Colby, 2021-09-14 Why and how America s defense strategy must change in light of China s

power and ambition Elbridge A Colby was the lead architect of the 2018 National Defense Strategy the most significant revision of U S defense strategy in a generation Here he lays out how America s defense must change to address China s growing power and ambition Based firmly in the realist tradition but deeply engaged in current policy this book offers a clear framework for what America s goals in confronting China must be how its military strategy must change and how it must prioritize these goals over its lesser interests The most informed and in depth reappraisal of America s defense strategy in decades this book outlines a rigorous but practical approach showing how the United States can prepare to win a war with China that we cannot afford to lose precisely in order to deter that war from happening *African Economic Outlook 2015 Regional Development and Spatial Inclusion* African Development Bank,OECD,United Nations Development Programme,2015-05-25 The African Economic Outlook 2015 analyses Africa s growing role in the world economy and predicts the continent s two year prospects in crucial areas macroeconomics financing trade policies and regional integration human development and governance **Critical and Feminist Perspectives on Financial and Economic Crises** Sakiko Fukuda-Parr,James Heintz,Stephanie Seguino,2017-10-02 Economic and financial crises have become perennial features of today s global economy Macroeconomic theories of crisis including the global crisis that unfolded in 2008 emphasize the role of financial deregulation capital flow imbalances and growing debt fueled by income and wealth inequality These approaches tend to be divorced from feminist thinking which analyzes broader distributional dynamics transmitted through structural channels and government policy responses with an emphasis on gender race class and ethnicity This volume brings together innovative thinking from heterodox macroeconomists and feminist economists to explore the causes consequences and ramifications of economic crises By doing so it highlights aspects of the economy that are frequently overlooked or ignored such as the impact of crises on the vast amount of unpaid work which women perform relative to men The collection of international studies assembled here takes an innovative approach to analyzing a range of issues from the subprime mortgage crisis to the gendered effects of austerity to the role of the International Monetary Fund in governing an unstable global economy In so doing it looks beyond causes and consequences and points to new directions for macroeconomic and financial policy This book was originally published as a special issue of *Feminist Economics* **How Weak Regionalism in East Asia Works Well** Luna Ge Lai,2024-10-31 This book investigates the reasons why regionalism in East Asia has been much weaker than in Western Europe and North America It focuses particularly on economic factors examining the regional and global linkages of production networks Through a focused exploration of regional and global production networks it argues that East Asia was not as regionally concentrated as was Western Europe or North America lacking a regionally oriented production basis to support the institutional arrangement of East Asia as a stand alone economic community Moreover the regional production networks of each national economy in the region are influenced by a different set of value added components from different global and regional origins This divergence in their positions accounts for the

mushrooming of divergent initiatives and projects for regional institutional arrangement Finally the institutional choices of the states to join Comprehensive and Progressive Agreement for Trans Pacific Partnership CP TPP and or Regional Comprehensive Economic Partnership RCEP are found to be strongly influenced by the sectoral focuses and priorities of their economies Demonstrating how the unique economic factors of each nation override other considerations for greater regional integration this book will be a valuable resource to students and scholars of international trade Asian politics and economics
