The Gower Assessment

and Development Centre Julie Hay, 2017-05-15 Assessment and Development Centres offer a detailed and objective way of assessing your people's potential whether you are trying to establish training and development needs, identify potential for promotion, assess and select new recruits to your organization or using the centre in some other way. To make this assessment possible involves a huge investment in time, money and effort to plan, design, administer and run each centre and to effectively analyse and use all of the data it will generate. These three volumes are designed to help you set up and run your own assessment and development centres within your organization. Alternatively, if you already run centres, the manuals will allow you to evaluate and improve your administration, planning and assessment as well as to introduce new exercises. Volume 3 In Tray Simulations contains full documentation for the participants, the assessors and the programme manager for running in tray simulations of varying levels of complexity. Each exercise contains briefing papers to explain the exercise to participants, background information, items of correspondence, reports, messages and so on for participants to deal with, guidelines to help assessors evaluate the actions taken and relate these to assessment criteria. Other volumes: Volume 1 Planning and Administration, Volume 2 Assessment Activities. Each volume is available separately or as a three volume set.
