The Miracle Braves of 1914 Bob Brady, Charles F. Faber, Jack V. Morris, Chip Greene, Peter Bjarkman, Wayne McElreavy, Maurice Bouchard, Jim Elfers, Greg Erion, 2014-04-02 Long before the Red Sox Impossible Dream season Boston's now nearly forgotten other team the 1914 Boston Braves performed a baseball miracle that resounds to this very day The Miracle Braves were Boston's first worst to first winners of the World Series Shortly after the turn of the previous century the once mighty Braves had become a perennial member of the National League's second division Preseason pundits didn't believe the 1914 team posed a meaningful threat to John McGraw's powerful New York Giants During the first half of that campaign Boston lived down to such expectations taking up residence in the league's basement Refusing to throw in the towel at the midseason mark their leader the pugnacious George Stallings deftly manipulated his daily lineup and pitching staff to engineer a remarkable second half climb in the standings all the way to first place The team's winning momentum carried into the postseason where the Braves swept Connie Mack's heralded Athletics and claimed the only World Championship ever won by Boston's National League entry And for 100 years the management players and fans of underperforming ball clubs have turned to the Miracle Braves to catch a glimmer of hope that such a midseason turnaround could be repeated Through the collaborative efforts of a band of dedicated members of the Society for American Baseball Research this benchmark accomplishment is richly revealed to the reader in The Miracle Braves of 1914 Boston's Original Worst to First World Series Champions The essence of the miracle is captured through a

Dao and Sign in History Daniel Fried,2018-10-29 Provides a new perspective on important linguistic issues in philosophical and religious Daoism through the comparative lens of twentieth century European philosophies of language From its earliest origins in the Dao De Jing Daoism has been known as a movement that is skeptical of the ability of language to fully express the truth While many scholars have compared the earliest works of Daoism to language skeptical movements in twentieth century European philosophy and have debated to what degree early Daoism does or does not resemble these recent movements Daniel Fried breaks new ground by examining a much broader array of Daoist materials from ancient and medieval China and showing how these works influenced ideas about language in medieval religion literature and politics Through an extended comparison with a broad sample of European philosophical works the book explores how ideas about language grow out of a given historical moment and advances a larger argument about how philosophical and religious ideas cannot be divided into content and context Fried combines the disciplines of semiotics with a largely philosophical approach thus offering fresh insights into both disciplines while looking at issues from multiple perspectives Steven Burik author of *The End of Comparative Philosophy and the Task of Comparative Thinking* Heidegger Derrida and Daoism
