Disarming Intervention Seantel Anaïs, 2015-08-15 Non lethal weapons take many forms from rubber bullets to electroshock and long range acoustic devices which their proponents argue are ethical legal and humane Social scientists historians legal scholars and activists have long challenged the use of non lethal weapons in policing and war Until now little scholarly attention has been paid to the social historical and legal relations that animate the concept of non lethality nor is there a comprehensive account of how the concept has achieved social and political

acceptance Disarming Intervention tells the story of how the concept of non lethality emerged in a series of nineteenth century legal codes that governed the conduct of international hostilities and how it continued to legitimate US led armed conflicts as ethical legal and humane throughout the twentieth century Seantel Ana s unpacks these issues by tracing the social historical and legal legitimization of non lethality in the United States and in armed interventions abroad Disarming Intervention shows in detail how it came to be that an idea forever changed the relationship between contemporary weapons of armed conflict and war s constitutive objective to produce irreversible injury and death **Management** ,1983
