Getting To Six Figures Sustainably Monica Leonelle, 2025-10-21 You don't need hacks, hustle, or burnout to hit six figures. You need systems that actually work and that work for you. In *Getting to Six Figures Sustainably*, Monica Leonelle shares 12 of her most enduring frameworks refined over a decade of working with tens of thousands of authors that will help you build a thriving author business with clarity, ease, and longevity. Inside, you'll get cliff notes versions of Monica's best and most requested ideas from across her nonfiction catalog, including *The Hierarchy of Prosperous Creation* (build a career on mindset, craft, rhythm, and resilience), *The Accelerator's Formula* (achieve any goal faster with this powerful 6-step process), *Story Symmetry* (write deeply aligned marketable books that become reader obsessions), *Author Ecosystems* (discover your archetype and use it to design a business that works for you), *Funnel Flywheel* (understand how readers become superfans and then spread your work), *The Fandom Flywheel* (build a loyal, self-sustaining reader base that sells your books for you), plus six more systems for audience growth, visibility, branding, and book virality. Whether you're just getting started or ready to scale to your next level, this book is the business oracle deck every author needs. Keep it by your side as a reference when you're stuck, stagnant, or spinning, and get clear, practical answers fast. It's time to stop guessing and start growing with intention, integrity, and a whole lot of joy. **New York Times Saturday Book Review Supplement**, 1962 **United States Economist,**

and Dry Goods Reporter, 1914 *A Short Media History of English Literature* Ingo Berensmeyer, 2022-08-01 This book explores the history of literature as a history of changing media and modes of communication, from manuscript to print, from the codex to the computer, and from paper to digital platforms. It argues that literature has evolved and continues to evolve in sync with material forms and formats that engage our senses in multiple ways. Because literary experiences are embedded in and enabled by media, the book focuses on literature as a changing combination of material and immaterial features. The principal agents of this history are no longer genres, authors, and texts, but configurations of media and technologies. In telling the story of these combinations from prehistory to the present, Ingo Berensmeyer distinguishes between three successive dominants of media usage that have shaped literary history: performance, representation, and connection. Using English literature as a test case for a long view of media history, this book combines an unusual bird's-eye view across periods with illuminating readings of key texts. It will prove an invaluable resource for teaching and for independent study in English or comparative literature and media studies.
