Hungochani, Second Edition Marc Epprecht, 2013-04-01 In the tapestry of global queer cultures, Africa has long been neglected or stereotyped. In *Hungochani*, Marc Epprecht seeks to change these limited views by tracing Southern Africa's history and traditions of homosexuality, modern gay and lesbian identities, and the vibrant gay rights movement that has emerged since the 1980s. Epprecht explores the diverse ways African cultures traditionally explained same-sex sexuality and follows the emergence of new forms of gender identity and sexuality that evolved with the introduction of capitalism, colonial rule, and Christian education. Using oral testimony, memoirs, literature, criminal court records, and early government enquiries from the eighteenth century to the present, he traces the complex origins of homophobia. By bringing forth a wealth of evidence about once hidden sexual behaviour, Epprecht contributes to the honest, open discussion that is urgently needed in the battle against HIV/AIDS. Homosexuality in *Hungochani*, as it is known in Zimbabwe, has been denounced by many politicians and church leaders as an example of how Western decadence has corrupted African traditions. However, a bold new gay rights movement has emerged in several of the countries of the region since the 1980s, offering an exciting new dimension in the broad struggle for human rights and democracy unfolding on the continent. In a new preface to this edition, Epprecht considers the recent advances of equality on the continent, such as the legalization of same-sex marriage in South Africa, as well as discriminatory setbacks, such as Uganda's anti-homosexuality legislation.

Inter-African Development and Development Fund (Iadf) I. Isaac, I. I. Isaac, I. I. Isaac, 2009-12
SYNOPSIS FOR INTER AFRICAN DEVELOPMENT VOL 1
Inter-African development is possible through an array of alternative strategies.
CHAPTER 1 Addresses land use and management in Africa. In Africa, land use has become one of the most seriously contested problems ever to be reckoned in the history of Africa. Land is both security and economic confidence for the many landless or marginalized persons in the world. African governments' concern should be obligatory in finding lasting solutions to resolve issues of land degradation resulting from human activities and land management. How then do we frame land issues? The issues that can be addressed are such as ecological footprints and tragedy of the commons. Therefore, African countries need to harness reforestation programs in order to subdue the ever-increasing risks posed by global warming and desert encroachment.
CHAPTER 2 addresses the history of grabbing fertile lands. The history of land extortion dates back to Europe and continued in Africa through colonial era. Land grabbing has its economic implications. Access to land and violent conflicts in Africa have economic as well as political implications. Thus, because of the economic and political implications, Land represents security and economic

confidence Therefore reforms in land ownership must be implemented so that the landless may also have a share in land tenureship CHAPTER 3 addresses democracy and economic development issues towards sustainability as well as identifying culprits of development retardation CHAPTER 4 addresses IADF strategies for regional economic development CHAPTER 5 addresses development modalities Modalities that need to be adopted by African governments are such as import substitution model strategies export lead growth industrialization emulation of Chile's example Mexico's example the adoption of India's software industry style Japan's Export Growth Model importance of an industry's location and other infrastructural development modalities CHAPTER 6 addresses issues arising from economies that are driven without democracy and security CHAPTER 7 addresses the importance of approaching sustainable development with single currency CHAPTER 8 addresses the benefits of single currency CHAPTER 9 addresses the importance of printing single currency within Africa CHAPTER 10 lays emphasis upon how assets for banking system through IADF should be implemented CHAPTER 11 addresses how establishing free trade can impact economic growth in neighbouring countries One of the modalities of approaching such trading policies is the Harmonization of consumer price indices CHAPTER 12 addresses harmonization of continental trade indices with emphasis on Terms of trade which is an index of the price of a country's exports in terms of its imports The terms of trade are said to improve if that index rises CHAPTER 13 addresses modalities for harmonizing trade indices Trade harmonization is an equal treatment among trading partners CHAPTER 14 addresses how world trade affects poor nations economy and how to avert from goods dumping CHAPTER 15 addresses how trade imbalances defined by unfair trade CHAPTER 16 addresses issues pertaining to trade related intellectual property rights TRIPS CHAPTER 17 addresses Political issues with emphasis on Governance issues and Guidance CHAPTER 18 addresses theories behind the Inter African development fund IADF CHAPTER 19 addresses issues as to whether an all African senate political system will help solve Africa's political instabilities CHAPTER 20 lays emphasis on infrastructure development and how this will impact economic development CHAPTER 21 addresses as to whether governments are part of the problems and solutions CHAPTER 22 addresses how disparate and desperate are African nations How disparity can be narrowed between the rich and the poor or whether other alternatives can be applied CHAPTER 23 makes analysis on how adopting Ricardo's comparative advantage may impact manufacturing and then how it may lead to sustainable economic development of the regions CHAPTER 24 addresses post colonial issues and Africa in post colonial era CHAPTER 25 addresses natural resources as conflicting resources CHAPTER 26 addresses what are the factors and ambivalence to African problems CHAPTER 27 lays emphasis on health crisis in Africa with the advent of HIV AIDS CHAPTER 28 encourages new ideas and discoveries in health sciences in which claims for cure of HIV AIDS have been pronounced which is something Africa could take pride in The major challenges are the issues of globalization and the internal self inflicted oppressive forces of bad politics Also whether or not blocs of nations can envision solidarity economics implement political union and economic independence through economic

Porfilio, 2015-02-01 Anyone who is touched by public education teachers administrators teacher educators students parents politicians pundits and citizens ought to read this book a revamped and updated second edition It will speak to educators policymakers and citizens who are concerned about the future of education and its relation to a robust participatory democracy The perspectives offered by a wonderfully diverse collection of contributors provide a glimpse into the complex multilayered factors that shape and are shaped by education institutions today The analyses presented in this text are critical of how globalization and neoliberalism exert increasing levels of control over the public institutions meant to support the common good Readers of this book will be well prepared to participate in the dialogue that will influence the future of public education in United States and beyond a dialogue that must seek the kind of change that represents hope for all students As for the question contained in the title of the book The Phenomenon of Obama and the Agenda for Education Can Hope Still Audaciously Trump Neoliberalism Second Edition Carr and Porfilio develop a framework that integrates the work of the

contributors including Christine Sleeter and Dennis Carlson who wrote the original forward and afterword respectively and the updated ones written by Paul Street Peter McLaren and Dennis Carlson which problematize how the Obama administration has presented an extremely constrained conservative notion of change in and through education The rhetoric has not been matched by meaningful tangible transformative proposals policies and programs aimed at transformative change and now fully into a second mandate this second edition of the book is able to more substantively provide a vigorous critique of the contemporary educational and political landscape There are many reasons for this and according to the contributors to this book it is clear that neoliberalism is a major obstacle to stimulating the hope that so many have been hoping for Addressing systemic inequities embedded within neoliberalism Carr and Porfilio argue is key to achieving the hope so brilliantly presented by Obama during the campaign that brought him to the presidency
