Cristol, Peter Sealey, 2001-03-11 For more than half a century marketers have bombarded customers with more and more choices in products and services What is the result Unprecedented anxiety Our mental circuit breakers are on overload In fact pioneering brand strategists Steven M Cristol and Peter Sealey assert that we have reached our manageable threshold for making decisions and a watershed in product proliferation In this pathbreaking book the authors argue with compelling evidence that the next generation of marketing successes will belong to those brands that simplify customers lives or businesses in ways that are inextricably tied to brand and product positioning They contend that if a brand

is not reducing customer stress it is creating it and it is vulnerable to losing market share to more customer empathetic competitors Writing especially for product or brand managers who are struggling to simplify their portfolios Cristol and Sealey have created a breakthrough framework that is itself a lesson in simplicity After presenting two essential guideposts for managers to assess where their brand sits on the stress spectrum the authors turn to the heart of Simplicity Marketing the 4 R s of simplification Replace Repackage Reposition and Replenish Using scores of real world company examples Cristol and Sealey show how each of the 4 R s interacts with the others in powerful ways to relieve customer stress and how these strategies may be executed individually or in combination to build brand loyalty Here for the first time are ten specific strategies to relieve customer stress through consolidating aggregating or integrating products and services repositioning brands for more relevance to stress reduction and decluttering customers decision making requirements The final pages of this brilliant manifesto for a simplicity revolution provide a guide to managing simplicity strategies leveraging information technology to simplify rather than complicate customers lives and integrating all the tools in the book into an executional blueprint

Zinner,2012-12-06 For more than 60 years the Californian Family Hinman has exercised a very considerable influence on the development and practice of the highest grade of urology not only in the American West but worldwide The leitmotiv of the Hinman School has been honest and thoughtful consideration of the problems of the genitourinary system gone awry Character is the quintessence of the Hinmans This virtue distinguishes the present volume on benign pros tatic hypertrophy assembled and edited by Frank Hinman Jr I first came under the spell of Frank Hinman Sr via his classic studies of renal counterbalance In brief in an experimental animal the ureter of one kidney

was ligated and the subsequent renal hypertrophy of its contralateral mate was studied quantitatively from anatomic and functional stand points There were two central questions in the Hinman study How does a normal kidney of an experimental animal recognize that its load has been doubled abruptly What is the signal for renal hypertrophy Benign hypertrophy of the prostate is quite different from compensatory hypertrophy of the kidney It is now known that benign prostatic hypertrophy BPH is not a hypertrophy but a benign tumor consisting of a collection of spheroids of micro and macrodimensions In technical terms BPH is an adenofibromyoma Perusal of the present volume will reveal many fascinating facets of BPH of particular interest to urologists and others with an investigative bent of BPH does not occur in children BPH occurs as a medical rarity in mind Boston Medical and Surgical Journal ,1861 **The Boston Medical and Surgical Journal** ,1861
