Homelessness and Mobile Communication Justine Humphry, 2022-10-20. This book examines how mobile phones and the internet have become a vital part of the everyday lives of people experiencing homelessness. But the access mobile phones provide is costly, insecure, and limited, producing an experience of being precariously connected. Drawing on findings of research conducted with over one hundred young people, families, and adults experiencing homelessness in Australia and the United States, this book analyses homelessness as a mediated condition and explores the underpinning processes that shape digital disparities. It contributes to scholarship on mobile communication and inequality, highlighting the digital patterns, issues, and difficulties of a group disproportionately affected by service reform and developments in digital citizenship, smart cities, and algorithmic governance.
