**Perspectives from Systemic Functional Linguistics** Akila Sellami-Baklouti, Lise Fontaine, 2018-04-09 This innovative collection brings together contributions from established and emerging scholars highlighting the applicability of Systemic Functional Linguistics and the ways in which theoretical and analytical conclusions drawn from its applications can inform and advance the study of language. The book discusses SFL's theoretical foundations and development in recent years to demonstrate its evolution into a more effective analytical tool. Building on this theoretical framework, the volume showcases the theory's applications in case studies exploring four sub-disciplines of language study: multilingual studies, translation studies, language learning and language teaching, and genre analysis. This all-inclusive volume demonstrates both Systemic Functional Linguistics' efficacy as a means of theoretical analysis but also its value as a unique approach to the study of language and meaning, making this an indispensable resource for researchers and scholars in applied linguistics, discourse analysis, genre studies, translation studies, and multilingualism.

**Creole Religions of the Caribbean, Third Edition** Margarite Fernández Olmos, Lizabeth Paravisini-Gebert, 2022-08-23 An updated introduction to the religions developed in the Caribbean region, *Creole Religions of the Caribbean* offers a comprehensive introduction to the overlapping religions that have developed as a result of the creolization process. Caribbean peoples drew on the variants of Christianity brought by European colonizers as well as on African religious and healing traditions and the remnants of Amerindian practices to fashion new systems of belief. From Vodou and Santería to Regla de Palo, the Abakuá Secret Society, and Obeah to Quimbois and Espiritismo, the volume traces the historical cultural origins of the major Creole religions as well as the newer traditions such as Rastafari. This third edition updates the scholarship by featuring new critical approaches that have been brought to bear on the study of religion, such as queer studies, environmental studies, and diasporic studies. The third edition also expands the regional considerations of the diaspora to the US Latinx communities that are influenced by Creole spiritual practices, taking into account the increased significance of material culture, art, music, literature, and healing practices influenced by Creole religions.

**Art Nexus**, 2004 Colonial Mississippi Christian Pinnen, Charles Weeks, 2021-03-02 Colonial Mississippi A Borrowed Land offers the first composite of histories from the entire colonial period in the land now called Mississippi Christian Pinnen and Charles Weeks reveal stories spanning over three hundred years and featuring a diverse array of individuals and peoples from America Europe and Africa The authors focus on the encounters among these peoples good and bad and the lasting impacts on the region The eighteenth century receives much deserved attention from Pinnen and Weeks as they focus on the trials and tribulations of Mississippi as a colony especially along the Gulf Coast and in the Natchez country The authors tell the story of a land borrowed from its original inhabitants and never returned They make clear how a remarkable diversity characterized the state throughout its early history Early encounters and initial contacts involved

primarily Native Americans and Spaniards in the first half of the sixteenth century following the expeditions of Columbus and others to the large region of the Gulf of Mexico. More sustained interaction began with the arrival of the French to the region and the establishment of a French post on Biloxi Bay at the end of the seventeenth century. Such exchanges continued through the eighteenth century with the British and then again the Spanish until the creation of the territory of Mississippi in 1798 and then two states, Mississippi in 1817 and Alabama in 1819. Though readers may know the bare bones of this history, the dates and names, this is the first book to reveal the complexity of the story in full, to dig deep into a varied and complicated tale.

Visible Cities, Global Comics Benjamin Fraser, 2019-09-25 CHOICE Outstanding Academic Title for 2020

More and more people are noticing links between urban geography and the spaces within the layout of panels on the comics page. Benjamin Fraser explores the representation of the city in a range of comics from across the globe. Comics address the city as an idea, a historical fact, a social construction, a material built environment, a shared space forged from the collective imagination, or as a social arena navigated according to personal desire. Accordingly, Fraser brings insights from urban theory to bear on specific comics. The works selected comprise a variety of international, alternative, and independent small press comics artists from engravings and early comics to single-panel work, graphic novels, manga, and trading cards by artists such as Will Eisner, Tsutomu Nihei, Hariton Pushwagner, Julie Doucet, Frans Masereel, and Chris Ware. In the first monograph on this subject, Fraser touches on many themes of modern urban life: activism, alienation, consumerism, flânerie, gentrification, the mystery story, science fiction, sexual orientation, and working class labor. He leads readers to images of such cities as Barcelona, Buenos Aires, London, Lyon, Madrid, Montevideo, Montreal, New York, Oslo, Paris, São Paulo, and Tokyo. Through close readings, each chapter introduces readers to specific comics artists and works and investigates a range of topics related to the medium's spatial form, stylistic variation, and cultural prominence. Mainly, Fraser mixes interest in urbanism and architecture with the creative strategies that comics artists employ to bring their urban images to life.

*Contemporary Latin American Cinema* María Mercedes Vázquez Vázquez,2020-07-06 The Question of Class in Contemporary Latin American Cinema responds to the renewed interest in class within and outside academia by examining the aesthetics and politics of class in a representative selection of films from the contemporary cinemas of Venezuela Cuba Mexico Brazil

and Argentina It explores the relationship of cinematic practices to conflicting socio political transformations taking place in these five countries such as the intensification of neoliberalism the Turn to the Left and the growth of the middle classes in the period from 2003 to 2015 Utilizing a critical comparative method it sheds a critical light on the presumed depoliticization or new aestheticized politicization of contemporary Latin American cinema The combined textual and industrial analyses of films from strikingly different cinemas and directors through the lenses of class allows for a contextualization of this trend and the observation of its limitations Furthermore this book distinguishes cinematic figurations that correspond to new conceptualizations of class introduced in social studies from figurations of class that have yet to be conceptualized
