Netflix's Speculative Fictions Colin Jon Mark Crawford, 2020-12-10 Netflix's *Speculative Fictions* Financializing Platform Television argues that Netflix's scaled expansion has hinged upon its ability not only to create but more importantly to communicate new forms and flows of potential value in platform capitalism wherein capital is mobilized not only from direct revenue streams but also the new value assigned to inputs and investments of data debt attention behavior taste time sociality and speculation To interpret and critique these new communications and projections of value Colin Jon Mark Crawford performs a discursive analysis of the platform television industry leader Netflix and its investor lore the multi sited narrative of value found in the company's investor relations materials and corporate communications such as letters to shareholders financial earnings reports executive interviews press releases and blog posts Netflix best represents the increasingly ubiquitous nexus of culture tech and finance industries that is platform television To better understand the emergent financial logics of this relatively new media industry we must first understand the speculative narratives and discourses of value which organize it Scholars of media studies television studies technology studies and economics will find this book particularly useful

New Media and Populism Ahmet Sinav, 2024-05-01 This book aims to address both the historical roots and the conceptual structure of populism to address different aspects of the ongoing deep conceptual debates and to contribute to the literature through original studies While the classical definition of populism that focuses on the distinction between the people and the elites continues its reliance on new media technologies its relationship with changing modes of political representation and identification and its increasing ubiquity need to be explained Therefore it is necessary to re discuss populism in the context of the transforming global media In this new media environment it is important to abandon the view that populism exists as a direct or unmediated phenomenon between the leader and the people and to explore and demonstrate the intensely mediated nature of populism This book aims to present a different perspective on populist discourse and action thanks to the ubiquity easy accessibility increasing speed and scope of communication technologies

The New Enlightenment and the Fight to Free Knowledge Peter B. Kaufman, 2021-02-23 How do we create a universe of truthful and verifiable information available to everyone In The New Enlightenment and the Fight to Free Knowledge MIT Open Learning s Peter B Kaufman describes the powerful forces that have purposely crippled our efforts to share knowledge widely and freely Popes and their inquisitors emperors and their hangmen commissars and their secret police throughout history all have sought to stanch the free flow of information Kaufman writes of times when the Bible could not be translated you d be burned for trying when dictionaries and encyclopedias were forbidden when literature and science and history books were trashed and pulped sometimes along with their authors and when efforts to develop public television and radio networks were quashed by private industry In the 21st century the enemies of free thought have taken on new and different guises giant corporate behemoths sprawling national security agencies gutted regulatory commissions Bereft of any real moral compass or sense of social responsibility their work to surveil and control us are no less nefarious than their 16th and 18th and 20th century predecessors They are all part of what Kaufman calls the Monsterverse The New Enlightenment and the Fight to Free Knowledge maps out the opportunities to mobilize for the fight ahead of us With the Internet and other means of media production and distribution video especially at hand knowledge institutions like universities libraries museums and archives have a special responsibility now to counter misinformation disinformation and fake news and especially efforts to control the free flow of information A film and video producer and former book publisher Kaufman begins to draft a new social contract for our networked video age He draws his inspiration from those who fought tooth and nail against earlier incarnations of the Monsterverse including William Tyndale in the 16th century Denis Diderot in the 18th untold numbers of Soviet and Central and East European dissidents in the 20th many of whom paid the ultimate price Their successors Advocates of free knowledge like Aaron Swartz of free software like Richard Stallman of an enlightened public television and radio network like James Killian of a freer Internet like Tim Berners Lee of fuller rights and freedoms like Edward Snowden All have been striving to secure for us a better world marked by the right balance between state society and private gain The concluding section of the book its largest piece builds on their work drawing up a progressive agenda for how today s free thinkers can band together now to fight and win With everything shut and everyone
