Hunt,2013-07-04 This latest work from an author known for her contributions to the new cultural history is a daring multidisciplinary investigation of the imaginative foundations of modern politics Hunt uses the term Family Romance coined by Freud to describe the fantasy of being freed from one s family and belonging to one of higher social standing in a broader sense to describe the images of the familial order that structured the collective political unconscious In a wide ranging account that uses novels engravings paintings speeches newspaper editorials pornographic writing and revolutionary legislation about the family Hunt shows that the politics of the French Revolution were experienced through the network of the family romance *The Noun Phrase in Romance and Germanic* Petra Sleeman,Harry Perridon,2011-02-16 One of the

recurrent questions in historical linguistics is to what extent languages can borrow grammar from other languages It seems for instance hardly likely that each average European language developed a definite article all by itself without any influence from neighbouring languages It is on the other hand by no means clear what exactly was borrowed since the way in which definiteness is expressed differs greatly among the various Germanic and Romance languages and dialects One of the main aims of this volume is to shed some light on the question of what is similar and what is different in the structure of the noun phrase of the various Romance and Germanic languages and dialects and what causes this similarity or difference The

Cambridge History of the Romance Languages: Volume 1, Structures Martin Maiden,John Charles Smith,Adam

Ledgeway,2011 This Cambridge history is the definitive guide to the comparative history of the Romance languages Volume I is organized around the two key recurrent themes of persistence structural inheritance and continuity from Latin and innovation structural change and loss in Romance The Oxford Guide to the Romance Languages Adam Ledgeway,Martin

European and comparative linguistics **Parametric Variation** Theresa Biberauer, Anders Holmberg, Ian Roberts, Michelle Sheehan, 2009-12-10 Parametric variation in linguistic theory refers to the systematic grammatical variation permitted by the human language faculty Although still widely assumed the parametric theory of variation has in recent years been subject to re evaluation and critique The Null Subject Parameter which determines among other things whether or not a language allows the suppression of subject pronouns is one of the best known and most widely discussed examples of a parameter Nevertheless its status in current syntactic theory is highly controversial This book is a defence of the parametric approach to linguistic variation set within the framework of the Minimalist Program It discusses syntactic variation in the light of recent developments in linguistic theory focusing on issues such as the formal nature of minimalist parameters the typology of null subject language systems and the way in which parametric choices can be seen to underlie the synchronic and diachronic patterns observed in natural languages **Contemporary Research in Romance Linguistics** Jon Amastae, 1995-01-01 This volume contains 23 papers selected from those presented at the 22nd Linguistic Symposium on Romance Languages The papers address issues in phonology morphology syntax semantics from contemporary theoretical perspectives In addition in keeping with the symposium s US Mexico location and commemoration of the twin quincentenaries of Columbus first voyage and the publication of Nebrija s grammar several papers focus on the history of linguistic theory language contact variation and change *Focus and Background in Romance Languages* Andreas Dufter, Daniel Jacob, 2009-06-18 Focus background structure has taken center stage in much current theorizing about sentence prosody syntax and semantics However both the inventory of focus expressions found cross linguistically and the interpretive consequences associated with each of these continue to be insufficiently described This volume aims at providing new observations on the availability and the use of focus markings in Romance languages In doing so it documents the plurality of research on focus in Spanish Portuguese French Italian and Romanian Topics covered include constituent fronting and clefting the position of subjects and focus particles clitic doubling of objects and information packaging in complex sentences In addition some contributions explore focus background structure from acquisitional and diachronic angles while others adopt a comparative perspective studying differences between individual Romance and Germanic languages Therefore this volume is of interest to a broad audience within linguistics including syntacticians semanticists and historical linguists Romance Objects Giuliana Fiorentino, 2011-09-08 The volume brings together the papers read at the international conference on Romance Objects organized by the Linguistics Department of the Roma Tre University It is characterized by a striking uniformity of approach which is functional and of methodology The various case studies regarding the object focus on the syntax semantics and syntax pragmatics interfaces The common denominator of the ten enquiries is the identification of the object category the DO in particular in Romance languages at the same time some of the contributors relate the specific topic to more general questions of linguistic typology Some of the essays are based on the analysis of data

from a corpus and present a diachronic picture of the evolution of the specific topic investigated Thus this volume is addressed not only to scholars interested in the Romance languages but also all those who study the object category in a cross linguistic perspective Michela Cennamo In transitivity and object marking some current issues *Heraldry in History, Poetry, and Romance* Ellen J. Millington, 1858 *Love and Romance in China* Pan Wang, 2025-09-04 Love and Romance in China examines love affection and emotions in China from Maoist to contemporary China focusing on the intersections with politics economics gender class race and technology From the founding of the People s Republic of China to the end of the Cultural Revolution political ideology and class struggle dominated everyday life and love was subordinated to the communist revolution and socialism During the Cultural Revolution this turbulent period witnessed the paradoxical existence of self abstinence and self indulgence Since China changed its political ideology in 1979 and shifted to a market oriented economy the country embraced the idea of romantic love This emotional turn fostered opportunities for diverse intimate relationships characterized by the growth of cross cultural love LGBTQI love and the emergence of a sexual revolution Zhang 2011 Jeffreys and Yu 2015 The new dynamic was linked to contested discourses of fantasised eroticized and racialized foreign love intertwined with nationalist sentiments and ongoing tensions between sexual minorities and the government The new millennium has witnessed love crises characterised by growing concerns about leftover men and women high divorce rates declining marriage and birth rates and other relationship problems The deepening of the market economy and technological advances have turned love into a fast food commodity for mass consumption manifested in dating shows digital platforms and intimacy between humans and AI dolls Wang draws on a wide range of texts including government statistics on marriages and divorces legal documents Maoist folk songs poems posters love letters media texts popular discourses online dating websites and ethnographic observations and interviews The Acquisition of Romance, With Special Reference To French Eve Clark, 2016-01-08 First published in 1986 This edition offers a grammatical sketch of French with occasional comments on how other Romance languages diverge from this picture a brief account of the sources available on language acquisition by children and a summary of the overall course of development in children acquiring the major Romance languages The remainder of the review takes up different facets of the language acquisition process in more detail *From Latin to Romance* Adam Ledgeway, 2012-05-18 This book examines the grammatical changes that took place in the transition from Latin to the Romance languages The emerging languages underwent changes in three fundamental areas involving the noun phrase verb phrase and the sentence The impact of the changes can be seen in the reduction of the Latin case system the appearance of auxiliary verb structures to mark such categories tense mood and voice and a shift towards greater rigidification of word order The author considers how far these changes are interrelated and compares their various manifestations and pace of change across the different standard and non standard varieties of Romance He describes the historical background to the emergence of the Romance varieties and their Latin ancestry considering in detail the richly

documented diachronic variation exhibited by the Romance family Adam Ledgeway reviews the accounts and explanations that have been proposed within competing theoretical frameworks and considers how far traditional ideas should be reinterpreted in light of recent theoretical developments His wide ranging account shows that the transition from Latin to Romance is not only of great intrinsic interest but both provides a means of challenging linguistic orthodoxies and presents opportunities to shape new perspectives on language change structure and variation
