Wissenskrieger - von Big Data zu Brain Data Edgar K. Geffroy, 2022-06-19 Wissen ist die entscheidende Ressource um in Zukunft wettbewerbsfähig und innovativ zu sein und die Mitarbeiter sind der Schlüssel dazu Edgar K Geffroy ist überzeugt davon dass das Wissen und die Innovationskraft der Mitarbeiter das entscheidende Kapital im digitalen Zeitalter sind Hoch qualifizierte Arbeitskräfte sind Wissenskrieger für ihre Unternehmen und somit der Motor für innovatives Wachstum Und diejenigen werden dabei gewinnen die es schaffen dieses Wissen mit den Möglichkeiten der Digitalisierung zu verbinden Superbrain Unternehmen im Silicon Valley im chinesischen Shenzhen oder im südkoreanischen Seoul machen vor wie dort gesammeltes Wissen bewahrt strukturiert und punktgenau eingesetzt und damit der Wettbewerb komplett auf den Kopf gestellt wird Wie eine solche Zukunftsstrategie aussieht und wie Unternehmen das Potenzial ihrer Mitarbeiter freisetzen können zeigt Geffroy in seinem neuen Buch *The Vacuum Principle* Rajesh Srinivasan, 2025-04-12 Just as nature abhors a vacuum markets rush to fill gaps and those who spot these spaces first win big Marketdefining innovations emerge not from creating something new but from seeing what's missing The most valuable business skill is detecting opportunities hiding in plain sight what Rajesh Srinivasan calls The Vacuum Principle Market creators like Walt Disney Steve Jobs and Jeff Bezos share this gift seeing the world not just as it is but as it could be Through research Rajesh has decoded how visionaries uncover opportunities others miss This isn't luck it's a learnable system Inside this book you'll discover The 5 types of market vacuums and a framework to spot them 7 cognitive frameworks of market creators Strategies to protect and scale market positions The next breakthrough isn't about creating something new It's about spotting the gaps that already exist in the market the ones others fail to see **The Voice Catchers** Joseph Turow, 2021-05-18 Your voice as biometric data and how marketers are using it to manipulate you Only three decades ago it was inconceivable that virtually entire populations would be carrying around wireless phones wherever they went or that people's exact locations could be tracked by those devices We now take both for granted Even just a decade ago the idea that individuals' voices could be used to identify and draw inferences about them as they shopped or interacted with retailers seemed like something out of a science fiction novel Yet a new business sector is emerging to do exactly that The first in depth examination of the voice intelligence industry The Voice Catchers exposes how artificial intelligence is enabling personalized marketing and discrimination through voice analysis Amazon and Google have numerous patents pertaining to voice profiling and even now their smart speakers are extracting and using voice prints for identification and more Customer service centers are already approaching every caller based on what they conclude a caller's voice reveals about that person's emotions sentiments and personality often in real time In fact many scientists believe that a person's weight height age and race not to mention any illnesses they may have can also be identified from the sound of that individual's voice Ultimately not only marketers but also politicians and governments may use voice profiling to infer personal characteristics for selfish interests and not for the benefit of a citizen or of society as a

whole Leading communications scholar Joseph Turow places the voice intelligence industry in historical perspective explores its contemporary developments and offers a clarion call for regulating this rising surveillance regime *Covid-19 in Film and Television* Verena Bernardi, Amanda D. Virtual Training Jeb Blount, 2021-06-22 Remote learning has been around since the 18th century Caleb Phillips began advertising correspondence courses in the Boston Gazette in 1728 allowing people for the first time to learn new skills no matter where they lived For the past 300 years virtual training in its various formats has been meandering into shore on an inevitable yet slow building tide And then just like that everything changed A global pandemic Social distancing Working from home In an instant the tide became a tsunami The global pandemic accelerated the broad adoption of virtual instructor led training along with awareness that classroom based training is often expensive inefficient and fails to deliver a fair return on investment While it is certainly more challenging to re create the collaborative environment of the physical classroom in a virtual setting virtual training combines the structure accountability and social learning benefits of classroom training with speed agility and significant cost savings Simply put virtual training enables organizations to rapidly upskill more people while generating a far higher return on the training investment Virtual training is also green Studies indicate that virtual training consumes nearly 90% less energy and produces 85% fewer CO2 emissions than classroom training Still the biggest challenge with virtual training and the reason there has been so much resistance to it is historically the experience has been excruciating Not the quality of the curriculum or content Not the talent of the trainer The learning experience There are few people who haven t had the pleasure of sitting through agonizing virtual training sessions Death by voice over PowerPoint delivered by a disengaged instructor has an especially bitter flavor It is the

way virtual training is delivered that matters most When the virtual learning experience is emotionally positive Participants are more engaged embrace new competencies and knowledge sticks Participants are more likely to show up to class and be open to future virtual training Trainers enjoy their work and gain fulfillment from making an impact Leaders book more virtual training Organizations more readily blend and integrate virtual training into learning development initiatives This is exactly what this book is about Virtual Training is the definitive guide to delivering virtual training that engages learners and makes new skills and behavioral changes stick Jeb Blount one of the most celebrated trainers and authors of our generation walks you step by step through the seven elements of effective engaging virtual learning experiences Trainer Mindset Emotional Discipline Production Technology Media Visuals Virtual Curriculum Instructional Design Planning Preparation Virtual Communication Skills Dynamic Interactive Training Delivery As you dive into these powerful insights and with each new chapter you ll gain greater and greater confidence in your ability to effectively deliver training in a virtual classroom Once you master virtual training delivery and experience the power of remote learning you may never want to go back to the physical classroom again

Karahee from the Cane Fields ,2024-11-30 Karahee from the Cane Fields Writing from the Coolie Diaspora unifies the literature and culture of the global South Asian Labor Diaspora and how writers live within this identity From the history of indenture in the 1830s to the 1920s this racialized bondage replaced the Transatlantic slave trade and branded the servants of Empire as Coolie The word Coolie comes from the dehumanization of the people under Imperial rule turning them into a species of C saire s thingification During this period the British displaced Indians some by will and others by force from the ports of Calcutta and Madras to the settlements and colonies in Fiji Mauritius Reunion South Africa Jamaica Trinidad Guyana and Suriname From these plantation communities of survival and resilience the writers in Karahee from the Cane Fields explore their ancestral ties to land and indenture and question what is the inheritance of the cane field the cane sap residue marking the descendants of this system of indenture It is here that emerging and less well known voices in the field of Coolie Labor Diasporic studies gather together through poetry fiction nonfiction translations song and graphic memoir These narratives are more than the typical authors studied and overrepresented by academics who do not read writing from the Coolie Labor Diaspora past the 1990s Instead of the often written about concern for their origins and cultural holdovers from their ancestral India the writers assembled in this karahee this mehfil of flavors ask What now
