THE LAST DAYS OF THE
AMERICAN REPUBLIC

AUTHOR OF THE SORROWS OF EMPIRE AND BLOWBACK

CHALMERS
JOHNSON

Nemesis The Last Days Of The American Republic American Empire Project

David Lorenzo

Nemesis The Last Days Of The American Republic American Empire Project:

Nemesis Chalmers Johnson, 2007-02-06 The long awaited final volume of Chalmers Johnson's bestselling Blowback trilogy confronts the overreaching of the American empire and the threat it poses to the republic In his prophetic book Blowback Chalmers Johnson linked the CIA's clandestine activities abroad to disaster at home In The Sorrows of Empire he explored the ways in which the growth of American militarism and the garrisoning of the planet have jeopardized our stability Now in Nemesis he shows how imperial overstretch is undermining the republic itself both economically and politically Delving into new areas from plans to militarize outer space to Constitution breaking presidential activities at home and the devastating corruption of a toothless Congress Nemesis offers a striking description of the trap into which the dreams of America's leaders have taken us Drawing comparisons to empires past Johnson explores in vivid detail just what the unintended consequences of our dependence on a permanent war economy are likely to be What does it mean when a nation's main intelligence organization becomes the president's secret army Or when the globe's sole hyperpower no longer capable of paying for the vaulting ambitions of its leaders becomes the greatest hyper debtor of all times In his stunning conclusion Johnson suggests that financial bankruptcy could herald the breakdown of constitutional government in America a crisis that may ultimately prove to be the only path to a renewed nation Doing Theology in the Age of Trump Jeffrey W.

Robbins, Clayton Crockett, 2018-11-08 This book is a work of theological resistance It is not so much about the presidency of Donald Trump as it is about what his popularity and rise to power reveal about the state of Christianity and the moral character of the evangelical Right in the United States today More specifically it is about the threat of white Christian nationalism which is the particular form that the nationalist populist movement of Trumpism has adopted for itself The contributors are all fellows from the Westar Institute's academic seminar on God and the Human Future and include many of the leading figures in theology and Continental philosophy of religion This volume provides a form of theopolitical resistance based on intersectionality The authors recognize how the various forms of oppression interrelate to contribute to a vast dynamic and seeming impenetrable network of systemic injustice and marginalization These essays demonstrate that politics need not be played as a zero sum game with a winner take all mentality and that a critical theology is as urgently needed and as relevant now as ever **The American Imperial Gothic** Johan Höglund, 2016-03-16 The imagination of the early twenty

first century is catastrophic with Hollywood blockbusters novels computer games popular music art and even political speeches all depicting a world consumed by vampires zombies meteors aliens from outer space disease crazed terrorists and mad scientists These frequently gothic descriptions of the apocalypse not only commodify fear itself they articulate and even help produce imperialism Building on and often retelling the British imperial gothic of the late nineteenth century the American imperial gothic is obsessed with race gender degeneration and invasion with the destruction of society the collapse of modernity and the disintegration of capitalism Drawing on a rich array of texts from a long history of the gothic this book

contends that the doom faced by the world in popular culture is related to the current global instability renegotiation of worldwide power and the American bid for hegemony that goes back to the beginning of the Republic and which have given shape to the first decade of the millennium From the frontier gothic of Charles Brockden Brown s Edgar Huntly to the apocalyptic torture porn of Eli Roth s Hostel the American imperial gothic dramatises the desires and anxieties of empire Revealing the ways in which images of destruction and social upheaval both query the violence with which the US has asserted itself locally and globally and feed the longing for stable imperial structures this book will be of interest to scholars and students of popular culture cultural and media studies literary and visual studies and sociology Atoll Diego Garcia

Peter H. Sand,2011 **Plight of the Cultural Mutant** Jack Suss,2017-03-11 The past quarter century proved to be a particularly rough and rocky road for the cultural mutant From getting on the wrong end of political correctness at St John s College Santa Fe followed by a confused odyssey as an ESL teacher a doctoral student a would be scholar and poet pundit and constitutionalist attorney psychedelic inner space explorer and blues piano player and then returning to his boyhood neighborhood only to find it irretrievably morphed and mangled The confusion experienced during the cultural mutant s long odyssey in the wilderness of not knowing precisely the causes of his malaise is exhaustively portrayed herein *New*

