Infrastructure, Morality, Food and Clothing, and New Developments in Latin America Donald C.

Wood,2021-12-13 Volume 41 of Research in Economic Anthropology explores a wide range of topics of interest to economic anthropology including the roles of money in social ties between people and moral concerns regarding these and other roles and uses of money in society *The Best Ways to Teach Primary Science: Research into Practice* Michael Allen,2016-07-16

This book provides an exceptional insight into how children learn science as well as which teaching approaches have been found to be most successful Drawing on the significant body of research carried out over the past 35 years the book provides valuable evidence about which tried and tested approaches enhance learning and help children actually learn science The book supports you in becoming more effective in teaching primary science offers a reliable evidential base founded on significant research findings helps you make informed choices about which approaches to use in your teaching repertoire provides support for completing your written assignments Overall the text helps you develop your knowledge and understanding of primary science as well as how best to plan for teaching this important subject Insights into how children best learn science together with practical teaching ideas that have been tested in a systematic way makes this an essential book for primary teachers in training and an invaluable guide for primary teachers teaching science in Key Stages One and Two This book makes a major evidence based contribution to teaching science in the primary school It provides a solid grounding for busy teachers to access and use research findings to enhance their professional development and practice Each chapter provides comprehensive coverage of a science topic including revision of subject knowledge research findings on children s ideas learning progression suggested ways to teach and research exemplars and lesson outlines This book is a

valuable resource for student teachers and for teachers with many years of experience It is an indispensable addition to every primary teacher's bookshelf and every university education department Rob Toplis recently Senior Lecturer in Science Education Brunel University UK This is a great why to and how to book Michael Allen's use of progressive understanding underscores both the unfolding stories of primary science alongside children's developing grasp of the key ideas involved His work is based on a wealth of research that provides the basis for the why to in curriculum organisation and planning This is then brought to bear on considerable professional experience and classroom practice to provide the how to for teachers covering a range of important topics in primary science An excellent compendium of rationales and resources Mike Watts Professor of Education Brunel University UK Organizational Behavior and Human Decision Processes ,1998 The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University Hoover Institution on War, Revolution, and Peace,1969 **The FASEB Journal** ,1989 *Knowledge-Intensive Entrepreneurship* Nancy J. Hodges,Albert N. Link,2017-10-28 This book examines knowledge intensive entrepreneurship KIE with a focus on the European textile and apparel industries The primary purpose is to review the extant academic literature related to the European textile and apparel industries and reflect on that review empirically using a new and robust database on KIE to discover patterns between human capital and strategic entrepreneurial and innovative behavior According to the Advancing Knowledge Intensive Entrepreneurship and Innovation for Economic Growth and Social Well being in Europe AEGIS project KIE is defined as an interface between knowledge generation and diffusion and the productive system Knowledge intensive entrepreneurs are thus involved in mechanisms that translate knowledge into innovation which in turn leads to economic development and growth within an industry and or region To date KIE is often associated with high tech industries such as aerospace computer engineering automotive or telecommunications For this reason few studies have been conducted that specifically examine KIE as an avenue for firm or sector growth in the textile and apparel industries However new studies have positioned these industries as ones in which KIE can foster growth through innovation and where products and processes are often evaluated within a knowledge based framework Building on this growing literature base this volume explores potential policies and strategies for driving innovation and growth at the firm and industry levels in Europe and other regions including the United States OPAC Directory 1994 Billy Barron,1994 CCRMA Report Stanford University. Center for Computer Research in Music and Acoustics,1996 **Data Base Directory** ,1994 *Professional Disobedience in Probation* Asbjørn Storgaard,2025-06-13 This book comprises an in depth and highly inclusive ethnographic study of daily life in two local Danish probation offices With a special emphasis on manual based rehabilitative interventions the book explores the interactions between probation officers and citizens on probation serving conditional sentences or performing community service as well as the professionals rationales behind their rehabilitative efforts By presenting ethnographic findings that indicate a divergence between the envisioned trust based interactions and the reality of manual

based scripted practices within the Danish probation service the analyses reveal how rehabilitative interactions may seem choreographed with roles predetermined by an asymmetric social hierarchy This framework portrays the client as inherently obstinate unpredictable and cast as an irresponsible subject Despite these challenges the book underscores probation officers genuine belief in the transformative power of motivational programs More precisely it assesses the potential for manual based or scripted rehabilitative interventions to genuinely inspire participatory citizenship among disenfranchised clients Building on these empirically informed discussions the book ultimately endeavors to provide a positive and instructive conceptualization of the diverse activities in which probation officers acknowledging the limitations of their scripted interactions with clients appear to transgress their manual based mandate and perform professional disobedience Given the broad applicability of the concept of professional disobedience extending beyond probation to other social service practices navigating the intersection of help and control this book is intended for a wide array of researchers students practitioners and policymakers with an interest in punishment disenfranchisement and rehabilitation This book is essential reading for those engaged in probation criminal justice ethnography and Nordic criminology Modem USA Lynne Motley,1992
