Externally applied FRP reinforcement for concrete structures FIB - International Federation for Structural Concrete, 2019-05-01 In December 1996 CEB established a Task Group with the main objective to elaborate design guidelines for the use of FRP reinforcement in accordance with the design format of the CEB FIP Model Code and Eurocode 2. With the merger of CEB and FIP into fib in June 1998 this Task Group became fib TG 9.3 FRP Reinforcement for concrete structures in Commission 9 Reinforcing and Prestressing Materials and Systems. Finally as a result of the restructuring of fib's Commissions and Task Groups at the end of 2014 the Task Group became fib T5.1 FRP Reinforcement for concrete structures chaired by Stijn Matthys at Ghent University in Commission 5 Reinforcements. The work of former TG 9.3 and current T5.1 was performed by two working parties, WP one of which is Externally Applied Reinforcement (EAR) which produced fib bulletin 14 Externally bonded FRP reinforcement for RC structures in July 2001. Following a number of years of relatively slow activity the WP on externally applied reinforcement was reactivated and started working on an update of bulletin 14. The result of this work is summarised in the present technical report which aims to give design guidelines on the use of externally applied FRP reinforcement both externally bonded and near surface mounted for concrete structures. An attempt has been made to present some of the topics in a Eurocode compatible format so that the material covered may form the basis for the introduction of composites in the next version of Eurocode 2 and for the updating of the text on seismic retrofitting with composites in the next version of Eurocode 8. All persons who participated in the preparation of this Bulletin are mentioned in the copyright page. Further acknowledgements are due to Jos e Bastien Canada, Hans Rudolf Ganz Switzerland and Luc Taerwe Belgium for revision of the document. To all members of the working party on externally applied reinforcement our sincere thanks are expressed for the high quality and extensive work brought in on a voluntary basis.
