Abelard to Apple Richard A. Demillo, 2011-08-26 How institutions of higher learning can rescue themselves from irrelevance and marginalization in the age of iTunes U and YouTube EDU The vast majority of American college students attend two thousand or so private and public institutions that might be described as the Middle reputable educational institutions but not considered equal to the elite and entrenched upper echelon of the Ivy League and other prestigious schools Richard DeMillo has a warning for these colleges and universities in the Middle If you do not change you are heading for irrelevance and marginalization In Abelard to Apple DeMillo argues that these institutions clinging precariously to a centuries old model of higher education are ignoring the social historical and economic forces at work in today s world In the age of iTunes open source software and for profit online universities there are new rules for higher education DeMillo who has spent years in both academia and in industry explains how higher education arrived at its current parlous state and offers a road map for the twenty first century He describes the evolving model for higher education from European universities based on a medieval model to American land grant colleges to Apple s iTunes U and MIT s OpenCourseWare He offers ten rules to help colleges reinvent themselves including Don t romanticize your weaknesses and argues for a focus on teaching undergraduates DeMillo s message for colleges and universities students alumni parents employers and politicians is that any college or university can change course if it defines a compelling value proposition one not based in institutional envy of Harvard and Berkeley and imagines an institution that delivers it

Global University Rankings and the Mediatization of Higher Education Michelle Stack, 2016-04-12 Higher Education Institutions simultaneously critique and participate in national and international rankings of universities However this creates a difficult situation since if universities do participate in rankings they acquiesce to a system based in media logics that has little to do with academic norms of research If they do not participate in the rankings they risk losing public funding students and donors in an increasingly competitive and globalized environment This book delves into the influence of journalists business tycoons and multinational corporations in defining what world class is and how it will be measured Rankings provide us with a rich study for understanding how universities define deploy and manage their assets and liabilities in a mediatized globalized economy

A Big Apple for Educators: New York City's Experiment with Schoolwide Performance Bonuses Julie A. Marsh, Matthew G. Springer, Daniel F. McCaffrey, Kun Yuan, Scott Epstein, 2011-07-15 For three school years from 2007 to 2010 about 200 high needs New York City public schools participated in the Schoolwide Performance Bonus Program whose broad objective was to improve student performance through school based financial incentives An independent analysis of test scores surveys and interviews found that the program did not improve student achievement perhaps because it did not motivate change in educator behavior [The Michigan Journal](#), 2012

Global University Rankings T. Erkkilä, 2013-09-26 Global University Rankings explores the novel topic of global university rankings and their effects on higher education in Europe The

contributions in this volume outline different discourses on global university rankings and explore the related changes concerning European higher education policies disciplinary traditions and higher education institutions The first global university rankings were published less than a decade ago but these policy instruments have become highly influential in shaping the approaches and institutional realities of higher education The rankings have portrayed European academic institutions in a varying light There is intense reflexivity over the figures leading to ideational changes and institutional adaptation that take surprisingly similar forms in different European countries The contributions in this book critically assess global university rankings as a policy discourse that would seem to be instrumental to higher education reform throughout Europe

Managing Innovation Inside Universities Randolph Hall, 2024-06-10 This book offers guidance on capturing the creative forces of the faculty staff and students at universities Given their unique and central role in America and the world it examines how university research learning and service can be integrated to address the needs of society as it is both enabled and changed by technology In turn the book assesses the challenges and opportunities for universities to be more successful and impactful through innovation viewing universities as integrated systems It demonstrates how change can occur both within the knowledge economy and because of innovations within it In doing so the book provides insights into how universities can prosper and lead in a world that is constantly changed by the innovations that universities and industry jointly create The book serves as a guide for higher education policymakers funders donors board members stakeholders and leaders chairs deans provosts presidents through its systematic vision for university innovation and service to society It will also benefit researchers studying innovation in organizations illustrating how systematic approaches arising from management science and operations research can be used toward positive change Lastly strategic partners in industry government and foundations seeking opportunities for partnerships and collaboration with universities will also find it useful
