our lives how we work what we eat our health how we communicate what we know and believe whom we elect and how we relate to one another and to nature Their power over markets trade regulation and most every aspect of our governance is more intrusive and farther reaching than ever They benefit from tax breaks government guarantees and bailouts that we must pay for and have no control over Their accumulation of capital creates immense wealth for a minuscule elite deepening disparities while politics and governance become ever more subservient to their power They determine our skills and transform employment through the tools and services they create as no other organizations can They produce a vast array of goods and services with labor marketing and research that are more intrusively controlled than ever as workplace rights and job security are curtailed or disappear Our consumption of their products and their capacity to promote wants is deep and far reaching while the waste they generate raises concerns about the survival of life on our planet And their links to geopolitics and the martial domain are stronger than ever as they influence how warfare is waged and who will be vanquished

Technology and Oligopoly Capitalism s critical multidisciplinary perspective provides a systemic vision of how oligopolistic power shapes these forces and phenomena An inclusive approach spans the spectrum of technology oligopolies and the ways in which they deploy their power Numerous previously unpublished ideas expand the repertory of established work on the topics covered advancing explanatory quality to elucidate how and why technology oligopolies operate as they do the dysfunctions that accompany their power and their effects on society and nature This book has no peers in the literature in its scope the unprecedented amount and diversity of documentation the breadth of concepts and the vast number of examples it provides Its premises deserve to be taken into account by every student researcher policymaker and author interested in the socioeconomic and political dimensions of technology in America Always a Winner Peter Navarro, 2009-08-24

Klein, 2015-01-28 This is the first book to present marketing strategy of high tech products and services in a legal economic and global context From software to hardware from pharmaceuticals to digital movies and TV the authors argue that the understanding of intellectual property rights IPRs is essential to devising effective marketing strategies [The Rise Of The New Economic Powers And The Changing Global Landscape](#) Haico Ebberts, 2022-12-19 This book explores the catching up process of a group of large emerging markets the

New Economic Powers This process is extremely robust and should be considered as the defining trend of our age resulting in a pivotal change in world economics and politics The outcome is that the West cannot dominate the world as it did in the previous 200 years Today s world is pluralistic and the larger emerging markets are becoming increasingly influential That is the new reality which at times caused and will cause further discomfort and uncertainty in the West In the eight chapters the viewpoints on globalization of nine New Economic Powers are discussed Each chapter is an essential element in understanding the process of globalization and the role the New Economic Powers play in it Essentially their views are guided by a fundamental different look about the role of the market and the government in society compared to what we see in the West The New Economic Powers understand the power of the market to create prosperity but at the same time emphasize the need for government interference This delicate balance is particularly visible with respect to their international trade and investment policies which bring them in conflict with Western countries and multilateral institutions such as the WTO and the IMF The book helps the reader to understand the fundamental choices made by policymakers in the New Economic Powers Pricing and Profitability Management Julie Meehan, Mike Simonetto, Larry Montan, Chris Goodin, 2011-06-28
