The Neoliberal Age? Aled Davies, Ben Jackson, Florence Sutcliffe-Braithwaite, 2021-12-07 The late twentieth and early twenty first centuries are commonly characterised as an age of neoliberalism in which individualism competition free markets and privatisation came to dominate Britain s politics economy and society This historical framing has proven highly controversial within both academia and contemporary political and public debate Standard accounts of neoliberalism generally focus on the influence of political ideas in reshaping British politics according to this narrative neoliberalism was a right wing ideology

peddled by political economists think tanks and politicians from the 1930s onwards which finally triumphed in the 1970s and 1980s The Neoliberal Age suggests this narrative is too simplistic Where the standard story sees neoliberalism as right wing this book points to some left wing origins too where the standard story emphasises the agency of think tanks and politicians this book shows that other actors from the business world were also highly significant Where the standard story can suggest that neoliberalism transformed subjectivities and social lives this book illuminates other forces which helped make Britain more individualistic in the late twentieth century The analysis thus takes neoliberalism seriously but also shows that it cannot be the only explanatory framework for understanding contemporary Britain The book showcases cutting edge research making it useful to researchers and students as well as to those interested in understanding the forces that have shaped our recent past

Neoliberal Thought and Thatcherism Robert Ledger,2017-12-01 The premiership of Margaret Thatcher has been portrayed as uniquely ideological in its pursuit of a more market based economy A body of literature has been built on how a sharp turn to the right by the Conservative Party during the 1980s inspired by the likes of Milton Friedman and Friedrich Hayek acted as one of the key stepping stones to the turbo charged capitalism and globalization of our modern world But how neoliberal was Thatcherism The link between ideas and the Thatcher government has frequently been over generalized and under specified Existing accounts tend to characterize neoliberalism as a homogeneous and often ill defined group of thinkers that exerted a broad influence over the Thatcher government In particular this study explores how Margaret Thatcher approached special interest groups a core neoliberal concern The results demonstrate a willingness to utilize the state often in contradictory ways to pursue apparently more market orientated policies This book through a combination of archival research interviews and examination of neoliberal thought itself defines the dominant strains of neoliberalism more clearly and explores their relationship with Thatcherism

Contesting Economic and Social Rights in Ireland Thomas Murray,2016-08-18 This book presents a political understanding of socio economic rights by contextualising constitution makers and judges decision making in terms of Ireland s rich history of people s struggles for justice from below between 1848 and the present Its theoretical framework incorporates critical legal studies and world systems analysis It performs a critical discourse analysis of constitution making processes in 1922 and 1937 as well as subsequent property trade union family and welfare rights case law It traces the marginalisation of socio economic rights in Ireland from specific local and institutional factors to the contested balance of core peripheral and social relations in the world system The book demonstrates the endurance of ideological understandings of state constitutionalism as inherently neutral between interests Unemployed marches housing protestors and striking workers however provided important challenges and oppositional discourses Recognising these enduring forms of power and ideology is vital if we are to assess critically the possibilities and limits of contesting socio economic rights today

Workers in Hard Times Leon Fink,Joseph A. McCartin,Joan Sangster,2014-02-15 Seeking to historicize the 2007 2009 Great Recession this volume of essays situates

the current economic crisis and its impact on workers in the context of previous abrupt shifts in the modern day capitalist marketplace Contributors use examples from industrialized North America South America Europe Asia and Australia to demonstrate how workers and states have responded to those shifts and to their disempowering effects on labor Since the Industrial Revolution contributors argue factors such as race sex and state intervention have mediated both the effect of economic depressions on workers lives and workers responses to those depressions Contributors also posit a varying dynamic between political upheaval and economic crises and between workers and the welfare state The volume ends with an examination of today s Great Recession its historical distinctiveness its connection to neoliberalism and its attendant expressions of worker status and agency around the world A sobering conclusion lays out a likely future for workers one not far removed from the instability and privation of the nineteenth century The essays in this volume offer up no easy solutions to the challenges facing today s workers Nevertheless they make clear that cogent historical thinking is crucial to understanding those challenges and they push us toward a rethinking of the relationship between capital and labor the waged and unwaged and the employed and jobless Contributors are Sven Beckert Sean Cadigan Leon Fink Alvin Finkel Wendy Goldman Gaetan Heroux Joseph A McCartin David Montgomery Edward Montgomery Scott Reynolds Nelson Melanie Nolan Bryan D Palmer Joan Sangster Judith Stein Hilary Wainright and Lu Zhang

