Nederland En De Europese Eenwording:

Nederland en de Europese eenwording P. M. Hommes, 1980 **De kwestie Europa** Jos de Beus, Jeannette Mak, 2009

Nederlandse en Europese beleidsvorming gaan steeds vaker hand in hand Op welke wijze werkt dit door in het gedrag van de Nederlandse overheid politieke partijen belangenverenigingen en maatschappelijke organisaties En hoe beïnvloedt hun handelen de publieke beeldvorming over Europa Uniek interview materiaal en historische media analyse tonen aan dat Nederland in vergelijking met andere Europese landen slechts schoorvoetend het Europese perspectief opneemt in de openbare sfeer Hoewel politici en journalisten daarbij met een beschuldigend vingertje naar elkaar wijzen wijten beiden dit aan een gebrekkige politisering van Europese vraagstukken Met het oog op de aankomende verkiezingen van het Europees Parlement rijst dan ook de vraag of hier binnenkort verandering in valt te verwachten

The Netherlands and European Integration, 1950 to Present Mathieu Segers, 2025-10-01 On 9 May 1950 France launched a revolutionary plan for supranational cooperation in Western Europe The Netherlands was taken completely by surprise In the decades that followed European integration moved forward at an unprecedented pace taking the Netherlands with it Geography and the post war world seemed to leave the country no other choice European integration forced and is still forcing the Netherlands on a far reaching journey to the continent For the Netherlands European integration represents a difficult journey to a new old world that often seems far off How has that journey progressed so far Why did the Netherlands join the common European market and currency from the very beginning Was this course inevitable And where has it brought the country Using new international source material The Netherlands and European Integration 1950 to Present digs deeply into the history of the Netherlands in Europe a subject that is today more topical than ever

The Economy and Politics of the Netherlands Since 1945 Richard Griffiths, 2013-03-09 There is relatively little information on The Netherlands written in the English language which is easily accessible to social science students and even less which is systematically assembled between the covers of a single book This is unfortunate not only because The Netherlands is an important part of Western Europe but because the experience of The Netherlands in the way in which it has attempted to resolve the economic and political problems confronting it may help to shed valuable light on similar issues facing other European countries The contributions for this volume were chosen with these considerations in mind On the one hand the selection of topics was intended to provide an overall impression of the political and economic development of The Netherlands since the Second World War Thus separate chapters are devoted to an examination of economic development counter inflation energy regional and planning policies pressure groups electoral performance cabinet formation and colonial and European policies On the other hand these areas for investigation were chosen to invite specific contrast with the experience of other European nations or to illustrate certain problems of political or economic theory It is my pleasure to thank first of all the contributors themselves for the conscientious way in which they prepared their drafts which made my task as editor so much easier Secondly it will be apparent to even the most casual observer that I have contributed two chapters

Going Europe or Going Dutch? Mendeltje van Keulen, 2025-10-01 The European Union has a huge impact on the government and policies of its member states It is thus surprising that the ways in which national governments attempt to shape EU policies is a topic seriously understudied This book discusses relevant academic insights and presents a framework for analysing national interest representation The empirical part discusses the EU policy of the Dutch government throughout the 1990s and presents a reconstruction of the negotiations on two internal market directives It thereby offers both for academics and practitioners a clear oversight of the making of European policies and the relevant moments and
