**Library of Congress Catalogs** Library of Congress, 1955 An Indonesian-English Dictionary John M. Echols, Hassan Shadily, John U. Wolff, 1989 This dictionary is meant primarily as a tool for English speakers who need to know Indonesian and who deal with Indonesian writings The aim has thus been to give comprehensive coverage to forms a foreigner might run across in Indonesian readings from this era or from the past but excluding classical Malay literature Much of the Indonesian written production written and otherwise contains slangy colloquial and regional forms and we have not excluded such forms On the other hand we have confined the listing of dialectal forms only to those likely to be widely known The dictionary should also be useful to Indonesians who wish to learn English equivalents of Indonesian words but it has not been developed primarily for that purpose because many English words can only be defined by a sequence of Indonesian words from Introduction Recalling the Indies Joost Coté, Loes Westerbeek, 2005 *Recalling the Indies* reflects on a migrant story the stories of the journeys of the Indisch Dutch from the days of their childhood in the Dutch East Indies through their grim

experiences of war time imprisonment and the Indonesian revolution to their eventual settlement in Australia Almost half a million people of Dutch and Dutch Indonesian descent were forced to leave their homeland when Indonesia claimed its independence from the Netherlands Where would they go To the Netherlands whose language they spoke but from whose culture and climate they had become alienated This was their first landing but here they were met with hostility On to Australia But there people of colour were confronted by the infamous White Australia Policy Eventually approximately 10 000 Indisch Dutch people settled in Australia many more settled in North America others in New Zealand In this volume Joost Cote and Loes Westerbeek have brought together a broad range of contributors to tell the story of the Australian Indisch Dutch for the first time Contributions range from the personal stories of the migrants themselves to essays by Dutch and Australian scholars working in the field Early Views of Indonesia Annabel Teh Gallop, 1995-01-01 Early Views of Indonesia is a catalog of the most important watercolor and pencil drawings from the British Library's superb collection of more than 1 500 drawings of Indonesia dating from the early nineteenth century most of which have never been published before Dutch Studies, 1977 A review of the language literature and life of the Low Countries **The Dutch Overseas** Coenraad Liebrecht Temminck Groll, W. van Alphen, H. C. A. der Kat, Hannedea van Nederveen Meerkerk, L. B. Wevers, 2002

*Intellectuals and Nationalism in Indonesia* J. D. Legge, 2010 It has always been a matter of national pride that independence came to Indonesia not as the result of a negotiated transfer of sovereignty though the process was completed in that way but through a struggle of heroic proportions in whose fires the nation itself was forged The revolution indeed is central to the Republic's perception of itself To call it a revolution is of course to beg a number of important questions What is a revolution Is the concept developed in modern thought on the models of the French and Russian revolutions applicable to a nationalist struggle for independence Or must a revolution involve also a transfer of power from one social class to another and a subsequent social transformation For Indonesians looking back to the birth of the nation however such questions do not arise For them there is no question but that the events of 1945-49 constituted a revolution a revolution that is seen as the supreme act of national will the symbol of national self reliance and for those caught up in it as a vast emotional experience in which the people the people as a whole participated directly The exploration of Sjahrir's recruitment of a group of followers during the Japanese Occupation and of the character and attitudes of the group is based in large measure on interviews with its surviving members A highly articulate body of people they clearly enjoyed recalling their youth remembering particular experiences and thinking back on the issues that had preoccupied them and the ideas that had excited them as students For many of them it had obviously been a golden age perceived all the more vividly now because the world they had hoped for had never come into being There is perhaps a good deal of nostalgia in their memories of what it was like to be a part of a crucial period in their country's history and no doubt some misjudgment about the parts they played Oral history is a risky business given the fallibility of human memory and the tendency for interviewer and subject alike to

collaborate in re shaping the past in the light of their later perspectives The dangers of such a method are discussed below Nevertheless provided it is kept in mind that memories are documents of the present and not of the period with which they deal it is important to gather these recollections while members of the generation in question are still alive     **A**
