Committee on Government Reform, One Hundred Ninth Congress, First and Second Sessions, 2005-2006 United States. Congress. House. Committee on Government Reform, 2006 World Oceans David E. Newton, 2021-02-15 World Oceans A Reference Handbook offers an in depth discussion of the world's oceans. It discusses the marine life that is dependent on the sea as well as the problems threatening the health of the ocean and its wildlife. World Oceans A Reference Handbook opens with an overview of the history of human knowledge and understanding of the oceans and cryosphere along with related scientific, technological, social, political, and other factors. The second chapter presents and discusses about a dozen major problems facing the Earth's oceans today along with possible solutions. The third chapter provides interested individuals with an opportunity to express their thoughts and ideas on today's ocean issues, and remaining chapters provide additional resources such as a bibliography, a chronology, and a glossary to assist the reader in her or his further study of the issue. Where most books for young adults learning about world oceans take a purely expository treatment, this book provides readers with additional information as well as resources allowing them to learn more and inform further study of the subject.

Improving the Delivery of Pre-exposure Prophylaxis (PrEP) to Eliminate Vertical HIV Transmission Dvora Joseph Davey, Benjamin Chi, Irene Njuguna, Jillian Pintye, Friday Saidi, 2024-10-30 Over half of HIV infections globally occur among cisgender women. High HIV incidence among young (15-30 years old) African cisgender women persists during pregnancy and postpartum, and there is evidence that HIV acquisition risk more than doubles during this period. A new HIV infection has important short and long term consequences for the mother's health. Acute maternal HIV infection is also associated with increased vertical transmission risk, making prevention of HIV among pregnant and breastfeeding populations a global health priority. As access to antiretroviral therapy continues to expand, new and often undiagnosed maternal HIV infections during pregnancy and breastfeeding contribute to a growing proportion of new pediatric HIV cases and urgent focus of interventions to eliminate vertical HIV transmission. To address this important gap, The World Health Organization (WHO) and several national HIV programs recommend offering pre-exposure prophylaxis (PrEP) to pregnant and breastfeeding populations at substantial risk for HIV. To fully realize the promise of PrEP in antenatal and postnatal settings, however, real world clinical and implementation data are urgently needed. Further, there is a need for research on novel long-acting tools that prevent HIV acquisition in all populations, including pregnant and breastfeeding populations. *I, Circe | The Brilliant Idea of Theology - Theologia Dialogica* Eureka Circe, 2025 *I, Circe | Theological Volume 2* Eureka Circe, 2025 Creating the University of the Future Ulf-Daniel Ehlers, Laura Eigbrecht, 2024-04-04 This open access publication presents a global panorama of institutional strategies, academic programs, scholarly insights, as well as teaching and learning practices taking
