Wearable Technology. The usability of the Apple Watch 2 Series and its impact on society Harry Mwololo,2018-01-29 Scientific Essay from the year 2017 in the subject Communications Multimedia Internet New Technologies Egerton University language English abstract Wearable technologies such as Apple Watch Series 2 have created a significant impact on the manner in which people track their fitness and personal health Apple Watch Series 2 has been a significant device in the wearable technology market Apart from provision of basic health features the technology offers other daily operations features like payments navigations and information sharing for both personal and business use To examine the technology the paper focused on exploring the useful

of the Apple Watch 2 series its impact to society and IT sector and other technologies that are competing with Apple Watch 2. The writer through this comparison was able to provide his opinion on the technology and also conclusion of the same technology. The paper concluded that Apple Technology is a beneficial technology to the users because of its quality and efficient features that offer the user health benefits as well as other personal life tracking benefits. However for users who might not need all the features in the Watch it is convenient to use other technologies such as Fitbit and the other basic fitness brands.
