Deconstructing "Ideal Power Europe" Münevver Cebeci, 2018-12-31 Deconstructing Ideal Power Europe The EU and Arab Change criticizes the dominant discourse on European foreign policy which represents the EU as a force for good in world politics Using a poststructuralist approach it deconstructs the EU's representation as an ideal power through an analysis of European foreign policy on the Southern Mediterranean before and after the Arab uprisings In this endeavor it displaces three major discourses which construct the EU as ideal the postmodern and post sovereign EU the EU as a model a virtuous example and the EU as a normative power discourses The major argument of the book is that the ideal power Europe meta narrative is especially produced and reproduced in the EU's approach towards the Southern Mediterranean and it manifests itself through the rhetoric of responsibility and universality in the aftermath of the Arab uprisings The book also provides an analysis of how the ideal power Europe meta narrative feeds into and legitimizes European governmentality in the world in general and in the case of the Southern Mediterranean after the Arab uprisings in particular Arguing that the depiction of the EU as postmodern post sovereign as a model an exemplar and as a normative power pertains to the representation of a regulatory ideal it elucidates how the EU pursues hegemonic practices in the Southern Mediterranean It further manifests how the EU's governmentality is marked by a securitized depoliticizing and technocratic approach which feeds into and gets legitimized by the dominant discourse on European foreign policy reproducing the EU's ideal identity vis vis its imperfect Arab other

better address integration conundrums A National Project Leah K. Hamilton, Luisa Veronis, Margaret Walton-Roberts, 2020-08-20 Since the outbreak of the Syrian Civil War in 2011 over 5.6 million people have fled Syria and another 6.6 million remain internally displaced. By January 2017 a total of 40,081 Syrians had sought refuge across Canada in the largest resettlement event the country has experienced since the Indochina refugee crisis. Breaking new ground in an effort to understand and learn from the Syrian Refugee Resettlement Initiative that Canada launched in 2015, A National Project examines the experiences of refugees receiving communities and a range of stakeholders who were involved in their resettlement, including sponsors, service providers, and various local and municipal agencies. The contributors, who represent a wide spectrum of disciplines, include many of Canada's leading immigration scholars and others who worked directly with refugees. Considering the policy behind the program and the geographic and demographic factors affecting it, chapters document mobilization efforts, ethical concerns, integration challenges, and varying responses to resettling Syrian refugees from coast to coast. Articulating key lessons to be learned from Canada's program, this book provides promising strategies for future events of this kind. Showcasing innovative practices and initiatives, A National Project captures a diverse range of experiences surrounding Syrian refugee resettlement in Canada.

Migrant and Refugee Integration in Mexico Nuty Cárdenas-Alaminos, Karla Valenzuela-Moreno, Liliana Meza González, 2024-07-25 Although Mexican emigration to the United States is still relevant, it has also become a return transit and recipient country for thousands of refugees. Now many of these migrants, refugees, and their families stay on Mexican soil, trying to integrate within Mexican society. This book brings together leading experts in Mexico and covers the political dimension of integration for migrants in Mexico, analyzing integration policies, civil society efforts, and public opinion from various angles. In this context, many questions arise. Among the most relevant: What has the federal government done to assist these migrant groups who often arrive in conditions of great vulnerability? What policies have been implemented at the subnational level of government to adequately integrate these population groups? What actions have been implemented by other local actors, such as civil society organizations? What do Mexicans think about newcomers? Migrant and Refugee Integration in Mexico will be of interest to students and scholars across a range of disciplines, including international relations, development studies, anthropology, international studies, sociology, and Latin American studies.

Best Practices for Social Work with Refugees and Immigrants Miriam Potocky, Mitra Naseh, 2019-10-29 Social work practice with refugees and immigrants requires specialized knowledge of these populations and specialized adaptations and applications of mainstream services and interventions. Because they are often confronted with cultural, linguistic, political, and socioeconomic barriers, these groups are especially vulnerable to psychological problems such as anxiety, depression, alienation, grief, and post-traumatic stress disorder, as well as concerns arising from inadequate health care.