Authoritarian Neoliberalism and Resistance in Turkey İmren Borsuk,Pınar Dinç,Sinem Kavak,Pınar Sayan,2021-09-29 This book offers new clarity on three important political concepts authoritarianism neoliberalism and resistance While debates on authoritarian resurgence have been limited to the examination of political factors e g polarisation conflict until recently the rising literature on authoritarian neoliberalism highlights how the neoliberal restructuring of political economy bolsters the authoritarian tendencies of elected governments both in the Global South and the Global North This book will be an invaluable resource not only to scholars of Turkey and the Middle East but also to researchers into authoritarianism and neoliberalism around the world Chapters 2 and 10 are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

Irish Yearbook of International Law, Volume 7, 2012 Fiona de Londras,Siobhán Mullally,2014-12-04 The Irish Yearbook of International Law IYIL supports research into Ireland s practice in international affairs and foreign policy filling a gap in existing legal scholarship and assisting in the dissemination of Irish thinking and practice on matters of international law On an annual basis the Yearbook presents peer reviewed academic articles and book reviews on general issues of international law Designated correspondents provide reports on international law developments in Ireland Irish practice in international bodies Ireland and the Law of the Sea and the law of the European Union as relevant to developments in Ireland In addition the Yearbook reproduces key documents that reflect Irish practice on contemporary issues of international law Publication of the Irish Yearbook of International Law makes Irish practice and opinio juris more readily available to Governments academics and international bodies when determining the content of international law In

providing a forum for the documentation and analysis of North South relations the Yearbook also makes an important contribution to post conflict and transitional justice studies internationally As a matter of editorial policy the Yearbook seeks to promote a multilateral approach to international affairs reflecting and reinforcing Ireland s long standing commitment to multilateralism as a core element of foreign policy **Media and Communications Policy Making** Robert G.

Picard,2020-03-25 This textbook focuses on how media and communications policy is made and what influences its design It explores the structures and processes in which policymaking takes place worldwide the factors that determine its forms influence its elements and affect its outcomes It explores how to analyze policy proposals evaluate policy and use policy studies approaches to examine policy and policymaking Truly international in scope it lays out the variety of political social economic and institutional influences on policy the roles of industries and policy advocates in the processes and issues and factors that complicate effective policymaking and skew policy outcomes This textbook is a valuable resource for advanced undergraduate and postgraduate students Degrees of Freedom Edwin van de Haar,2015-06-01 Liberalism has been the leading political theory of the past three hundred years and by far the most dominant ideology Many think tanks are associated with liberal ideas and most Western countries are considered liberal democracies But does liberalism really cover the wide range of political ideas found in Western civilization Degrees of Freedom examines liberalism s universal claims and explains how liberal thinkers formulated insights that apply to all aspects of politics It also contrasts liberalism and conservatism Edwin van de Haar divides liberalism into three main variants classical liberalism social liberalism and libertarianism Without claiming that this is the only possible categorization of liberalism he argues that this subdivision is the most comprehensible way out of liberal confusion He explores how these forms of liberalism found in popular parlance relate to liberal political theory and ideology Domestic politics and international relations are presented as a whole in the firm belief that one cannot meaningfully present an overview of any tradition in political theory by stopping at national borders

Disability, Spaces and Places of Policy Exclusion Karen Soldatic,Hannah Morgan,Alan Roulstone,2014-06-27

