Breaking a Rainbow, Building a Nation Rekgotsofetse Chikane,2018-10-01 Breaking a Rainbow Building a Nation is a first hand account of the university protests that gripped South Africa between 2015 and 2017 widely better known as the FeesMustFall Chikane outlines the nature of student politics in the country before during and after the emergence of MustFall politics exploring the political dynamics that informed and drove the student protests and the effect that these MustFall movements have had on the nature of youth politics in the country Chikane looks at how the current nature of youth politics is different from previous youth upheavals that have defined South Africa specifically due to the fact that the protests were being led by so called coconuts who are part of the black elite Breaking a Rainbow Building a Nation poses the provocative question can coconuts be trusted with the revolution *International Seminar On Nuclear War And Planetary Emergencies - 30th Session* Richard C Ragaini,2004-03-09 The proceedings have been selected for coverage in

International Seminar on Nuclear War and Planetary Emergencies Richard C. Ragaini,2004 The proceedings have been selected for coverage in *Corrupted* Jonathan D Jansen,2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won t be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and

lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly

Sleep Apnea Syndrome Research Focus Andrew O. Lang, 2007 Sleep apnea or sleep apnoea is a sleep disorder characterised by pauses in breathing during sleep These episodes called apneas literally without breath each last long enough so one or more breaths are missed and occur repeatedly throughout sleep There are two distinct forms of sleep apnea Central and Obstructive Breathing is interrupted by the lack of effort in Central Sleep Apnea but from a physical block to airflow despite effort in Obstructive Sleep Apnea In Mixed Sleep Apnea both types of events occur Regardless of type the individual affected with sleep apnea is rarely if ever aware of having difficulty breathing even upon awakening Sleep apnea is recognised as a problem by others witnessing the individual during episodes or is suspected because of its effects on the body sequelae This book presents important new research in this field

The Honey Prescription Nathaniel Altman, 2010-03-09 Explores the latest scientific research on the healing powers of honey Explains the physiological reasons why honey is so effective and includes recipes for honey based remedies for many different ailments Discusses the sacred role of bees from ancient Egypt to modern times and the problem of Colony Collapse Disorder with methods for protecting hives Reveals the healing power of honey for many common problems from burns ulcers and conjunctivitis to tooth decay diabetes and cystic fibrosis and honey's ability to kill superbugs like E coli The use of honey as a healing agent is nothing new It was an ingredient in medicinal compounds and cures made by Egyptian physicians 5 000 years ago and its medical use has been found in other ancient practices from traditional Chinese medicine and Indian Ayurveda to Mayan shamanism In the past ten years there has been an explosion in scientific research on honey as medicine at universities research centers and medical clinics around the world Presenting the very latest scientific and medical evidence of the healing properties of honey including that from the Honey Research Unit at the University of Waikato in New Zealand Nathaniel Altman explores the broad spectrum of medicinal uses of honey and how these remedies can be used safely at home as well as by licensed health practitioners He includes an extensive selection of honey based recipes that can be used to treat common health problems from burns conjunctivitis and ulcers to tooth decay diabetes and cystic fibrosis He explains the physiological reasons why honey is so effective in treating antibiotic resistant diseases with no side effects and honey's ability to kill superbugs like E coli and MRSA Methicillin resistant Staphylococcus aureus Drawing on centuries of material from historical and folk

medicine sources he also examines the sacred role of bees from ancient Egypt onward and the modern problem of Colony Collapse Disorder including methods for protecting our precious hives **Government Annual Report of the Republic of Venda** Venda (South Africa),1983 **Energy Research Abstracts** ,1991 **Index Medicus** ,2001 *Electrode Materials for Energy Storage and Conversion* Mesfin A. Kebede,Fabian I. Ezema,2021-11-16 This book provides a comprehensive overview of the latest developments and materials used in electrochemical energy storage and conversion devices including lithium ion batteries sodium ion batteries zinc ion batteries supercapacitors and conversion materials for solar and fuel cells Chapters introduce the technologies behind each material in addition to the fundamental principles of the devices and their wider impact and contribution to the field This book will be an ideal reference for researchers and individuals working in industries based on energy storage and conversion technologies across physics chemistry and engineering FEATURES Edited by established authorities with chapter contributions from subject area specialists Provides a comprehensive review of the field Up to date with the latest developments and research Editors Dr Mesfin A Kebede obtained his PhD in Metallurgical Engineering from Inha University South Korea He is now a principal research scientist at Energy Centre of Council for Scientific and Industrial Research CSIR South Africa He was previously an assistant professor in the Department of Applied Physics and Materials Science at Hawassa University Ethiopia His extensive research experience covers the use of electrode materials for energy storage and energy conversion Prof Fabian I Ezema is a professor at the University of Nigeria Nsukka He obtained his PhD in Physics and Astronomy from University of Nigeria Nsukka His research focuses on several areas of materials science with an emphasis on energy applications specifically electrode materials for energy conversion and storage
