Meditation Differently Mahamudra And Snying Thig Practices From Original Tibetan Source:

Meditation Differently, Phenomenological-psychological Aspects of Tibetan Buddhist (Mahāmudrā and Snying-thig) Practices from Original Tibetan Sources Herbert V. Guenther, 1992 Despite the interest in meditation few works have studied what meditation means within the original traditions Meditation Differently presents a translation of an important Tibetan work which contrasts and compares two central traditions of Buddhist meditative practice the Mahamudra and the rDzogs chen particularly the sNying thig version This translation is supplemented by a detailed commentary based on original Tibetan sources by Dr Guenther an eminent scholar of Buddhism and modern thought This critical commentary is a hermeneutical and phenomenological study of the key ideas in the understanding of being and experience utilizing developments in modern thinking to bring out the nuances of Buddhist thinking Romanticism and Esoteric Tradition Paul Davies, Senior Research Fellow in the Centre for Commercial Law Paul Davies, 1998-02-15 Spiritual quest is at the very heart of poetry but in the materialistic climate of the late twentieth century this has been almost forgotten even by those claiming to be experts in interpreting literature How does the worldview common to the main esoteric traditions of East and West correspond to the aims of such Romantic poets as Shelley Keats Blake Coleridge and Wordsworth In Romanticism and Esoteric Tradition Paul Davies maintains that only in the light of the spiritual teachings of these traditions can the poetry and thinking of the Romantics be understood as they intended This is one of the first books to connect the creative nature of poetry to the core teachings of the esoteric tradition and thereby to bring out the true meaning of several Romantic writers whose works have been trivialized by a culture that has marginalized the spiritual and tied itself to material historical and social issues The author also shows that the Romantics were the first Western poets to imagine the relationship of the self to the environment as personal encounter In this sense the Romantics were recalling a long held secret of the esoteric human sciences not inventing a new one This book brings the deepest interests of the Romantics directly into contact with issues closest to present day students of the spiritual traditions and holistic perspectives *Image and Imagination in the Phenomenology of Religious Experience* Martin Nitsche, Olga Louchakova-Schwartz, 2023 While human beings have probably always been fascinated by images we live in an image obsessed age in which images powerfully shape our lives The writers in this volume are keenly attentive to the ways in which we all are both image bearers and image makers Although their reflections often arise from and relate explicitly to religious imagery their explorations have much wider implications They delve deeply into such issues as the ways in which images both reveal and conceal the ways in which images are interpreted and the ways in which we use images to define ourselves and tell our stories This is a powerful volume full of thought provoking analyses of the phenomenon of the image and its role in human being in the world Topics such as embodiment mysticism ritual touch creation and suffering are explored with sensitivity nuance and insight In short the authors show us a great deal about how images embody whatever it is we take to be sacred Bruce Ellis Benson University of Nottingham This

volume presents new findings on religious images in their relationship to appearance and phenomenality to being transcendence liminality reduction original self giving evidence and other topics of regressive and constitutive phenomenology Drawing on Christian Islamic and cross cultural folk testimony the volume creates an incisive reference that opens new avenues for phenomenological research

Intentional Transformative Experiences Sarah Perez,Bastiaan van Rijn,Jens Schlieter,2024-09-23 This book offers new theoretical insights into religious esoteric and philosophical practices and narratives that deal with intentional transformative experiences Exceptional life changing experiences are often believed to be beyond the individual s control they are thought to simply happen However many individuals actively and self reflectively search for transformative experiences Intentional Transformative Experiences provides analyses of such intentionally sought experiences in different spiritual religious and esoteric milieus Case studies range from South and Central Asian traditions to Western esoteric practices compare autobiographical narratives of self cultivation and explore attempts to systematize intentional transformative experiences Next to applying established theoretical frameworks such as the cognitive science of religion and philosophy this volume also includes considerations on subsets of transformative experiences such as the dichotomy of intentionality and unintentionality risk and failure as well as the transformation of others instead of one s own self The result is an important contribution for researchers who deal with narratives or practices that include transformative experiences

The Problem of Religious Experience Olga Louchakova-Schwartz,2020-01-28 For a long time the philosophically difficult topic of religious experience has been on the sidelines of phenomenological research with a notable exception of Anthony Steinbock who focused on mysticism The book The Problem of Religious Experience Case Studies in Phenomenology with Reflections and Commentaries brings together preeminent as well as emerging voices in the field with fresh views on the topic Originating from dialogues of the Society for the Phenomenology of Religious Experience these two volumes cover a spectrum of phenomenological approaches with a thematization of the field in the form of case studies Contributions from theology comparative religion psychology and the philosophy of religion come together in the commentaries and meta narrative written by Olga Louchakova Schwartz the editor Volume I The Primeval Showing of Religious Experience examines religious experience with regard to its lived interiority in light of the problem of the ego cogito including the recent research on the embodiment of subjectivity and phenomenological materiality Volume I also sheds light on religious experience in regard for the problems of its constitution passive synthesis the world and otherness Volume II Doxastic Perspectives in the Phenomenology of Religious Experience addresses the phenomenology of revelation shows how different approaches treat the question of essence in religious experience i e what is it that makes religious experience religious and demonstrates how religious experience contributes to the psychological horizon of meaning The book identifies the growing edges in the phenomenological research of religious experience and is useful for psychologists philosophers and theologians alike The two volumes offer an excellent interdisciplinary introduction to the

phenomenon of religious experience The case studies presented in them are arranged under the central topics of self alterity revelation and psychological aspects of religious experience and provide outstanding examples of applied phenomenology Hans Rainer Sepp Charles University Prague and Central European Institute of Philosophy In the context of the return of religion this book offers both a timely and necessary contribution to confront the peculiarities of religious experience Providing readers with applied phenomenological descriptions in an interdisciplinary spirit these debates will prove stimulating for a resurgent field of research that is starting to refine its conceptual devices and methodological presuppositions University of Vienna

From the Heart of Tibet Elmar R. Gruber, 2010-08-10 The story of Drikung Chetsang Rinpoche's life notes the Dalai Lama encompasses a remarkably broad range of Tibetan experience over the past fifty years This is the story of a young boy born in 1946 to inherit the role of high ranking lama When the Chinese army invaded his family escaped the country but he and the other monks in his monastery were rounded up by soldiers and sent to an indoctrination school After surviving almost two decades of the Cultural Revolution in Tibet during which time lamas and aristocrats were persecuted and jailed Chetsang Rinpoche walked out of Tibet alone and found his way to Kathmandu Nepal Eventually after living as a refugee and an immigrant he fully took on leadership of the Drikung lineage by founding the Drikung Kagyu Institute in India Since then the teachings of this lineage have spread around the world after nearly being lost

Mipham's Beacon of Certainty John W. Pettit, 2013-02-08 For centuries Dzogchen a special meditative practice to achieve spontaneous enlightenment has been misinterpreted by both critics and malinformed meditators as being purely mystical and anti rational In the grand spirit of Buddhist debate 19th century Buddhist philosopher Mipham wrote Beacon of Certainty a compelling defense of Dzogchen philosophy that employs the very logic it was criticized as lacking Through lucid and accessible textual translation and penetrating analysis Pettit presents Mipham as one of Tibet's greatest thinkers
