Kickstarter For Dummies Aimee Cebulski, 2013-05-17 Learn to use Kickstarter to make your great ideas a reality As a crowd funding website for creative projects Kickstarter has the power to make creative ideas come to life This helpful guide walks you through the potential of this amazing tool which has helped project creators successfully launch their projects since 2009 You ll learn how to create a Kickstarter account set up your first project and effectively use social media to bring awareness to your project and build up the community around it to hopefully reach the goal of 100 percent funding Explains how to determine if you meet the requirements to create a project Gets you started with creating your first project choosing a great project image and write a compelling project title and description Helps you establish rewards for project backers Zeroes in on deciding a funding duration and funding goal Whether you have an idea for a movie video game gadget or anything in between Kickstarter For Dummies is the fun and friendly guide to help you get the funds to make your idea happen *The Rough Guide to the Caribbean* Rough Guides, Limited, 2006-05 **The Guide** , 2005-02 *Cyber Esq* , 1999

Website Optimization Andrew B. King, 2008-07-08 Remember when an optimized website was one that merely didn't take all day to appear Times have changed Today website optimization can spell the difference between enterprise success and failure and it takes a lot more know how to achieve success This book is a comprehensive guide to the tips techniques secrets standards and methods of website optimization From increasing site traffic to maximizing leads from revving up responsiveness to increasing navigability from prospect retention to closing more sales the world of 21st century website optimization is explored exemplified and explained Website Optimization combines the disciplines of online marketing and site performance tuning to attain the competitive advantage necessary on today's Web You ll learn how to improve your online marketing with effective paid and natural search engine visibility strategies strengthened lead creation and conversion to sales methods and gold standard ad copywriting guidelines Plus your increased site speed reduced download footprint improved reliability and improved navigability will work synergistically with those marketing methods to optimize your site's total effectiveness In this book for business and IT managers author Andrew King president of Website Optimization LLC has assembled experts in several key specialties to teach you Search engine optimization addressing best and worst practices to improve search engine visibility including step by step keyword optimization guidelines category and tag cloud creation and guerilla PR techniques to boost inbound links and improve rankings Pay per click optimization including ad copywriting guidelines setting profit driven goals calculating and optimizing bids landing page optimization and campaign management tips Optimizing conversion rates increasing leads with site landing page guidelines such as benefit oriented copy credibility based design value hierarchies and tips on creating unique selling propositions and slogans Web performance tuning optimizing ways to use X HTML CSS and Ajax to increase speed reduce your download footprint and increase reliability Advanced tuning including client side techniques such as on demand content progressive enhancement and inline images to

save HTTP requests Plus server side tips include improving parallelism using cache control browser sniffing HTTP compression and URL rewriting to remap links and preserve traffic Web metrics illustrating the best metrics and tools to gather details about visitors and measure web conversion and success rates Covering both search marketing metrics and web performance measures including Pathloss and waterfall graphs Website Optimization not only provides you with a strategy for success it also offers specific techniques for you and your staff to follow A profitable website needs to be well designed current highly responsive and optimally persuasive if you re to attract prospects convert them to buyers and get them to come back for more This book describes precisely what you need to accomplish to achieve all of those goals

From the Great Wall to Wall Street Wei Yen,2016-11-09 Wei Yen explores how differences in world views between Eastern and Western thought and culture have on management and leadership behaviors In The Geography of Thought Richard Nisbett showed how the thought and culture of the East is rooted in Chinese Confucian ideals while that of the West goes back to the early Greeks In From Great Wall to Wall Street Wei Yen explores how these differences impact today s leadership and management practices He delves deeply into the two cultures and their philosophical roots and explains why there can exist significant misunderstandings between the two camps Yen was born in China raised in Hong Kong educated both there and in the US and then spent half his working life in the US and half in Asia From his vantage point straddling both cultures he compares and contrasts the pragmatic wholistic Chinese or Asian management style with the rational and analytical Western management style He shows their pros and cons the areas where they differ and situations where one may be more successful than the other Yen argues that understanding traditional Chinese culture and how it affects management behaviors and current events can help decision makers make better decisions in business finance and politics He further combines culture with credit analysis to argue that it is unlikely that China will suffer a financial collapse despite a slowing economy and high debt levels Equally he shows how that same philosophical traditions also lie behind China s inability to innovate or project the soft power that the West s globally successful popular culture has achieved How can the West take advantage of China s epic rise to strike win win outcomes How can the Chinese be more integrated into the global community and become a better global citizen in the future How can policy makers make more realistic policies None of these can be accomplished without first understanding where each other is coming from
