Medieval Christian Perceptions of Islam John Vic Tolan, Routledge, 2007-12-27

Medieval Islamic Civilization Josef W. Meri, 2006 Examines the socio cultural history of the regions where Islam took hold between the 7th and 16th century This two volume work contains 700 alphabetically arranged entries and provides a portrait of Islamic civilization It is of use in understanding the roots of Islamic society as well to explore the culture of medieval civilization

Anglo-Saxon Perceptions of the Islamic World Katharine Scarfe Beckett, 2003-10-16 In this book Scarfe Beckett is concerned with representations of the Islamic world prevalent in Anglo Saxon England Using a wide variety of literary historical and archaeological evidence she argues that the first perceptions of Arabs Ismaelites and Saracens which derived from Christian exegesis preconditioned western expressions of hostility and superiority towards peoples of the Islamic world and that these received ideas prevailed even as material contacts increased between England and Muslim territory Medieval texts invariably represented Muslim Arabs as Saracens and Ismaelites or Hagarenes described by Jerome as biblical enemies of the Christian world three centuries before Muhammad's lifetime Two early ideas in particular that Saracens worshipped Venus and dissembled their own identity continued into the early modern period This finding has interesting implications for

earlier theses by Edward Said and Norman Daniel concerning the history of English perceptions of Islam Western Views of Islam in Medieval and Early Modern Europe M. Frassetto, D. Blanks, 1999-12-09 *Western Views of Islam in Medieval and Early Modern Europe* considers the various attitudes of European religious and secular writers towards Islam during the Middle Ages and Early Modern Period Examining works from England France Italy the Holy Lands and Spain the essays in this volume explore the reactions of Westerners to the culture and religion of Islam Many of the works studied reveal the hostility toward Islam of Europeans and the creation of negative stereotypes of Muslims by Western writers These essays also reveal attempts at accommodation and understanding that stand in contrast to the prevailing hostility that existed then and in some ways exists still today In Gefolge Dianas Katharina Fietze, 2005 *Messianic Beliefs and Imperial Politics in Medieval Islam* Hayrettin Yücesoy, 2009 An analysis of the dynamic relationship between apocalyptic prophecies and medieval Muslim politics *Messianic Beliefs and Imperial Politics in Medieval Islam* analyzes the role of Muslim messianic and apocalyptic beliefs in the development of the Abbasid Caliphate to highlight connections between charismatic authority and institutional developments in the early ninth century Hayrettin Yücesoy studies the relationship between rulers and religion to advance understanding of the era's political actions and more specifically to illustrate how messianic beliefs influenced Abbasid imperial politics and contributed to the reshaping of the caliphate under al Ma'mun 809-33 after a decade long civil war Yücesoy challenges traditional sociological views that marginalize messianic beliefs as oppositional ideologies of disfranchised social classes to be used against the political establishment Instead he finds a mode of symbiosis between messianic beliefs political reform and imperial ambitions put in motion by al Ma'mun's acute understanding of the sociopolitical and ideological context of his time Yücesoy demonstrates how the caliphate absorbed influences from the late antique world and Near Eastern cultures to fashion a prophetic vision that served to undergird al Ma'mun's imperial aspirations A comprehensive portrait of the caliph and his reign emerges from this study as a result By drawing on records of Muslim and non Muslim apocalyptic prophecies circulating among the general public and educated elites alike this study demonstrates the pertinence of messianic beliefs to medieval Muslim politics and illustrates the manner in which the caliph responded and shaped societal concerns on three distinct fronts domestic fiscal and administrative reforms an increase in missionary and military activities and religious reform Yücesoy shows that political usefulness contributed to the longevity of charismatic ideologies by addressing how the Abbasid ruling class adopted such beliefs as a medium to initiate governmental reforms and expand their authority This work adds new layers to ongoing interdisciplinary discourse about the importance of religion in Islamic sociopolitical life both historically and in the contemporary Muslim world **The Oxford Handbook of Medieval Christianity** John H. Arnold, 2014-08-21 *The Oxford Handbook of Medieval Christianity* takes as its subject the beliefs practices and institutions of the Christian Church between 400 and 1500 AD It addresses topics ranging from early medieval monasticism to late medieval mysticism from the material wealth of the Church to the spiritual exercises through

which certain believers might attempt to improve their souls Each chapter tells a story but seeks also to ask how and why Christianity took particular forms at particular moments in history paying attention to both the spiritual and otherworldly aspects of religion and the material and political contexts in which they were often embedded This Handbook is a landmark academic collection that presents cutting edge interpretive perspectives on medieval religion for a wide academic audience drawing together thirty key scholars in the field from the United States the UK and Europe Notably the Handbook is arranged thematically and focusses on an analytical rather than narrative approach seeking to demonstrate the variety change and complexity of religion throughout this long period and the numerous different ways in which modern scholarship can approach it While providing a very wide ranging view of the subject it also offers an important agenda for further study in the field
