Improving

the Software Testing Skills of Novices During Onboarding Through Social Transparency Raphael Pham, 2016-12-15

Inexperienced software developers such as fresh graduates shape the future of software engineering as a practice. Supporting these novice developers in becoming high quality engineers is a key objective of our engineering community. Yet inexperienced developers have considerable trouble in applying the fundamentals of systematic software testing in industrial settings. Gaps in testing skills arise from inherent attributes of systematic testing itself and environmental attributes such as the educational setting in universities. Frustrated practitioners have long since devised cost intensive workarounds. In this thesis this problem situation is qualitatively analyzed in great detail leveraging insights from three Grounded Theory studies. Employing Everett M Rogers Theory of the Diffusion of Innovation strategic improvements to the onboarding situation are presented. Lastly tool support for the strategies developed in this thesis is presented and evaluated. **DB2**, 1988

Logical Partitions on System i5: A Guide to Planning and Configuring LPAR with HMC on System i Nick Harris, L.R. Jeyakumar, Steve Mann, Yogi Sumarga, William Wei, IBM Redbooks, 2006-05-17. This IBM Redbooks publication gives a broad understanding of the new System i5 architecture as it applies to logically partitioned System i5 systems. This functionality is delivered through a new configuration and management interface called the Hardware Management Console (HMC). Reading this book will help you design your server partition scheme from scratch. We also discuss the requirements to create a solution to migrate from existing iSeries servers with and without logical partitions. This book will help you install and configure logical partitions (LPARs) on System i5 systems. You will understand how to set up the server and HMC via the Guided Setup Wizard. We also cover the creation of multiple i5 OS partitions where the OS could be IBM i5 OS AIX or Linux.
