Kirby, 2025-05 A Marginal Revolution Best Non

fiction Book A fascinating book Steven Mintz Inside Higher Ed Substantive on virtually every page the author actually understands how universities work An impressive performance Tyler Cowen Marginal Revolution With his extraordinary breadth of curiosity and equal ease in the histories and cultures of these countries only Bill Kirby could have written this book It is must reading for everyone who cares about universities a thought provoking lesson in the strange mix of durability

and vulnerability that defines this key modern institution Richard Broadhead President Emeritus Duke University William Kirby's new book is unique I know of nothing else on higher education that resembles it in breadth scope and sheer comparative information and analysis Anyone interested in the nature of universities during the past two centuries will want to read this volume Neil L Rudenstine President Emeritus Harvard University Today American institutions dominate nearly every major ranking of global universities Yet in historical terms America's preeminence is relatively new and there is no reason to assume that US schools will continue to lead the world a century from now Indeed America's supremacy in higher education is under great stress particularly at its public universities while Chinese universities are on the ascent Will China threaten American primacy *Empires of Ideas* looks to the past two hundred years for answers examining the successes of leading universities to determine how they rose to prominence and what threats they currently face William C Kirby gives special attention to the challenges that Chinese academic leaders must confront reinvesting in undergraduate teaching developing new models of funding and navigating a political system that may undermine a true commitment to free inquiry and academic excellence

Transformations of Higher Education in BRICS Nicholas Sun-Keung Pang, Ewelina K. Niemczyk, 2025-09-30 This book aims to study the current transformations of higher education in the Brazil Russia India China and South Africa BRICS countries The conditions imposed by the Covid pandemic exposed many vulnerabilities in higher education systems but also provided valuable lessons that led to the implementation of effective changes Educational changes are being applied to programmes projects practices and policies with varying degrees of success depending on the context the needs of students and staff have changed and considerable attention has been given

to the effective continuation of all academic activities through the use of technology often the nature of higher education and its role in society are being contemplated and ways of sustainable development are being debated Therefore contributors from the five BRICS member states present research findings and critical views on the recent development of higher education in their own countries providing an opportunity for a unified effort and collective input to explore the transformation and reform of higher education This book is intended for researchers policymakers and postgraduate students in higher education educational governance and comparative education

Global Perspectives on Graduate and Doctoral Education Stan Taylor,Karri Holley,Margaret Kiley,2025-02-12 This book provides a framework for analysis and reviews the changing landscape of doctoral education across fourteen global case studies before providing conclusions and recommendations for further research and development Traditionally doctoral education was a matter of the talented few being apprenticed to learn how to research from masters in their discipline The work was conducted in private in spaces far removed from normal teaching or industry activities The only requirement for academic staff to supervise or to examine candidates was to be research active Many candidates dropped out during their studies For those who persisted their doctoral research could take years to complete and most graduates went on to academic careers But in recent decades several changes have transformed doctoral education almost beyond recognition The chapters in this book present an analysis of graduate and doctoral education globally aligned with current developments and research provide an overall framework for the discussion at the international level of changes in doctoral education examine how changes have been manifested in a sample of case studies of major doctoral providers from across the globe and offer conclusions about the changing graduate and doctoral landscape with suggestions for future research This volume will be of interest to all those engaged in doctoral education including doctoral candidates their supervisors and deans and administrators of graduate research It was originally published as a special issue of Innovations in Education and Teaching International

College Disrupted Ryan Craig,2025-09-23 For nearly two decades pundits have been predicting the demise of higher education in the United States Our colleges and universities will soon find themselves competing for students with universities from around the world With the advent of massive open online courses MOOCs over the past two years predictions that higher education will be the next industry to undergo disruption have become more frequent and fervent Currently a university's reputation relies heavily on the four Rs in which the most elite schools thrive rankings research real estate and rah i e sports But for the majority of students who are not attending these elite institutions the four Rs offer poor value for the expense of a college education Craig sees the future of higher education in online degrees that unbundle course offerings to offer a true bottom line return for the majority of students in terms of graduation employment and wages *College Disrupted* details the changes that American higher education will undergo including the transformation from packaged courses and degrees to truly unbundled course offerings along with those that it will not Written by a professional at the only investment firm focused on

the higher education market College Disrupted takes a creative view of the forces roiling higher education and the likely outcome including light hearted real life anecdotes that illustrate the author s points **India Higher Education Report 2023** Pradeep Kumar Misra,Anupam Pachauri,2025-04-22 This book traces the contours of higher education research in India It analyses the Indian higher education system that has seen unprecedented expansion in the last couple of decades with increasing institutional and programme diversification diverse participants accessing higher education and curricula becoming more market oriented in a globalised context The book provides an empirical analysis of issues related to higher education research in the country including international collaboration analysis of institutions and research programs and state and national level policies determining higher education and research trajectories It explores the extent to which sources and supplies of funding impact research agenda research questions and outcomes The book conceptually engages with the role of higher education research in providing a direction for policymakers and paving the way towards quality higher education An important critique of higher education policy and planning this book will be valuable for researchers and scholars in the field of education public policy political science international relations law sociology economics and political economy It will also be of interest to policy makers working in higher education and research
