded urban environments Riley provides a level of detail only a hands on design practitioner would know including insights on project design institutional and social context of successful projects and how to avoid costly and time consuming mistakes **Groundwater Optimization Handbook** Richard C. Peralta,2012-04-26 Existing and impending water shortages argue for improving water quantity and quality management Groundwater Optimization Handbook Flow Contaminant Transport and Conjunctive Management helps you formulate and solve groundwater optimization problems to ensure sustainable supplies of adequate quality and quantity It shows you how to more effectively use simulation optimization S O modeling an economically valuable groundwater management tool that couples simulation models with mathematical optimization techniques Written for readers of varying familiarity with groundwater hydrology and mathematical optimization the handbook approaches complex problems realistically Its techniques have been applied in many legal settings with produced strategies providing up to 57% improvement over those developed without S O modeling These techniques supply constructible designs planning and management strategies and metrics for performance based contracts Learn how to Recognize opportunities for applying S O models Lead client agency and consultant personnel through the strategy design and adaptation process Formulate common situations as clear deterministic stochastic and single multiobjective mathematical optimization problems Distinguish between problem nonlinearities resulting from physical system characteristics versus management goals Create an S O model appropriate for your specific needs or select an existing transferrable model Develop acceptable feasible solutions and compute optimal solutions Quantify tradeoffs between multiple objectives Evaluate and adapt a selected optimal strategy or use it as a metric for comparison Drawing on the author s numerous real world designs and more than 30 years of research consulting and teaching experience this practical handbook supplies design procedures detailed flowcharts solved problems lessons learned and diverse applications It guides you through the maze of multiple objectives constraints and uncertainty to calculate the best strategies for managing flow contamination and conjunctive use of groundwater and surface water Ancillary materials are available from the Downloads tab on the book page at www.crcpress.com *IT Consultant Diploma - City of London College of Economics - 12 months - 100% online / self-paced* City of London College of Economics, Overview This course deals with everything you need to know to become a successful IT Consultant Content Business Process Management Human Resource Management IT Manager s Handbook Principles of Marketing The Leadership Information Systems and Information Technology IT Project Management Duration 12 months Assessment The assessment will take place on the basis of one assignment at the end of the course Tell us when you feel ready to take the exam and we ll send you the assignment questions Study material The study material will be provided in separate files by email download link **Field &**

Social TV Cory Barker,2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment Media Industries On March 15 2011 Donald Trump changed television forever The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real time reactions on Twitter generating more than 25 000 tweets and making the broadcast the most watched Roast in Comedy Central history The trumproast initiative personified the media and tech industries utopian vision for a multi screen and communal live TV experience In Social TV Multi Screen Content and Ephemeral Culture author Cory Barker reveals how the US television industry promised but failed to deliver a social media revolution in the 2010s to combat the imminent threat of on demand streaming video Barker examines the rise and fall of Social TV across press coverage corporate documents and an array of digital ephemera He demonstrates that despite the talk of disruption the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy Case studies from broadcast networks to tech start ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period To trace these unfulfilled promises and flopped ideas Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing Yet in placing this now forgotten material in recent historical context Social TV shows how the era altered how the industry pursues audiences Multi screen campaigns have shifted away from a focus on live TV and toward all day content streams The legacy of Social TV then is the further embedding of media and promotional material onto every screen and into every moment of life

C# Precisely, second edition Peter Sestoft,Henrik I. Hansen,2011-11-18 A concise reference to the C programming language expanded and

updated with a look ahead at C 5 0 C is an object oriented programming language that is similar to Java in many respects but more comprehensive and different in most details This book offers a quick and accessible reference for anyone who wants to know C in more detail than that provided by a standard textbook It will be particularly useful for C learners who are familiar with Java This second edition has been updated and expanded reflecting the evolution and extension of the C programming language It covers C versions 3 0 and 4 0 and takes a look ahead at some of the innovations of version 5 0 In particular it describes asynchronous programming as found in 5 0 Despite the new material C Precisely remains compact and easy to navigate It describes C in detail but informally and concisely presenting lambda expressions extension methods anonymous object expressions object initializers collection initializers local variable type inference type dynamic type parameter covariance and contravariance and Linq language integrated query among other topics all in a about 250 pages The book offers more than 250 examples to illustrate both common use and subtle points Two page spreads show general rules on the left and relevant examples on the right maximizing the amount of information accessible at a glance The complete ready to run example programs are available at the book s Web site <http://www.it-ebooks.info/people/sestoft/csharp/precisely>

Fluid Machinery and Fluid Mechanics Jianzhong Xu, Yulin Wu, Yangjun Zhang, Junyue Zhang, 2010-07-05 Fluid Machinery and Fluid Mechanics 4th International Symposium 4th ISFMFE is the proceedings of 4th International Symposium on Fluid Machinery and Fluid Engineering held in Beijing November 24-27 2008 It contains 69 highly informative technical papers presented at the Mei Lecture session and the technical sessions of the symposium The Chinese Society of Engineering Thermophysics CSET organized the First the Second and the Third International Symposium on Fluid Machinery and Fluid Engineering 1996 2000 and 2004 The purpose of the 4th Symposium is to provide a common forum for exchange of scientific and technical information worldwide on fluid machinery and fluid engineering for scientists and engineers The main subject of this symposium is Fluid Machinery for Energy Conservation The Mei Lecture reports on the most recent developments of fluid machinery in commemoration of the late professor Mei Zuyan The book is intended for researchers and engineers in fluid machinery and fluid engineering Jianzhong Xu is a professor at the Chinese Society of Engineering Thermophysics Chinese Academy of Sciences Beijing

Probing auditory scene analysis Elyse S Sussman, Susan Denham, Susann Deike, 2015-02-11 In natural environments the auditory system is typically confronted with a mixture of sounds originating from different sound sources As sounds spread over time the auditory system has to continuously decompose competing sounds into distinct meaningful auditory objects or auditory streams referring to certain sound sources This decomposition work which was termed by Albert Bregman as Auditory scene analysis ASA involves two kinds of grouping to be done Grouping based on simultaneous cues such as harmonicity and on sequential cues such as similarity in acoustic features over time Understanding how the brain solves these tasks is a fundamental challenge facing auditory scientist In recent years the topic of ASA was broadly investigated in different fields of auditory research including a wide range of methods studies in different

species and modeling Despite the advance in understanding ASA it still proves to be a major challenge for auditory research This includes verifying whether experimental findings are transferable to more realistic auditory scenes A central approach in understanding ASA is the use of certain stimulus parameters that produce an ambiguous percept The advantage of such an approach is that different perceptual organizations can be studied without varying physical stimulus parameters Additionally the perception of ambiguous stimuli can be volitionally controlled by intention or task By using this one can mirror real hearing situations where listeners intent to identify and to localize auditory sources Recently it was also found that in classical auditory streaming sequences perceptual ambiguity was not restricted to but was observed over a broad range of stimulus parameters The proposed Research Topic pursues to bring together scientist in the different fields of auditory research whose work addresses the issue of perceptual ambiguity Researchers were welcome to contribute experimental reports computational modeling and reviews that consider auditory ambiguity in its modality specific characteristics as well as in comparison to visual ambiguous figures The overall goal of contributions was to consider the experimental findings from the perspective of real auditory scenes In a broader sense the Research Topic was open for contributions which are related to the issue of active listening in complex scenes
