Misinformation Concerning Child Sexual Abuse and Adult Survivors Paul Jay Fink, Joyanna Silberg, Charles L. Whitfield, 2019-11-20 Successfully navigate the minefield of misinformation that can prevent justice from being done in child sexual abuse cases. From the Foreword by Robert Geffner PhD, editor of the Journal of Child Sexual Abuse: Too often the public and some professionals have been misled by media publicity and articles that appear scientific but in reality are biased opinions or overgeneralized research. Forensic cases are being decided in many courts based upon the recommendations of so-called expert witnesses who do not actually know the clinical research or understand the dynamics of such abusive relationships. This much-needed book points out and corrects misinformation that everyone who works with victims, offenders or families in which sexual abuse has occurred needs to understand clearly. Especially vital in today's political climate, Misinformation Concerning Child Sexual Abuse and Adult Survivors gives you state-of-the-science information on such myths as false memory syndrome, recovered memory therapy and the lack of harm to some sexually abused boys. Misinformation Concerning Child Sexual Abuse and Adult Survivors examines forensic issues including the false memory defense and how the long-term impact of childhood sexual abuse is often misrepresented in court. Three separate expert examinations of Rind, Tromovitch and Bauserman's well-known and often misrepresented review of long-term child sexual abuse outcomes, treatment recommendations and guidelines for addressing the memory controversy in clinical

Schicksale der Verfolgten Hans Stoffels, 2013-03-13 Im deutschsprachigen Raum ist in den letzten Jahrzehnten wenig über die Verarbeitungs- und Bewältigungsformen von erlebnisstraumatischen Terrorerfahrungen erforscht worden. Der Band gibt eine umfassende Darstellung des aktuellen Wissensstandes auf dem Gebiet der Verfolgtenpsychiatrie und pathologie. Wissenschaftler aus dem In- und Ausland stellen die neuesten Forschungsergebnisse vor. Um den vielfältigen Problemen der Überlebenden des Terrors insbesondere der nationalsozialistischen Verfolgung wissenschaftlich und therapeutisch gerecht zu werden, ist es notwendig, sich eines breiten Spektrums wissenschaftlicher Methodik zu bedienen. Das Buch versammelt die neuesten statistisch-empirischen und epidemiologischen Arbeiten sowie Studien, die psychoanalytisch, philosophisch oder familien-therapeutisch orientiert sind. Mit dieser Methodenvielfalt werden mögliche Zusammenhänge von Trauma und Altern sowie von kindlicher Traumatisierung und Verletzbarkeit im Erwachsenenleben untersucht. Insbesondere wird der Frage nachgegangen, ob es eine transgenerationale Übermittlung des Traumas z.B. bei den Kindern des Holocaust gibt. Entscheidungsgesellschaftliche Aspekte kommen ebenso zur Darstellung wie behandlungstechnische und psychotherapeutische Probleme. Durch die Notwendigkeit, den Opfern von Verfolgung Isolierung und Folter in gegenwärtigen Terrorgesellschaften zur Hilfe zu kommen, gewinnen diese Forschungsarbeiten besondere Relevanz. **Feminism and the Making of a Child Rights**

Revolution Isobelle Barrett Meyering, 2022-02-01 When Australian women's liberationists challenged prevailing expectations of female domesticity, they were accused of being anti-mother and anti-child. *Feminism and the Making of a Child Rights Revolution* provides a much-needed reassessment of this stereotype. Drawing on extensive archival research and personal accounts, it places feminists at the forefront of a new wave of children's rights activism that went beyond calls for basic protections for children, instead demanding their liberation. Historian Isobelle Barrett Meyering revisits this revolutionary approach and charts the debates it sparked within the women's movement. Her examination of feminists' groundbreaking campaigns on major social issues of the 1970s, from childcare to sex education to family violence, also reveals women's concerted efforts to apply this ideal in their personal lives and to support children's own activism. *Feminism and the Making of a Child Rights Revolution* sheds light on the movement's expansive vision for social change and its lasting impact on the way we view the rights of women and children. Children's Concepts of Well-being Tobia Fattore, Susann

Fegter, Christine Hunner-Kreisel, 2021-05-05 This book presents a range of innovative analytical frameworks that can be used to approach the complexities of children's understandings and experiences of well-being in a locally oriented context, sensitive and multi-nationally comparative way. Chapters in the book present results that show how children from various places all over the world conceptualize and experience well-being, as well as how this is linked

