*A Philosophy of Communication of Social Media Influencer Marketing* Kati E.

Sudnick, 2023-11-28 Social media influencer marketing emerged in Web 2.0 as a new form of celebrity endorsement in which the Internet famous create word of mouth marketing for brands and organizations on their personal social media pages, blurring the line between organic and sponsored content for their followers. This book explores social media influencer marketing through the lens of philosophy of communication with a praxis-centered approach. Kati E. Sudnick utilizes a multitude of theoretical touchstones including Christopher Lasch's narcissistic culture, Marshall McLuhan's global village, Daniel Boorstin's human pseudo-event, Jacques Ellul's propaganda, and the interplay between charismatic leadership and parasocial relationships in order to consider consequences surrounding Hannah Arendt's social condition, which appears in hyper-form within social media influencer marketing as a major integrated marketing communication tool. Sudnick applies these concepts to three major case studies surrounding Audible, BetterHelp, and Fyre Festival, drawing implications and conclusions for this integrated marketing communication tactic in an era entrenched within the banality of the social. Ultimately, the author argues for a more aware and conscientious public when it comes to engaging with influencers online. Scholars of communication philosophy and media studies will find this book of particular interest.

**Logging Off** Adele

Zeynep Walton, 2025-06-05 You won't look at your screens in the same way after reading this book. Grace Blakeley, author of *VULTURE CAPITALISM*. *Logging Off* is a life-saving book. Mikaela Loach, author of *IT'S NOT THAT RADICAL*. A harrowing but important read. Carole Cadwalladr. We live in a digital world. In the 30 years since we've been online, we've created connections, crossed boundaries, and discovered new worlds. We have done things generations before us could never have imagined. But at what cost? Growing up as a Gen Z, Adele spent endless hours as a teenager on social media, shaping her view of herself and the world. As a freelance journalist, she has used her social media platforms and digital technology to develop a career in an unfamiliar and competitive industry, benefitting from the opportunities that these spaces can offer. But after losing her sister to online harms, she realized that our current digital world is failing us. We are an anxious and discontent generation. Our lived realities and our online vulnerabilities are inextricably linked, and this means big business for social media tycoons who want us to stay scrolling at any cost. As Big Tech barons make their billions capitalising on our emotions, instincts, insecurities, and desires, everyday people are losing out. From workers being fired by algorithms to online forums dedicated to revenge porn and encouraging suicide, to censorship of marginalised voices and the turbulent impacts of AI, *Logging Off* reveals that our digital world is currently fuelling crises that only empathy, agency, and humanity can resolve.