Directions in US Foreign Policy Inderjeet Parmar,Linda B. Miller,Mark Ledwidge,2009-06-19 This text is a state of the art overview of US foreign policy The book provides a comprehensive account of the latest theoretical perspectives the key actors and issues and new policy directions The Case for Withdrawal from Afghanistan Nick Turse,2010-09-20 Known as the graveyard of empires Afghanistan has now been singled out as Obama s just war the destination for an additional thirty thousand US troops in an effort to shore up an increasingly desperate occupation Nick Turse brings together a range of leading commentators politicians and military strategists to analyze America s real motives and likely prospects Through on the spot reporting clear headed analysis and historical comparisons with Afghanistan s previous occupiers Britain and the Soviet Union who also argued that they were fighting a just and winnable war The Case for Withdrawal From Afghanistan carefully examines the current US strategy and offers sobering conclusions This timely and focused collection aims at the heart of Obama s foreign policy and shows why it is so unlikely to succeed **Последняя цивилизация.**

Политэкономия XXI века Василий Галин,2014-01-15 **The Power of Scientific Knowledge** Reiner Grundmann,Nico Stehr,2012-08-16 It is often said that knowledge is power but more often than not relevant knowledge is not used when political decisions are made This book examines how political decisions relate to scientific knowledge and what factors determine the success of scientific research in influencing policy The authors take a comparative and historical perspective and refer to well known theoretical frameworks but the focus of the book is on three case studies the discourse of racism Keynesianism and climate change These cases cover a number of countries and different time periods In all three the authors see a close link between knowledge producers and political decision makers but show that the effectiveness of the policies

varies dramatically This book will be of interest to scientists decision makers and scholars alike **The Phenomenon of Obama and the Agenda for Education - 2nd Edition** Paul R. Carr,Brad J. Porfilio,2015-02-01 Anyone who is touched by public education teachers administrators teacher educators students parents politicians pundits and citizens ought to read this book a revamped and updated second edition It will speak to educators policymakers and citizens who are concerned about the future of education and its relation to a robust participatory democracy The perspectives offered by a wonderfully diverse collection of contributors provide a glimpse into the complex multilayered factors that shape and are shaped by education institutions today The analyses presented in this text are critical of how globalization and neoliberalism exert increasing levels of control over the public institutions meant to support the common good Readers of this book will be well prepared to participate in the dialogue that will influence the future of public education in United States and beyond a dialogue that must seek the kind of change that represents hope for all students As for the question contained in the title of the book The Phenomenon of Obama and the Agenda for Education Can Hope Still Audaciously Trump Neoliberalism Second Edition Carr and Porfilio develop a framework that integrates the work of the contributors including Christine Sleeter and Dennis Carlson who wrote the original forward and afterword respectively and the updated ones written by Paul Street Peter McLaren and Dennis Carlson which problematize how the Obama administration has presented an extremely constrained conservative notion of change in and through education The rhetoric has not been matched by meaningful tangible transformative proposals policies and programs aimed at transformative change and now fully into a second mandate this second edition of the book is able to more substantively provide a vigorous critique of the contemporary educational and political landscape There are many reasons for this and according to the contributors to this book it is clear that neoliberalism is a major obstacle to stimulating the hope that so many have been hoping for Addressing systemic inequities embedded within neoliberalism Carr and Porfilio argue is key to achieving the hope so brilliantly presented by Obama during the campaign that brought him to the presidency **Islamophobia and the West** Imbesat Daudi,2022-10-21 This book provides an engaging and insightful look into the definitions discourse and experiences of Islamophobia and its steady rise since 9 11 It analyses concepts and binaries that are drawn around discussions on civilization religious dogma violence and race Is there a link between Islam and violence Why does the West feel threatened by it The author critically examines these questions and the birth of hate politics which packages hate in a marketable format and often demonizes victims It also looks at the role of the media in the West in perpetuating stereotypes and its consequences and the nature of war reportage in Islamic countries while deconstructing the narrative of the clash of civilizations Topical and lucid this book is a must read for students and scholars of sociology international relations peace and conflict studies political science Islamic studies and for other readers interested in these topics Militainment, Inc. Roger Stahl,2009-12-04 Militainment Inc offers provocative sometimes disturbing insight into the ways that war is presented and viewed as entertainment or militainment in

