Cynthia Duval, 1992 *Enlightened Animals in Eighteenth-Century Art* Sarah Cohen, 2021-02-11 How do our senses help us to understand the world This question which preoccupied Enlightenment thinkers also emerged as a key theme in depictions of animals in eighteenth century art This book examines the ways in which painters such as Chardin as well as sculptors porcelain modelers and other decorative designers portrayed animals as sensing subjects who physically confirmed the value of material experience The sensual style known today as the Rococo encouraged the proliferation of animals as exemplars of empirical inquiry ranging from the popular subject of the monkey artist to the alchemical wonders of the life sized porcelain animals created for the Saxon court Examining writings on sensory knowledge by La Mettrie Condillac Diderot and other philosophers side by side with depictions of the animal in art Cohen argues that artists promoted the animal as a sensory subject while also validating the material basis of their own professional practice *Affecting Grace* Kenneth Scott Calhoon, 2013-01-01 *Affecting Grace* examines the importance of Shakespeare's poetry and plays within German literature and thought after 1750 including its relationship to German classicism which favoured unreflected ease over theatricality Kenneth S Calhoon examines this tension against an extensive backdrop that includes a number of canonical German authors

Goethe Schiller Herder Lessing von Kleist and Nietzsche as well as the advent of Meissen porcelain the painting of Bernardo Bellotto and Francesco Guardi and aspects of German styles of architecture Extending from Shakespeare's *The Merchant of Venice* c 1597 to Kleist's *The Broken Jug* 1806 this study turns on the paradox that the German literary world had begun to embrace Shakespeare just as it was firming up the broad but pronounced anti Baroque sensibility found pivotally in Lessing's critical and dramatic works Through these investigations Calhoon illuminates the deep cultural changes that fundamentally affected Germany's literary and artistic traditions

European Porcelain in The Metropolitan Museum of Art Jeffrey Munger, Elizabeth Sullivan, 2018-05-09 Porcelain imported from China was the most highly coveted new medium in sixteenth and early seventeenth century Europe Its pure white color translucency and durability as well as the delicacy of decoration were impossible to achieve in European earthenware and stoneware In response European ceramic factories set out to discover the process of producing porcelain in the Chinese manner with significant artistic technical and commercial ramifications for Britain and the Continent Indeed not only artisans but kings noble patrons and entrepreneurs all joined in the quest hoping to gain both prestige and profit from the enterprises they established This beautifully illustrated volume showcases ninety works that span the late sixteenth to the mid nineteenth century and reflect the major currents of European porcelain production Each work is illustrated with glorious new photography accompanied by analysis and interpretation by one of the leading experts in European decorative arts Among the wide range of porcelains selected are rare blue and white wares and figures from Italy superb examples from the Meissen factory in Germany and the Sèvres factory in France and ceramics produced by leading British eighteenth century artisans Taken together they reveal why the Metropolitan Museum's holdings in this field are among the finest in the world

Affecting Grace Kenneth C. Bibliotheca nicotiana; a first catalogue of books about tobacco. together with a catalogue of objects connected with the use of tobacco William Bragge, 1880 **Enjoyment** Anna-Teresa Tymieniecka, 2013-03-14 Philosophy art criticism and popular opinion all seem to treat the aesthetics of the comic as lightweight while the tragic seems to be

regarded with greater seriousness Why this favouring of sadness over joy Can it be justified What are the criteria by which the significance of comedy can be estimated vis vis tragedy Questions such as these underlie the present selection of studies which casts new light on the comic the joyful and laughter itself This challenge to the popular attitude strikes into new territory relating such matters to the profundity with which we enjoy life and its role in the deployment of the Human Condition In her Introduction Tymieniecka points out that the tragic and the comic might be complementary in their respective sense bestowing modes as well as in their dynamic functions they might both share in the primogenital function of promoting the self individualising progress of human existence For the first time in philosophy laughter mirth joy and the like are revealed as the modalities of the essential enjoyment of life being brought to bear in an illumination of the human condition

Juli 1843, etc Gustav Flügel, 1844 Laughter in the Middle Ages and Early Modern Times Albrecht Classen, 2010-09-22 Despite popular opinions of the dark Middle Ages and a gloomy early modern age many people laughed smiled giggled
