 Andy Gibson,2024-09-17 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis
 of sports law in Australia deals with the regulation of sports activity by both public authorities and private sports
 organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country
 maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or
 organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created
 rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of
 sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary
 rules and rules of play However the trend towards more professionalism in sports and the growing economic social and
 cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of
 regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and
 tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much
 publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a
 gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at
 this specific level Lawyers representing parties with interests in Australia will welcome this very useful guide and academics
 and researchers will appreciate its value in the study of comparative sports law **Parliamentary Debates** Victoria.
 Parliament,1891 **Football governance** Great Britain: Parliament: House of Commons: Culture, Media and Sport
 Committee,2011-07-29 The report from the Commons Culture Media and Sport Committee says big changes need to be made
 to the way football is run in England to address financial instability and levels of debt in the game and to secure its future
 The committee says that crucially reform must be undertaken without impinging on English football s many strengths The
 Football Association FA as the national governing body of English football is the most appropriate agency to take the lead in
 addressing the weaknesses of English football but it needs urgent reform itself to carry out its responsibilities effectively and
 meet the future challenges of the game The Committee sets out 34 conclusions and recommendations including imposing a
 rigorous and consistent formal licensing model throughout professional English football to promote sustainable forward
 looking business plans a strong fit and proper persons test consistently applied with a presumption against selling the ground
 unless it is in the club s interest amending the Financial Services and Markets Act 2000 to recognise the special nature of
 supporters trusts and help them overcome the significant legal and bureaucratic hurdles they face when raising funding that
 the FA should review expenditure at the grass roots with a particular emphasis on coaching education For oral and written
