Digital Payments - Revolution im Zahlungsverkehr Marcus W. Mosen, Jürgen Moormann, Dietmar Schmidt, 2016-10-25 Mit der Verbreitung von Smartphones schnellen Übertragungstechnologien und der Digitalisierung von Geschäftsprozessen erhält das bargeldlose Bezahlen einen enormen Schub. Banken, Kartenanbieter, Telekommunikationsunternehmen, FinTechs und Internetunternehmen positionieren sich neu. Disruptive Veränderungen wie PSD2, Instant Payments, Blockchain Technologie etc. werden sich nicht nur auf die Finanzbranche sondern auch auf den Handel und das tägliche Kundenverhalten auswirken. Mit diesem Herausgeberband erscheint das erste auf die verschiedenen Aspekte der Digital Payments ausgerichtete Fachbuch. Darin werden die aktuellen Entwicklungen im Bereich der Digital Payments, neue Geschäftsmodelle und -prozesse sowie zukünftige Anwendungsfelder vorgestellt. Außerdem werden Anforderungen und Potenziale diskutiert, die sich aus einer intelligenten Datennutzung im Zahlungsverkehr ergeben. Es erwartet Sie ein Buch zu einem der derzeit spannendsten Themen in der Wirtschaft.

[Retailing](#) Denise T. Ogden, James R. Ogden, Robert Paul Jones, 2017-08-02 Light on the fluff, solid on the basics, the fourth edition of *Retailing* is a concise text that covers strategic issues with an eye on financial considerations and operations management issues illustrated through retail cases and exercises. New co-author Robert Paul Jones is Department Chair of Hospitality and Retail Management in the College of Human Sciences at Texas Tech. In addition to his extensive academic work, Dr. Jones has over 25 years of executive leadership and consulting experience in retail and hospitality. He uses an Integrated Retail Management flow chart to depict retail functions. Most retail texts present students with a series of chapters that provide useful information but fail to explain how the various activities involved in retailing affect each other.

The 4th edition offers the student an overview of the retail process through the use of an integrated retail management IRM plan. The steps involved in retailing as presented in the text are tied together through the IRM plan. Expanded coverage of Mobile and e Tailing and included throughout the text and not treated as a stand alone chapter. This helps emphasize that e tailing is a form of retailing that uses many of the same models as other forms. Includes updated cases and real world examples. And omni channel retailing incorporated throughout text.

Revolutionizing Business Operations Tony Saldanha, Filippo Passerini, 2023-09-12. Don't risk the dire consequences of your work processes becoming obsolete. Discover a powerful model for constant ongoing enterprise wide process evolution and optimization. If you have a great product but don't have the operations in place to efficiently and effectively support it, production, manufacturing, sales, finance, human resources, etc., you won't succeed. Product innovation is seen as flashier and so gets far more attention, but you can create an enduring competitive advantage by revolutionizing business operations. The problem is most attempts to improve business operations are reactive, sporadic, and siloed. Tony Saldanha and Filippo Passerini's Dynamic Process Transformation model provides a living model for constant ongoing process evolution and optimization. The authors focus on maximizing three drivers of change. First, open market rules: each business process must be run as a separate business instead of via monolithic mandates coming down from on high. Second, there must be unified accountability: outcomes must be clear and consistent across the company instead of being siloed within departments. And third, there needs to be a dynamic operating engine: a methodology to convert the constantly changing business process goals into tactical day to day employee actions. With numerous examples from leading companies, this book shows how to proactively keep business processes across the company from becoming obsolete and take advantage of a neglected key to success.

The China-Australia Free Trade Agreement Colin Picker, Heng Wang, Weihuan Zhou, 2017-12-14. This book provides readers with a unique opportunity to learn about one of the new regional trade agreements, RTAs: the China Australia Free Trade Agreement, ChAFTA, that has been operational since December 2015 and is now at the forefront of the field. This new agreement reflects many of the modern and up to date approaches within the international economic legal order that must now exist within a very different environment than that of the late eighties and early nineties when the World Trade Organization, WTO, was created. The book therefore explores many new features that were not present when the WTO or early RTAs were negotiated. It provides insights and lessons about new and important trade issues for the twenty first century such as the latest approaches to the regulation of investment, twenty first century services, and the emerging digital knowledge economy. In addition, this book provides new understandings of the latest RTA approaches of China and Australia. The book's contributors, all foremost experts on their subject matter within this field, explore the inclusion of many traditional trade and investment agreement features in the ChAFTA, showing their continuing relevance in modern contexts.
