Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson,2020-08-18 Meal prepping is meal prepping a meal or recipe then portioning it out to grab and go meals for later If you ve ever kept your leftovers from dinner to take with you for lunch then next time you ve had mini meal prepped Get ready though meal prepping refers to preparing 3-7 days worth of food at a time Think of it like keeping your lunches for the week all at once instead of keeping your lunch for the week You can use this same technique for breakfast lunch dinner and snacks Meal prepping not only saves time and reduces waste and reduces the time to get outside your home whether the plan is a diet or a budget When keeping your meal plan for a day the question is how long will you be able to eat homemade meals without having to do it every day Meal prepping is not for everyone It is good for those who value convenience and for more than just that With meal prepping you can eat the same thing for a few days in a row so if you don't like leftovers or get bored with food meal prepping is not for you If having nutritious food that maximizes your time and budget is more valuable to you than doing something different every day meal prepping is not for you I've generally not seen meal prepping for the first time or maybe one other person do a whole meal Meal prepping for a whole family would be quite difficult but the more people the more it would be a challenge if it is stored in the refrigerator for a long time In addition to the way food is packed the individual nuances of your refrigerator can impact the quality of your refrigerated meal So find the length of time that is acceptable for the food's texture and flavor will be subject to the eater Always begin with the refrigerator's guidelines to be the FDA and then value them against your own preferences In general I don't like to eat more than a few days worth of a meal but I find that better than the food you will find in a store