Geographies of disability have become a key research priority for many disability scholars and geographers This edited collection incorporating the work of leading international disability researchers seeks to expand the current geographical frame operating within the realm of disability Providing a critical and comprehensive examination of disability and spatial processes of exclusion and inclusion for disabled people the book uniquely brings together insights from disability studies spatial geographies and social policy with the purpose of exploring how spatial factors shape limit or enhance policy towards and the experiences of disabled people Divided into two parts the first section explores the key concepts to have emerged within the field of disability geographies and their relationship to new policy regimes New and emerging concepts within the field are critically explored for their significance in conceptually framing disability The second section provides an in depth examination of disabled people s experience of changing landscapes within the onset of emerging disability policy regimes It

deals with how the various actors and stakeholders such as governments social care agencies families and disabled people traverse these landscapes under the new conditions laid out by changing policy regimes Crucially the chapters examine the lived meaning of changing spatial relations for disabled people Grounded in recent empirical research and with a global focus each of the chapters reveal how social policy domains are challenged or undermined by the spatial realities faced by disabled people and expands existing understandings of disability In turn the book supports readers to grasp future policy directions and processes that enable disabled people s choices rights and participation This important work will be invaluable reading for students and researchers involved in disability geography and social policy *German Neoliberalism from 1924 to 1963*

Arne I. A. Käthner,2024-09-18 This book offers an in depth study of German neoliberalism between 1924 and 1963 arguing that a neoliberal network was established in the interwar period decades before elite networks in Great Britain and the United States fostered the neoliberal revolution of the Thatcher and Reagan administrations The author shows how this network strongly influenced societal developments in the 1950s and set a precedent for neoliberal projects in other countries This success was largely due to the deliberate and strategic reorganisation of the semantic field abandoning or reacquiring abused concepts challenging existing meanings or introducing new concepts to the political scene The book examines the Aktionsgemeinschaft Soziale Marktwirtschaft ASM an early neoliberal Think Tank founded in 1953 and led by Alexander R stow which became an influential political actor in post war West Germany The author adopts a decidedly transnational approach linking and contrasting inner German debates with those taking place transnationally among neoliberal proponents in the Mont Plerin Society More than just a political study of ideologies this book provides a historical account of the conceptual struggles over neoliberalism the actors who engaged in them the spheres in which they took place and the semantic means and conceptual strategies employed providing useful insights for scholars of German and political history as well as political science more generally **Power and Political Economy from Thatcher to Blair** Robert

Ledger,2021-03-04 This book investigates the policies of the Thatcher Major and Blair governments and their approaches towards concentration of economic and political power The 1979 2007 British governments have variously been described as liberal or to use a political insult and a favourite academic label neoliberal One of the stated objectives of the Thatcher Major and Blair governments albeit with differing focal points was to disperse power and to empower the individual This was also a consistent theme of the first generation of neoliberals who saw monopolies vested interests and concentration more generally as the great enemy of democracy Under Thatcher and Major Conservatives sought to liberalize the economy and spread ownership through policies like Right to Buy and privatisation New Labour dispersed political power with its devolution agenda granted operational independence to the Bank of England and put in place a seemingly robust antitrust framework All governments during the 1979 2007 period pursued choice in public services Yet our modern discourse characterises Britain as beset by endemic power concentration in markets and politics What went wrong How did so called neoliberal

governments which invoked liberty and empowerment fail to disperse power and allow concentration to continue recur or arise The book will be of interest to students and scholars of contemporary British history political economy and politics as well as specific areas of study such as Thatcherism and New Labour

Chinese International Students and Citizenship
 Xiudi Zhang, 2020-02-22 This book investigates how Chinese international students reconfigure their sense of themselves as citizens when they reflect on what Chinese citizenship means in the context of New Zealand Adopting a case study approach it develops a theory relating to the thoughts of Chinese international students the theory is based on the communities schools family and state relationships of both their past and their contemporary daily experiences It finds that the struggles of Chinese young people lie in between being individuals and submitting to the general will of the family state and guanxi a Chinese concept of interpersonal relationships The book argues that the Western literature on citizenship is not sufficient in helping us understand how it is viewed in the Chinese contexts It offers readers a picture of what citizenship means for Chinese young people and the role of citizenship education in Modern Chinese society and demonstrates that the Chinese young people studied re educated themselves on citizenship in a way that is unstable and emotional This book makes important contributions to the literature on Chinese students who are studying abroad by going beyond the well researched topics of academic and social experience to explore deeper understandings of each individual student s relationship to family and the state in China and how the study abroad experience has developed new understandings of individual s relationships to China and new possibilities for contributing to Chinese society on return

