What Went Wrong With Capitalism Ruchir Sharma, 2024-06-11 A Financial Times and Wall Street Journal Book of the Year My book of 2024 Alex Bastani Novara Media Brilliant deeply arresting Lewis Goodall The News Agents Podcast A radical examination by a leading financial analyst commentator and investor of the ills of capitalism and how they can be fixed What went wrong with capitalism Ruchir Sharma's explanation is unlike any you have heard before Progressives are partly right when they mock modern capitalism as socialism for the rich but what really happened in recent decades is that government in developed nations expanded in just about every measurable dimension from spending and regulation to the sheer scale of its rescues each time the economy wobbled The result Sharma says is socialized risk expensive government guarantees for everyone welfare for the poor entitlements for the middle class and bailouts for the rich Voters say they are disillusioned with capitalism but a system so distorted by government interventions is a dysfunctional version of free market ideals As a result productivity and economic growth have slowed sharply shrinking the pie for everyone and stoking popular anger Since these flaws developed as the government expanded building an even bigger state will only double down on what's gone wrong The answer Sharma offers is a series of seven fixes to restore the balance between state support and free markets and lay the path to a more prosperous and happier future

Learn Spanish News Vol.6 Nik Marcel, LEARN SPANISH NEWS Vol 6 English Spanish THIS EDITION The dual language text has been arranged into sentences and shorter paragraphs for quick and easy cross referencing The source text is the Spanish language edition of Voice of America VOA The Spanish text has been translated into English for this dual language project The reader can choose between four formats Section 1 English to Spanish Section 2 Spanish to English Section 3 English Section 4 Spanish A methodology for getting the most out of this bilingual format is explained in the book's Foreword The primary purpose of this text is to equip a foreign language learner with the ability to start reading news in the particular foreign language to be able to read only in the foreign language and extract enough understanding to continue the language learning process fruitfully this way A reader might like to go back to reading dual language news for reinforcement and further development returning to foreign language only news with a deeper understanding By going back to the same old news you are going over words word patterns and passages with which you already have a certain familiarity The process of reinforcement learning or retaining of what is new and exposure to what is unfamiliar is much easier this way even though the news may seem a little dated The aim of informing the reader about actual news is secondary especially given that the content will become less current and less relevant over time If you are having trouble with the level of difficulty in the text a suggested path for learning languages is as follows Familiarise yourself with a basic language instruction book or re read the one you have Once a student has studied the basics a suitable book about basic grammar can be helpful The suggestion is that any grammar book be studied more with the intent of recognition and understanding rather than memorising and obsessive rote learning Go through as

much of the grammar book you feel you can digest maybe even the whole book skipping over what is not easily understood After this read through a portion of text in a book called Spanish Sentences by 2LanguageBooks looking for examples of what you have picked up or gleaned in your hopefully not so arduous study of grammar Even repeatedly seeing a word that you remember seeing listed as a subject pronoun or a third person plural verb of some sort is a great help Then depending on your inclination return to the grammar book or your basic Spanish book or move on to lengthier bilingual text like in 2Language Books texts containing news or stories for example or find some suitable Spanish text a simple novel a Spanish news website etc Grammar books will likely have some verb charts However there are currently good on line resources that go further dictionaries with a verb conjugation search option Many basic language books offer some form of audio support Internet services primarily news based radio stations offer podcasts Audio from television is an additional resource and can be formatted for use on various digital platforms However if audio is an important component of your interest in languages electronic devices that support quality text to speech TTS will likely be appealing With a library card TTS technology in a device that supports the relevant content and the above mentioned resources an entire language learning system is available for not much more than a cup of coffee There is no substantial financial outlay to get you started Furthermore there are no additional ongoing fees and updates and there are no expiry dates on premium content and resources A Dual Language Book Project 2Language Books