contemporary American popular culture War has been the subject of entertainment for centuries but Roger Stahl argues that a new interactive mode of militarized entertainment is recruiting its audience as virtual citizen soldiers The author examines a wide range of historical and contemporary media examples to demonstrate the ways that war now invites audiences to enter the spectacle as an interactive participant through a variety of channels from news coverage to online video games to reality television Simply put rather than presenting war as something to be watched the new interactive militainment presents war as something to be played and experienced vicariously Stahl examines the challenges that this new mode of militarized entertainment poses for democracy and explores the controversies and resistant practices that it has inspired This volume is essential reading for anyone interested in the relationship between war and media and it sheds surprising light on the connections between virtual battlefields and the international conflicts unfolding in Iraq and Afghanistan today

Ending War, Building Peace Lynda-Ann Blanchard, Leah Chan, 2022-05-18 The US led invasion and occupation of Iraq led to more than a million people being killed displaced five million from their homes and shattered countless more lives It was a colossal premeditated war crime Leaders of governments in the countries responsible for this enormity seek to minimise and forget about it to move on We must not let them because they want to retain the option of making the same political decisions condemning more innocent people to death somewhere else in the future Contributors to this book are united in saying never again They examine how and why this unmitigated disaster for humanity was allowed to happen and how we can prevent it being repeated And they imagine more peaceful ways to engage with conflicts and crises in times to come It raises a question what will you do to help end war and build peace *America Inc.?* Linda Weiss, 2014-03-29 For more than half a century the United States has led the world in developing major technologies that drive the modern economy and underpin its prosperity In *America Inc* Linda Weiss attributes the U S capacity for transformative innovation to the strength of its national security state a complex of agencies programs and hybrid arrangements that has developed around the institution of permanent defense preparedness and the pursuit of technological supremacy She examines how that complex emerged and how it has evolved in response to changing geopolitical threats and domestic political constraints from the Cold War period to the post 9 11 era Weiss focuses on state funded venture capital funds new forms of technology procurement by defense and security related agencies and innovation in robotics nanotechnology and renewable energy since the 1980s Weiss argues that the national security state has been the crucible for breakthrough innovations a catalyst for entrepreneurship and the formation of new firms and a collaborative network coordinator for private sector initiatives Her book appraises persistent myths about the military commercial relationship at the core of the National Security State Weiss also discusses the implications for understanding U S capitalism the American state and the future of American primacy as financialized corporations curtail investment in manufacturing and innovation *The Insecure American* Hugh Gusterson, Catherine Besteman, 2009-11-24 Americans are feeling insecure They are retreating to gated communities in

record numbers fearing for their jobs and their 401 k's nervous about their health insurance and their debt levels worrying about terrorist attacks and immigrants In this innovative volume editors Hugh Gusterson and Catherine Besteman gather essays from nineteen leading ethnographers to create a unique portrait of an anxious country and to furnish valuable insights into the nation's possible future With an incisive foreword by Barbara Ehrenreich the contributors draw on their deep knowledge of different facets of American life to map the impact of the new economy the war on terror the war on drugs racial resentments a fraying safety net undocumented immigration a health care system in crisis and much more In laying out a range of views on the forces that unsettle us *The Insecure American* demonstrates the singular power of an anthropological perspective for grasping the impact of corporate profit on democratic life charting the links between policy and vulnerability and envisioning alternatives to life as an insecure American