Twenty-first Century Curriculum Policy
 Zahira Kunhi, Lesley Vidovich, Tom O'Donoghue, 2021-02-02 This book focuses on the phenomenon of a 21st century curriculum and its role in preparing students for work and life in a rapidly changing global knowledge society Its context is the global and diverse national influences on education policy agendas The central concepts in the academic literature that underpins the phenomenon are globalisation curriculum and policy The analysis spans global influences on the development of 21st century curriculum policy the construction of such policy at the national and State levels in Australia and the enactment of such policy in three select case study schools and in relation to which both similarities and differences are identified The global to local span and the international relevance of the exposition are both revisited to highlight major findings to discuss them in relation to recent literature and to offer propositions about 21st century curriculum development that are of wide interest and relevance Recommendations for policy and practice as well as possible future directions for research in the field follow

Liberal Solidarity Hodgson, Geoffrey M., 2021-08-27 The twenty first century has seen major challenges to freedom and democracy Authoritarianism is on the rise and democracy is in retreat Some promote individualism and markets as the solution to almost every problem On the other side there are those who champion collectivism and full public ownership Neither side is convincing Unrestrained capitalism has exacerbated inequality Socialism in practice has ended democracy Effective defenders of liberty and human flourishing must find a different course

This book argues for a pragmatic social democratic liberalism that avoids unrealistic extremes and tackles major problems such as inequality and climate change

Making Globalization Happen Vijayashri Sripati, 2024 In *Making Globalization Happen The Untold Story of Power Profits Privilege* Sripati explains how when through which entities and for what purposes economic globalization was catalyzed and its effects on the Global South in general and South Asia in particular Based on an innovative international constitutional political economy framework Sripati examines how the Western classical liberal constitution has shaped international law developments in this post colonial era given its salience and comprehensive scope Presenting a comprehensive narrative of economic globalization *Making Globalization Happen* accurately and comprehensively links constitutional globalization to the following UN family created agendas peacebuilding conflict prevention human security protection of civilians sustainable development global war on terrorism women peace and security poverty reduction or market oriented development ending conflict related sexual violence and justice climate criminal and transitional Sripati simultaneously provides the missing constitutional foundation for globalization and the fields that it has spawned global studies and law and political economy With these ground breaking insights *Making Globalization Happen The Untold Story of Power Profits Privilege* clearly illustrates who drove constitutional globalization and for whose benefit the UN family and transnational capitalists Thus it rips away the facade of UN family driven peace justice human rights democracy and development to expose it as a narrative of power profit and privilege for transnational capitalists and debt death and despair for the Global South

Liberalism and the Welfare State Roger E. Backhouse, Bradley W. Bateman, Tamotsu Nishizawa, Dieter Plehwe, 2017-06-30 The welfare state has over the past forty years come under increasing attack from liberals who consider comprehensive welfare provision inimical to liberalism Yet many of the architects of the post World War II welfare states were liberals many of whom were economists as much as socialists *Liberalism and the Welfare State* investigates the thinking of liberal economists about welfare focusing on Britain Germany and Japan each of which had a different tradition of economic thinking and different institutions for welfare provision This volume explores the early history of welfare thinking from the British New Liberals of the early twentieth century German Ordoliberals and post war Japanese Liberal economists It delves into arguments about neoliberalism under British Conservative and New Labour governments after German reunification and under Koizumi in Japan Given the importance of both international policy collaboration and international networks of neoliberal economists this volume also explores neoliberal ideas on federalism and the responses of neoliberal think tanks to the global financial crisis *Liberalism and the Welfare State* provides a comparative analysis of economists attitudes to the welfare state Notwithstanding the differences in each country support emerged very early on for social minimum standards but strong disagreements within each country quickly developed The result was divergence as the debates shaped different welfare regimes More recently the strong impact of efficiency related critiques of welfare regimes has crowded out more nuanced and complex discussions of the past

This volume provides a reminder that neither liberalism nor economic ideas in general are inimical to well designed welfare provision. The ongoing debate on economics and welfare can be greatly improved by way of stronger consideration of different lineages of both liberal and neoliberal lines of economic thought.
