**Irish Materialisms** Colleen Taylor, 2023-12-08 *Irish Materialisms* The Nonhuman and the Making of Colonial Ireland 1690 1830 is the first book to apply recent trends in new materialist criticism to Ireland It radically shifts familiar colonial stereotypes of the feminized racialized cottier according to the Irish peasantry s subversive entanglement with nonhuman materiality Each of the chapters engages a focused case study of an everyday object in colonial Ireland coins flax spinning wheels mud and pigs to examine how each object s unique materiality contributed to the colonial ideology of British paternalism and afforded creative Irish expression The main argument of *Irish Materialisms* is its methodology of reading literature through the agency of materiality and nonhuman narrative in order to gain a more egalitarian and varied understanding of colonial experience *Irish Materialisms* proves that new materialism holds powerful postcolonial potential Through an intimate understanding of the materiality Irish peasants handled on a daily basis this book presents a new portrait of Irish character that reflects greater empowerment resistance and expression in the oppressed Irish than has been previously recognized

**Material Agency** Carl Knappett, Lambros Malafouris, 2008-12-15 Agency is a key theme that cross cuts a wide raft of disciplines in the humanities social sciences and beyond yet it is invariably discussed separately behind closed disciplinary doors Within archaeology agency has been characterized as a uniquely human attribute and a means of incorporating individual intentionality into theoretical discourse In other domains however notions of non human and material agency have been finding currency and it is our aim to introduce some of these themes into archaeology and develop a non anthropocentric approach to agency It is anticipated that such a perspective will not only help us achieve more convincing interpretations of the past giving a more active role to material culture but also throw new light on the changing role of artifacts in the present and the future This book is a groundbreaking attempt to address questions of non human and material agency from a wide range of perspectives and disciplines archaeology anthropology sociology cognitive science philosophy and economics The editors and authors demonstrate that a distributed relational approach to agency incorporating both humans and artifacts has important ramifications for how we understand material culture
