The fifth in a series focusing on the largely undocumented world of internet TV, this book covers 573 children's series created for viewers 3 to 14. The genre includes a broad range of cartoons, CGI live action comedies and puppetry. Alphabetical entries provide websites, dates, casts, credits, episode lists and storylines.

Language Education in Digital Spaces: Perspectives on Autonomy and Interaction Carolin Fuchs, Mirjam Hauck, Melinda Dooly, 2021-09-09 This book brings together contributions on learner autonomy from a myriad of contexts to advance our understanding of what autonomous language learning looks like with digital tools and how this understanding is shaped by and can shape different socio-institutional, curricular and instructional support. To this end, the individual contributions in the book highlight practice-oriented, empirically based research on technology-mediated learner autonomy and its pedagogical implications. They address how technology can support learner autonomy as process by leveraging the affordances available in social media, virtual exchange, self-access or learning in the wild. Hutchins, 1995 The rapid evolution and adoption of technology in all aspects of our lives has pushed issues related to learner and teacher autonomy centre stage in the language education landscape. This book tackles emergent challenges from different perspectives and diverse learning ecologies with a focus on social and educational inequality. Specifically, to this effect, the chapters consider digital affordances of virtual exchange, gaming and apps in technology-mediated language learning and teaching, ranging from instructed and semi-instructed to self-instructed contexts. The volume foregrounds the concepts of critical digital literacy and social justice in relation to language learner and teacher autonomy and illustrates how this approach may contribute to institutional objectives for equality, diversity and inclusion in higher education around the world and will be useful for researchers and teachers alike.