Conversations with Terrorists Reese Erlich, Baer Robert, 2016-01-08 Drawing on original research and firsthand interviews *Conversations with Terrorists* offers critical portraits of six Middle Eastern leaders often labeled as terrorists Syrian president Bashar Al Assad Hamas top leader Khaled Meshal Israeli politician Geula Cohen Iranian Revolutionary Guard founder Mohsen Sazargara Hezbollah spiritual advisor Grand Ayatollah Mohammed Fadlallah and former Afghan Radio and Television Ministry head Malamo Nazamy Veteran journalist Reese Erlich offers them a chance to explain key issues and to respond to charges leveled by the United States Critiquing these responses and synthesizing a broad range of material Erlich shows that yesterday's terrorist is today's national leader and that today's freedom fighter may become tomorrow's terrorist He concludes that the global war on terror has diverted public attention from the war's real goal expanding U.S. influence and interests in the Middle East and offers policy remedies

The World According to Tomdispatch Tom Engelhardt, 2008-05-17 Tomdispatch.com has established itself as the go-to blog for contemporary US politics and the favored website for leading commentators its powerful no holds barred essays resonate throughout the global online media This comprehensive volume offers readers a chance to catch up on some of the finest political analysis of our age from Afghanistan and Iraq through Guantánamo and extraordinary rendition Hurricane Katrina global warming black gold and the misbegotten clash of civilizations Introduced and edited by Tomdispatch's creator Tom Engelhardt *The World According to Tomdispatch* is the essential primer for anyone seeking guidance along the highways and byways of our post 9/11 world

Debating War David Lorenzo, 2015-08-14 What arguments have critics of American wars and interventions put forward and what arguments do they currently employ Thomas Jefferson Henry Thoreau John Calhoun the Anti Imperialist League Herbert Hoover Charles Lindbergh Martin Luther King Jr and Ron Paul among others have criticized proposals to intervene in other countries enter wars acquire foreign territory and engage in a forward defense posture Despite cogent objections they have also generally lost the argument Why do they lose This book provides answers to these questions through a survey of oppositional arguments over time augmented by the views of contemporary critics including those of Ron Paul Chalmers Johnson and Noam Chomsky Author David J

Lorenzo demonstrates how and why a significant number of arguments are dismissed as irrelevant unpatriotic overly pessimistic or radically out of the mainstream Other lines of reasoning might provide a compelling critique of wars and interventions from a wide variety of perspectives and still lose Evaluating oppositional arguments in detail allows the reader to understand problems likely to be faced in the context of policy discussions to grasp important political differences and the potential for alliances among critics and ultimately to influence decision making and America's place in the international power structure

Hegemony and Democracy Bruce Russett, 2011-03-10 Hegemony and Democracy is constructed around the question of whether hegemony is sustainable especially when the hegemon is a democratic state The book draws on earlier publications over Bruce Russett's long career and features new chapters that show the continuing relevance of his scholarship In examining hegemony during and after the Cold War it addresses The importance of domestic politics in the formulation of foreign policy The benefits and costs of seeking security through military power at the expense of expanding networks of shared national and transnational institutions The incentives of other states to bandwagon with a strong but unthreatening hegemon and free ride on benefits it may provide rather than to balance against a powerful hegemon The degree to which hegemony and democracy undermine or support each other By applying theories of collective action and foreign policy Russett explores the development of American hegemony and the prospects for a democratic hegemon to retain its influence during the coming decades This collection is an essential volume for students and scholars of International Relations American Politics and US Foreign Policy

A Future without Borders? Theories and practices of cosmopolitan peacebuilding Eddy Souffrant, 2016-08-01 A Future without Borders FWB offers an explanation of why the recent but by now distant movements of the Occupy Wall Street activists have repeated themselves across the globe The book demonstrates some of the processes inherent to an adapting cosmopolitanism a call for civility a call for Justice a call for a collective responsibility or accountability that is not individualistic in nature Until recently the statal national problems understood as politico economic failures were conceived as isolated problems failures of statal institutions that are particular to certain countries FWB contests the Westphalian logic that explains these circumstances as national failures and argues instead that the conditions be assessed as extensions of the global economic and ideological failures that they surely are Contributors are Anton Allabar Arnold Farr Andrew Fiala Pierre Andr Gagnon Bill Gay Kurtis Hagen Linden F Lewis Tracey Nicholls Richard T Peterson Jorge Rodriguez Eddy M Souffrant and Hilbourne A Watson
