The Tangled Web of the Civil War and Reconstruction David Madden,2015-08-05 This unique collection of writings by the celebrated author David Madden provides a multitude of reflections on the Civil War and Reconstruction from nonfiction to fiction Included are Madden s examination of key works by historians James McPherson and Fletcher Pratt the story of the effort to simultaneously burn nine bridges by nine unionist guerrilla bands in the most complicated and coordinated guerrilla tactic of the war and rediscoveries of both classic and contemporary works of Civil War fiction from William Faulkner Joseph Stanley Pennell and more Alongside these essays are pieces from Madden s Civil War novel Sharpshooter which illustrate the interconnectedness of fiction and nonfiction This meshing of iconoclastic and controversial pieces includes varied perspectives on every aspect of the war and reconstruction from culture and civilian life to an

imagining of Abraham Lincoln's critique of how historians have recorded the war and its aftermath. By exploring this web of perception we can better understand the war and in turn shed greater light on the present and the future. **Digital**

History and Hermeneutics Andreas Fickers, Juliane Tatarinov, 2022-06-21 As a result of rapid advancements in computer science during recent decades there has been an increased use of digital tools, methodologies and sources in the field of digital humanities. While opening up new opportunities for scholarship, many digital methods and tools now used for humanities research have nevertheless been developed by computer or data sciences and thus require a critical understanding of their mode of operation and functionality. The novel field of digital hermeneutics is meant to provide such a critical and reflexive frame for digital humanities research by acquiring digital literacy and skills. A new knowledge for the assessment of digital data, research infrastructures, analytical tools and interpretative methods is needed, providing the humanities scholar with the necessary munition for doing critical research. The Doctoral Training Unit Digital History and Hermeneutics at the University of Luxembourg applies this analytical frame to 13 PhD projects. By combining a hermeneutic reflection on the new digital practices of humanities scholarship with hands-on experimentation with digital tools and methods, new approaches and opportunities as well as limitations and flaws can be addressed. **Implementing Triple**

Bottom Line Sustainability into Global Supply Chains Lydia Bals, Wendy Tate, 2017-09-08 The global sustainability challenge is urgent, tremendous and increasing. From an ecological perspective, the current worldwide resource footprint requires approximately 1.5 planets to sustain existing life, and with current usage would require two planets by 2030. The social impact of ever-growing resource use disproportionately affects the world's poor, the 3 billion people living on less than \$2.50 a day as they struggle to acquire what is needed to survive. The serious ecological and social challenges we face in trying to establish global sustainable supply chains must not be underestimated; yet so far research has largely ignored the social dimension in favour of the environmental and economic. So how can we develop business strategies that move away from a primary economic focus and give equal weight to people, planet and profit? How can we create sustainable supply chains that take a true triple bottom line approach? **Implementing Triple Bottom Line Sustainability into Global Supply Chains** features innovative research highlighting new cases, approaches and concepts in how to successfully implement sustainability covering economic, ecological and social dimensions into global supply chains. The four parts cover the rationale for sustainable global supply chains, key enablers, case studies showing clear implementation steps and directions for future research and development. This book is a must-read for any academic researching in sustainable supply chain management, procurement or business strategy, and for business leaders seeking cases that will inform a critical step forward for CSR programmes.
