long term success Inside communities there is more tension diminishing trust in our institutions and a growing inability to solve our most complex social problems The primary culprit for these maladies is our lack of awareness Let s face it Our current approach to change is running out of steam And the cost of unaware people is too high to pay In this age of acceleration we need a fresh approach to living and leading CONSCIOUS is our wake up call to be aware awake and accountable Nothing is more important than understanding ourselves our relationships and our surroundings Being conscious helps us think deeper learn faster and collaborate better The more conscious we are the faster we adapt and the higher performing we become Conscious is the new smart As one of the premier global experts on leadership and transformation Bob Rosen and Healthy Companies have revealed a profound truth about modern day change the most successful people at all levels of society follow four powerful practices of being conscious Go Deep Discover your inner self Think Big See a world of possibilities Get Real Be honest and intentional Step Up Act boldly and responsibly Conscious is your personal roadmap through transformation helping you adapt and accelerate into the future To create sustainable change for yourself and your business Why not be the one with your head lights on while others are driving in the dark