Singer, 2015-03-04 Children at War is the first comprehensive book to examine the growing and global use of children as soldiers P W Singer an internationally recognized expert in twenty first century warfare explores how a new strategy of war utilized by armies and warlords alike has targeted children seeking to turn them into soldiers and terrorists Singer writes about how the first American serviceman killed by hostile fire in Afghanistan a Green Beret was shot by a fourteen year old Afghan boy how suspected militants detained by U S forces in Iraq included more than one hundred children under the age of seventeen and how hundreds who were taken hostage in Thailand were held captive by the rebel God s Army led by twelve year old twins Interweaving the voices of child soldiers throughout the book Singer looks at the ways these children are recruited abducted trained and finally sent off to fight in war torn hot spots from Colombia and the Sudan to Kashmir and Sierra Leone He writes about children who have been indoctrinated to fight U S forces in Iraq and Afghanistan of Iraqi boys between the ages of ten and fifteen who had been trained in military arms and tactics to become Saddam Hussein s Ashbal Saddam Lion Cubs of young refugees from Pakistani madrassahs who were recruited to help bring the Taliban to power in the Afghan civil war The author National Security Fellow at the Brookings Institution and director of the Brookings Project on U S Policy Towards the Islamic World explores how this phenomenon has come about and how social disruptions and failures of development in modern Third World nations have led to greater global conflict and an instability that has spawned a new pool of recruits He writes about how technology has made today s weapons smaller and lighter and therefore easier for children to carry and handle how one billion people in the world live in developing countries where civil war is part of everyday life and how some children without food clothing or family have volunteered as soldiers as their only way to survive Finally Singer makes clear how the U S government and the international community must face this new reality of modern warfare how those who benefit from the recruitment of children as soldiers must be held accountable how Western militaries must be prepared to face children in battle and how rehabilitation programs can undo this horrific phenomenon and turn child soldiers back into children **Early Start** Andrew Karch, 2013-04-09 In the United States preschool education is characterized by the dominance of a variegated private sector and patchy uncoordinated oversight of the public sector Tracing the history of the American debate over preschool education Andrew Karch argues that the current state of decentralization and fragmentation is the consequence of a chain of reactions and counterreactions to policy decisions dating from the late 1960s and early 1970s when preschool advocates did not achieve their vision for a comprehensive national program but did manage to foster initiatives at both the state and national levels Over time beneficiaries of these initiatives and officials with jurisdiction over preschool education have become ardent defenders of the status quo Today advocates of greater government involvement must take on a diverse and entrenched set of constituencies resistant to policy change In his close analysis of the politics of preschool education Karch demonstrates how to apply the concepts of policy feedback critical junctures and venue shopping

is in large part a function of the ecological niche within which it is produced Clearly it is the case that there are some cultural universals All parents want their children to be healthy and to feel secure However healthy and unhealthy at least in the psychological sense of the term can have different meanings from culture to culture *Forum for the Discussion of New Trends in Education* ,1979 [Classroom Newsletters for Tesol](#) Robert Dickey,2006-08-01 Appropriate as a graduate school course supplement as well as a desktop reference for practicing teachers Classroom Newsletters for TESOL presents the why and how to develop a newsletter newspaper magazine in the Teaching English to Speakers of Other Languages context so that teacher s news and students work is visible to parents students and the community *Child Protection in England, 1960-2000* Jennifer Crane,2018-09-25 This book is open access under a CC BY 4 0 license This open access book explores how children parents and survivors reshaped the politics of child protection in late twentieth century England Activism by these groups often manifested in small voluntary organisations drew upon and constructed an expertise grounded in experience and emotion that supported challenged and subverted medical social work legal and political authority New forms of experiential and emotional expertise were manifested in politics through consultation voting and lobbying but also in the reshaping of everyday life and in new partnerships formed between voluntary spokespeople and media While becoming subjects of and agents in child protection politics over the late twentieth century children parents and survivors also faced barriers to enacting change and the book traces how long standing structural hierarchies particularly around gender and age mediated and inhibited the realisation of experiential and emotional expertise **Child Abuse and Neglect** John T. Pardeck,2021-12-23 First Published in 1989 Child Abuse and Neglect attempts to focus on the problem of child maltreatment by using a multidisciplinary approach It presents findings from the fields of psychiatry psychology education sociology and social work from a broad theoretical perspective Both micro and macro approaches are stressed in the work with particular emphasis on social factors related to child abuse and neglect characteristics of adults and families likely to abuse and neglect and interesting strategies of treatment including family therapy Professionals actively involved in research and theory building as well as those who work directly with abused and neglected children will find this book a useful form of reference *Child Abduction within the European Union* Katarina Trimmings,2013-03-20 The first part of the book critically evaluates the evolution of the separate intra EU child abduction regime and examines the extent to which the European Union complied with its standards of good legislative drafting during the negotiations on the Brussels II bis Regulation It seeks to demonstrate that there was no real legal need for the involvement of the European Union in the area of child abduction and for the tightening of the 1980 Hague Abduction Convention return mechanism The second part of the book presents findings of a statistical survey into the operation of child abduction provisions of the Brussels II bis Regulation in the first year of the functioning of the instrument and reveals how effectively the intra EU return mechanism operated in that year Based on the findings of the statistical survey the book identifies and discusses a number of points of concern in respect of the functioning

of the new child abduction scheme Finally the book investigates whether the Brussels II bis Regulation has added any value in the area of child abduction This title is included in Bloomsbury Professional's Family Law online service

Feminism's Forgotten Fight Kirsten Swinth,2018-11-05 A spirited defense of feminism arguing that the lack of support for working mothers is less a failure of second wave feminism than a rejection by reactionaries of the sweeping changes they campaigned for When people discuss feminism they often lament its failure to deliver on the promise that women can have it all But as Kirsten Swinth argues in this provocative book it is not feminism that has betrayed women but a society that balked at making the far reaching changes for which activists fought Feminism's Forgotten Fight resurrects the comprehensive vision of feminism's second wave at a time when its principles are under renewed attack Through compelling stories of local and national activism and crucial legislative and judicial battles Swinth's history spotlights concerns not commonly associated with the movement of the 1960s and 1970s We see liberals and radicals white women and women of color rethinking gender roles and redistributing housework They brought men into the fold and together demanded bold policy changes to ensure job protection for pregnant women and federal support for child care Many of the creative proposals they devised to reshape the workplace and rework government policy such as guaranteed incomes for mothers and flex time now seem prescient Swinth definitively dispels the notion that second wave feminists pushed women into the workplace without offering solutions to issues they faced at home Feminism's Forgotten Fight examines activists campaigns for work and family in depth and helps us see how feminism's opponents not feminists themselves blocked the movement's aspirations Her insights offer key lessons for women's ongoing struggle to achieve equality at home and work
