Nederlands Beschaving In De 17de Eeuw:

Nederlands beschaving in de zeventiende eeuw Johan Huizinga, 1998 Beschouwing van de Nederlandse historicus 1872 1945 over de identiteit van de Republiek 1588 1795 **Handboek Nederlandse kerkgeschiedenis** Herman Selderhuis, 2025-07-04 Een boek over hoe het christendom Nederland vormde De christelijke kerk heeft de geschiedenis van Nederland diepgaand beïnvloed Die kerk is zichtbaar aanwezig in elke stad en elk dorp en heeft onze manier van leven van denken van geloven blijvend bepaald In dit standaardwerk neemt een team van specialisten de lezer mee in de fascinerende geschiedenis van de kerk in de Lage Landen In heldere taal en met ruime aandacht voor de samenhang van maatschappelijke culturele en kerkelijke ontwikkelingen wordt een compleet overzicht aangeboden Het herziene en volledig geactualiseerde handboek beschrijft ook de eerste twee decennia van de 21e eeuw Honderden prachtige afbeeldingen zijn in deze full colour uitgave opgenomen Het handboek is samengesteld door Herman J Selderhuis en geschreven door Paul H A M Abels Willem J van Asselt William den Boer Aart de Groot George Harinck Peter Nissen Frank van der Pol Herman J Selderhuis en Lodewijk Winkeler *Handbook of Dutch Church History* Herman J. Selderhuis, 2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co written by a catholic and a protestant author who have all integrated the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events are always set within a greater framework of political social and cultural developments for which reason each author has taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations Also many source texts are integrated in the narration These texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words The name of the book as Handbook of the church history of the Netherlands immediately brings to mind three problematic complexes which are relevant to its user First there is the nature of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town and village has its own church history Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments Das Konfessionelle Zeitalter Harm Klueting, Europa zwischen Renaissance und Frühaufklärung Religion und Kirche Glaube und Unglaube Politik und materielle Kultur vom 15 bis 17 Jahrhundert das ist Gegenstand der großen kirchengeschichtlichen und allgemeingeschichtlichen Monographie deren erster Band einen Rezensenten an Fernand Braudels La Méditerranée et le monde méditerranéen à l'époque de Philippe II erinnerte der meinte in Kluetings Werk so etwas Ähnliches für die Kirchengeschichte vor sich zu haben Band 1 des Werkes erschien 2007 im Primus Verlag Darmstadt und als Lizenzausgabe bei der Wissenschaftlichen Buchgesellschaft Darmstadt Band 2 im Lit Verlag erschließt die internationale Forschungsliteratur die für dieses Werk das sich über ganz Europa erstreckt und die europäischen Missionsräume

The Sublime in the Visual Culture of the Seventeenth-Century Dutch Republic Stijn Bussels, Bram Van Oostveldt, 2023-11-07 Contrary to what Kant believed about the Dutch and their visual culture as being of an orderly and diligent position and thus having no feeling for the sublime this book argues that the sublime played an important role in seventeenth century Dutch visual culture By looking at different visualizations of exceptional heights divine presence political grandeur extreme violence and extraordinary artifacts the authors demonstrate how viewers were confronted with the sublime which evoked in them a combination of contrasting feelings of awe and fear attraction and repulsion In studying seventeenth century Dutch visual culture through the lens of notions of the sublime we can move beyond the traditional and still widespread views on Dutch art as the ultimate representation of everyday life and the expression of a prosperous society in terms of calmness neatness and order The book will be of interest to scholars working in art history visual culture architectural history and cultural history The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 International license Funded by Ghent University

The Ashgate Research Companion to Dutch Art of the Seventeenth Century Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public's ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently
